Listed with Silver Moon as the top most emotional of Cheree's books, I loved Instinct for its raw truth about the pain, the heartbreak, and the guilt that Alex fights.- Loren Weaver

Love it

Alex had been working hard to make things safer for his human friends in the city. It is starting to really pay off. Then things go sideways once again. I'm so excited to read the next book in this series.

Finding Purpose

Alex is devastated by Kalia's death. He feels responsible and is reluctant to return to The Academy. Instead, he decides to fight crime in Greyton. Young girls are being kidnapped and people are afraid to be out at night . He has found his purpose and is finally ready to return to school.

Cheree does a good job with her characters and the plot is always tight. The end is a shocker. I'm ready for the next book.

Sheila Walker says

The end left me cold

Another great story in this series although Alex is only 17 he acts very much like an adult he has seen so much hurt and sorrow in his short life. I recommend this book and am hoping for good news in the next book I'm keeping my fingers crossed

I know these book are listed for young adults, but I am 56 years old and love them. I guess I'm just young at heart. Cheree Alsop is a great author and so far every one of her books have been amazing. I can't wait to go on to book 6.

Another great read from this series! We are introduces to the people of Greyton. Even though it's still illegal to be a werewolf, Alex starts to bring a new light to the myths and legends and is building trust with humans. The story is going in a positive direction and I love the positive things the story is leading to.

Great Series

I have enjoyed the series very much. Though I have to say this was the slowest one so far. It might be because it seemed to repeat background information from earlier books too much. I actually skimmed when I came to those parts and I must have done it at least six times. I also came across more editing errors in this book. The first two in the series only had two or three each. Book editing should improve progressively not get worse. Okay, though said, because it's still a great series and I'm moving on to read the next!

Kathy says

Regret

As per usual, I thoroughly enjoyed this book. Alex is full of regret regarding Kalia's death and has no idea what to do with himself. Boris wants to kill him for not saving his sister and Torin wants to kill him as he was in love with Kalia. Alex took to going to the city to rescue girls who had been taken by gangs. Unfortunately this made him easy for Drogan to find. He wanted revenge for his father's death. Alex is not easy to both capture and keep. More and more he has been morphing out into the super werewolf. Would this keep his friends and loved ones safe? Only time would tell.

Kathy Brickert says
