Now and Forever Mona Ingram

Can this be happening? Jenna Samuels returns from a weekend away to find that the man she thought she was going to marry has emptied her bank account, stolen her possessions and left a trail of unpaid bills. Sleeping in her car, she's befriended by a young boy who claims he's running away from home. Charmed by the young scamp, she returns him to his home, planning to have harsh words with the boy's father. But are things as bad at the Carmichael household as they first appear? Jenna puts her heart on the line to find out. Each book in the 'Forever' series focuses on a woman at a crossroads in her life. These romances contain no graphic sex, but instead focus on the woman's story, and how her journey leads to love. Novella-length at between 32,00-40,000 words, they are complete stories, and may be read in any order. Enjoy!

Dawn Myers says

So far this is my favorite book of the Forever Series so far. This was not an instant love it took several weeks. I liked this about this story. Mona Ingram does a really good job of setting up the back story of the characters short amount of pages. Since the Forever Series is all novellas this is hard to do. This is the story of homeless Jenna, lonely Danny and heartbroken Brett. This is the story of how they came together and the journey of 3 people and their love for each other.

Merle says

Nice romance with a twist. The female has been robbed by her so-called fiance and is homeless. The male is a well-known surgeon with a lonely eight-year-old son. Together, they make up a sweet story with villains, past hurts, new friends and an HEA.

Ingram always has a way with women who are strong enough to make their own way; yet with that, they find love. Jenna is a photographer who has lost everything. She finds herself in a position to recover herself and her talent while helping a man and boy who really need it.

You may fall in love with Danny, too.

Good love story different angle of thought

I enjoyed the story however a little unlikely that it would happen in real life. I enjoyed having the son included as one of the main characters.

It is so important to me to read a book that contains no cursing and without the sexually described love scenes. Good clean reading and the author did an excellent job writing about life.

This book was better than book one. The story was more developed and read as more believable. I like the way the author introduced a new character towards the end of the book because it makes you wonder if the next book will be about that character

This is an incredible story.

Imagine coming home from a short vacation to find your fiance has left you financially destitute. That happened to Jenna. The rat took all her money and possessions (including her photography studio equipment), leaving unpaid bills. All she had left was her car, which she slept in. If things weren't hard enough for her, one day she found a little boy in her car when she returned from a park restroom. He was running away to find a new family. After hearing a lot about the youngster's life, Jenna took him back home, ready to have it out with the boy's father. She quickly realized that Danny's dad wasn't the uncaring man she had envisioned but was lost in his own world and had no idea how the child had been feeling. He was devastated to learn Danny had not had a housekeeper/caretaker all day, enabling him to 'run away'. After lots of talk and negotiation, Jenna accepted the job as the housekeeper. Though she had no experience as a housekeeper or in childcare, she made it work. She had a tremendous amount of incentive considering she didn't have a business/income or apartment anymore and the job was temporary, so she would be able to go back to photography, and it also came with a room.

I quickly got lost in this emotional story and easily connected with the characters. Poor Jenna was suddenly broke and homeless after running a successful photography business. Brett was very good at his job as a surgeon but lacking in social skills (at least with his son). Then there was little Danny who was 7- almost 8. He was so cute but very lonely after his mother died. He was always telling his father that it was alright if he had to work late, even though it wasn't OK.

Seriously, this was a great book and I can't wait to try more from this author!

See my other review.

Victoria says

It is a great book to read

Marilyn says

good

this story is one that brings people together who all have things to overcome and things to leave in the past.

Gayla says

Don't bother

This was awful. Not even sure why I kept reading except I hate not to finish a book. It was like a fairy tale written by a 12 year old girl. Every problem was solved in five seconds or less. Absolutely no substance.

Eileen Carter says**Beautifully written**

This story is one filled with charm, romance and happiness. Life can change in a heartbeat Jenna found that out the hard way. But a chance encounter with a young boy, Danny changed everything around.

Brett had been working long hours to forget the past but all it had done was to cause him and his son, Danny to not know each other. That would all change when Jenna came into their lives.

Janeiowa says

This is my first novel by Ms Ingram. It's a sweet love story without explicit sex scenes. [The most that happens are a couple of kisses.]

Monique E. Lacroix says**Great story**

I love the compassion in Mona Ingram's stories. They are well written and they do deliver a message to the reader.

A wonderful, heart warming and unforgettable story! A man unable to get pass the betrayal and loss he has felt since the death of his wife. A woman reeling from the greed and treachery at the hands of her fiancée that has left her broke and homeless. Their common bond of love for a little boy brings them both back from the edge of bitterness and leads all three of them towards the hope of a brighter future. Give yourself a treat and don't miss out on this engrossing novel by the very talented Mona Ingram.
