Mission Critical

Jamie Fredric

Mission Critical Jamie Fredric

It's the Cold War. Commander Grant Stevens, intelligence officer and Navy SEAL, is assigned to the black ops division of the Naval Investigative Service. His present mission: prevent the USS Bronson, the newest, most sophisticated destroyer in America's arsenal from being hijacked.

Stevens and his friend, Senior Chief Joe Adler, will take on Russian commandos and an old KGB nemesis, as they hunt for and try to flush out a Russian mole, who could be buried deep in the heart of the U.S. Navy itself.

David Dalton says

I thought this was a good story. Short, but intense. My only gripe would that it moved pretty fast and almost everything seemed to go in favor of Cmdr Stevens. But I did like it enough to try out a few more in this series (especially since I can read them "free" via the KOLL program.

george agle says

MY ADVICE? PERSEVERE

The first chapter of MISSION CRITICAL...was confusing. I am not Navy personal or their family so all those acronyms were a challenge. But that did not get in the way of the story being told.

Author, Jamie Frederic, tells an unusually tight story. The history rang true for me. And it certainly made me wonder how many times the Navy Seals have changed our future. It seems we owe them a great debt.

The Seals in this story have some impressive tools (bombs, wet gear, small subs, and more ammunition.) Great fun.

Don't let anything get in your way, check out this book by Jamie Frederic. It is impressive.

Jim says

I think that this author has written an interesting and entertaining novel and I will buy and read more of the author's future novels.

Loretta Edgar says

Gripping

Its from a time past but very relevant today in our world of wars. Excellent action kept me reading in one sitting

George Stewart says

An exceptionally well written story!

A great storyline. The characters were well developed. There is a lot of intrigue and action. The ending was surprising. I have the next book in the series downloaded to my kindle to read.

MONHMANY MCCOY says

Mission Critical is Mission possible

Intriguing

This book will hold you from beginning to end! Grant Stevens writes in a Tom Clancy style looking forward to book two!

Jim Weiler says

A good read.

interesting, if a little farfetched. the writing could be a little tighter and the characters developed more, this is my second read of this author.

Chaplain Stanleigh Chapin says

Good, but

The story was interesting, there was intensity and intrigue. Where it got beyond believable was when a naval captain with the years and security checks to command a atomic aircraft carrier is really a Russian citizen who tries to sabotage his ship and others to go back to a home he left at six years of age-Too much

Jim Morton says

Dated relative to TTP and technology and a the depth of story is pretty thin....

don vanwey says

Good read

Suspenseful and compelling full of twists and turns keeping you so during "what else can go wrong"? I thoroughly enjoyed the read.

Peggy Pancherz says

Good book

Read all of the books in order to really enjoy. Characters are realistic and get better and better. Storyline continues to grow and develop.

Thomas Christian says

Page turner

I enjoyed this book from page 1 to the end. Plots and subplots had me late for dinner on more than one occasion. The characters were easy to like. Looking forward to book 2.?

Dennis LaChance says

Best read right at the top.

Excellent read. Code of honor shines brightly. Lots of serious action for the good of the U.S.A. Made me swell with pride. The characters fit the story perfectly.

Jim A says

At under 250 pages, this was a very quick read on a rainy Sunday.

First of what is currently a 12 book series. Not compelling enough for me to go through all of them.

Book One was the basic 'super' operative fare. Not bad, nothing great, either.

Sandra McLendon says

Seals

Very good book, but I guess being an old Navy man means I would have to support it. All kidding aside, it's fast pace read, a book that I could not put down. Great story and kept me guessing on every turn of the page.
