**Heat** K.T. Fisher

18+ with sex scenes M/F/M AND F/F

It's Lacey's birthday and her best friend Roxie takes her to their favourite night club. Well into their night, they catch the attention of two undercover rockers.

Cole, the lead singer of rock band, Black Inferno, and his brother Mason decide that they are sick of the after parties and want to go somewhere nobody will recognize them. The brothers arrive at a club where they are sure nobody would listen to their rock music, or at least expected to be seen at a dance club.

Here is where the foursome meet. Cole and Mason find out just how close Roxie and Lacey can be, however the girls have no idea they are spending an intimate night with the infamous Masse brothers. To them, they're just two gorgeous tattooed men who are up for a good night of fun. But what happens when Lacey finds herself drawn to Cole, only to find out he has been lying to her all along?

## Book-Lover Book Blog says

\*Book received in exchange for honest review \*

Lacey's birthday night out clubbing with best friend Roxie, turns out to be the best night of her life. She hopes to end the night deliciously, if you catch my drift, and will do anything to get that....from a man or her best friend. When Cole Masse, famous rock star, decides on clubbing with hi brother instead of an after show party, he can't believe his luck in finding a beautiful woman dancing scandalously with her friend on a mini stage in the middle of the dance floor. things get heated up that night and for 2 months they were in sexual bliss. But Lacey doesn't really know who this sexy tattooed hunk really is and what will happen when she finds out the truth from screaming fans?

I liked the simplicity of the book, and the way it's written but the story itself shook my feathers. When Lacey finds out Cole has lied to her for two months, she blows it out of proportion and acts like a teenage brat. I don't see why she was so angry, at by the way she was portrayed. I quickly grew to dislike her character. But I loved the other characters and Cole Masse is definitely a BBF.

I do believe the book needs a re-edit but my rating doesn't include that, I never review on editing.

This book is aimed at mature audiences of 18+ with a lot of sex.

## FTTEBB says

Lacey and her best friend Roxie are closer than most woman are. They have fun with each other when they need a little bit of comforting. This of course can lead to blurred lines. After going to a night club for Lacey's birthday they meet two amazingly hot brother's Cole and Mason Masse who are up to just about anything. The brothers give the two girls an experience they'll never forget before spending some one on one time. Little do Lacey and Roxie know that Cole and Mason are two of the four member of the metal band Black Inferno. Lacey and Roxie can't help but fall for the Masse brothers and spend as much time with them as they can. The secret the brothers are hiding from the girls can ruin everything they have with them if they don't come clean, but Cole is afraid that he'll lose the only girl who has ever meant anything to him.

Lacey is the fun loving, kind and caring girl who will do just about anything for her friends. She has a special relationship with Roxie that no one knows about. To Lacey, they are just messing around and she believes Roxie feels the same. Meeting Cole has changed her life. Lacey has found a man that she is falling madly in love with and making her stay away from any kind of relations with Roxie. Lacey is totally committed to Cole and wants to spend more time with him.

Roxie is the party girl who is up for anything. Her best friend Lacey gives her more that any other friend does and she would do just about anything for her. Meeting Mason in the club that night and sharing a night with him has her questioning her feelings, Lacey and Mason are similar but different. She loves being with Mason and wants more from their relationship. While the guys are away she tries to share an intimate moment with Lacey but the sting of her rejection has Roxie realizing that she has deep feelings for her friend too.

Cole and Mason are not your typical rock stars. Mason was craving a different type a woman to spend time with. After finally getting his older brother Cole to agree to go to a club after the show, he finds Roxie and Lacey dancing on a stage in the middle of the dance floor. The attraction he feels for Roxie is unlike anything he has felt before. She has no clue he's a rock star, so he knows she not after him because he's a rock star but who he is as a person. That just makes him fall for her harder.

Cole thought Mason's idea to go to a club after the show was a bad idea but after seeing Lacey on the raised dancing floor at the club he changes his mind. He knows this is his woman for him and would do anything to make her his. After getting the girls to agree to a fun filled night Cole does share Lacey with the other two even though his instinct is to keep her all to himself. He made sure that was the only time he that anyone else touches his woman. Now he has to find the courage to tell her who he really is before she finds out.

I was gifted this book in exchange for an honest review and K. T. Fisher has another hit series! I loved the Decoy series she wrote so when this one came up for review I wasn't passing it up. Cole and Mason are two of the most interesting brothers I've read about. The fact that they regularly share woman isn't a surprise as they are rock stars but the fact that Mason and Cole wanted more than just a drunken, high groupie shows that they are more than just your typical rockers. The passion that both brothers show for the friends is amazing and I love how they go out of their way to spoil them. Lacey falls for Cole fast and commits to him by turning her friend down when Roxie wants more from her while the boys are away. Roxie is a confused woman who can easily will ends up in a mess if she's not careful. She tries her best to be just with Mason as she has fallen for him but Lacey is never too far from her thoughts.

I was hooked from the beginning of the book and couldn't put it down. I had to know what was in store for these two couples and how Lacey and Roxie's special relationship would affect the relationship with the brothers. This story is a great start to the series and I'm dying to see where K. T. Fisher takes these two couples. She ended this book in the perfect spot to make you hate the fact that you have to wait for the next book in the series.

---

## One-Click says

This was a 2-2 1/2 star read

The concept is a couple of brothers who are in a famous rock band that try to go out to a club (but not a rock club) to spend a night of anonymity. They meet two girls (who aren't the least bit into rockers) and we have four way insta-lust. They end up having a four way, but then break off into couples and fall hopelessly *into* each other, continue spending time together, but never reveal to the girls who they really are. They get in too deep, wait to long, and of course everything goes **Kaboom!**

What you get?

The majority of the first half of the book is sex.

You get "girl on girl", "Girl on Guy" "Guy on Girl" "Guy on Girl on Guy" with a "Girl *under* Girl" twist, and I'm sure a few other scenarios that I'm missing!

There are a lot of editing errors

I thought the premise was good, but it seemed a little choppy to me and quick.

It's a sexy read, and I'll probably read the next one too since they are 99 cent reads.

### **Rob says**

Phoarrrr!!! This book is HOT. Ok so I'm a bloke so obviously the lesbian scene with the two girls in the club snogging each other's face off is going to get me going....but then the orgy scene when the girls were munching on each other threw firecrackers in my boxers!!

Now I've read FF before but I have to say this was one of the best FF scenes I've read for a long time. Nipple twisting and licking folds and nubs is what every man dreams of...no? Ok, maybe just me then ;-)

This is definite wank material and will be a book I revisit during private time haha

Apart from the obvious, what I liked about this book was there was a simple story and lots of incredibly hot sex. Oh was that the obvious! I can't get this book out of my head so I'm off to crack one off and maybe I'll rewrite this review to contain more substance than me admitting to wanking thru 140 pages of the best descriptive sex I've read for ages ;-)

### **Jos says**

4 Stars

Loved this book!!!!!! The reason I didn't give a full 5 stars was because I really wasn't into the whole F/F thing...just not my cup of tea. Although the start was HOT, I really was a bit put off with the whole "foursome" thing...for me personally it was weird and it kind of turned me off going forward because they were all together in that way..... I wouldn't have minded if they were together in the same room and girls did stuff but the fact the guys f'd the other one's girl in that scene, ewwww, I just didn't like it, I guess, and a small part of me just couldn't shake the "weirdness" off that each of the guys were with the other girl...yea it

was brief but just not my cup of tea especially where they continue to interact throughout story..... But with that being said, I am anxious to read the next story as it continues:)

### **Emma says**

This is a series which lives up to it's name... It's full of HEAT!!! This is a tale about a rock band Black Inferno and how if your life is lived in the public eye does anyone really know the real you??

Lacey and her best friend Roxie are a fun, fearless, feisty pair of girls who like to enjoy the good times, something's rather well together. One night they meet a pair of men: Cole and Mase and go onto have a very, very hot night!! Yes it's a foursome so please be aware!!

This leads to Cole and Lacey becoming a couple and everything seemingly being perfect. But theirs one secret being kept from Lacey and should this ever be revealed will everything ever be the same again for her and Cole??

I adored this novella it's full of sex, fights, drama and rock and roll and I can't wait for Ignite the second book to be released to see Roxie and Mase's relationship develops!!!

---

### **Dee says**

The title is more than apt for this book.

Sex + sex + sex + a sprinkle of angst + sex = **Heat!**

---

### **Vickie says**

A nice easy read with lots of hot sex and nice likeable characters. Love getting both POV's and can't wait for the next book to find out what happens with Lacey and Cole and hopefully get to know Roxie and Mason a bit better too.

Good read

---

## Michelle ♥ The Romance Vault ♥ says

For my Goodreads rating I have to go with 3.5 stars.

I liked this book and some areas it was more than like but oddly enough there was an area of dislike too. Let's get the worst out of the way, Now I have read many, many menage books, kink books, sexual pet acting books.... see how diverse my reading can be, well in the case of the MM/FF and FF in this book I absolutely didn't feel it at all. I intensely disliked Lacey's character when it was to do with her FF antics. I truly felt no connection to anything likeable when they first kissed and then paraded on the stage, kissing each other to wind the men up in the club. I felt no connection when Cole and Mason strutted up all hot under the collar after watching these two lovebirds necking. And I felt zero connection or heat factor in the antics they got up to that night as a foursome. But..... when it was just Cole and Lacey crikey they were indeed hot together. I did spare a thought for my co-reviewer whilst reading this 1st sex encounter and wondered if he would be tugging one off to a bit of girl on girl ;-)

Now this is an extremely fast read and getting past my dislike of the prowess at the start the story burned along fast paced. Not a major amount happens, the novella isn't long enough to do much more than, meet, fuck, go out on a date, fuck, fall out - oh fuck; then determine how Cole is going to get his 'love' back.

I reckon this book will be a massive hit with late teens and 20 yr olds that see these antics going on everywhere around them all the time. For an older audience or more sheltered youngsters that maybe don't come across this it'll be a hit or miss with Lacey's preferences and how Lacey is delivered. Personally I just didn't like her personality and the way she was with Mason and seeing how Cole was with Roxy and then be happy to have him to herself the rest of the night and indeed fall in love with this man; well beggars belief eh. Now I can review a book subjectively, I know I had an issue with Lacey and it hasn't left me wanting to 1 or 2 star this book at all because simply put the book is far too good to bash over just my own personal taste.

Gah reading this review it's coming across a tad negative, it's not meant to be in all honesty. It was only that one part that had me caught up on a neg reaction.

The premise and deliverance was good, although I was reading an uncorrected proof, I can imagine the real deal being very, very good indeed.

I have one further niggle about the timeline and the usage of condoms.... I wonder how many stopped and thought - hang on a minute he was bareback last time so why the urgent need to wrap it this time? Did you spot that? Cole and Lacey together had great chemistry.

I really liked the 'most' of this book as I say, I am also looking forward to reading on and seeing whats in store with the next book in this series, Ignite.

I received a copy of Heat in return for an honest review my reviews are my own and are 100% honest.

### **Rosa Sharon (iScream Books Blog) says**

Undercover lover?

This short guilty pleasure was aptly named as it's full of HEAT! Cole & Mason are brothers, both members of the rock band Black Inferno. They decide to go out to a club on night because they are tired of the groupies and want to hook up with some girls that don't know who they are. "Now that Black Inferno is well known they no longer have to work for it. The women come to them, already wet and waiting". Cole really intended to tell Lacey, he really did, but it was so nice knowing that she wanted him for himself and not for his rockstar status. He knew every day that he waited he was risking a fire he might not be able to put out, but he just couldn't give her up and risk losing her when she found out. So he continued the relationship 'undercover' always wearing his hat and shades so the fans didn't recognize him and blow his cover. Lacey just lived in her sexy bubble spending time with Cole in the living room, in the bedroom, on the beach, and on the phone. They couldn't get enough of each other until...it happened. They say hindsight is 20/20, right? Did I mention that her best friend and roommate Roxie hooked up with Cole's brother, Mason. Did I mention that neither of them listen to rock music and it was in a dance club that they all met? Of course it is predictable, of course we know from the beginning what is going to happen, of course it does. But damn it's fun to let it play out one delicious detail at a time, and some details deserve more than one glance (wink-wink).

---
