Sex & the Immortal Bad Boy Stephanie Rowe

Paige Darlington has a problem. See, she's the former apprentice to Satan's right hand, Becka Gibbs. As a result, she's got this pretty much all consuming need to be bad... not her fault, right? Well, that will be a small comfort when she loses all human emotions, including the ability to love and care about those who matter to her.

To keep his brother alive, Jed Buchanan works for Satan Jr., the heir to hell and the most evil being in existence. Jed has been forced to do a lot of unsavory things during his time on the "job" and his latest assignment - killing Becka Gibbs - isn't pleasant either. It only gets more complicated when he arrives at Becka's apartment, and inadvertently attacks Paige, a beautiful, sexy demon who decides that saving his black soul will be just the thing to keep her own from rotting.

But can the Devil's minion and the Devil's assassin possibly find true love?

Anita says

This is book 4 of the Immortally Sexy series, and it's great! You have to read this series IN ORDER, or you won't like it much, but if you do, it's very entertaining. Each of these books is basically a mystery with a romance layered on top. The sex scenes are PG-13, and there is almost no gore, more like cartoon violence. Some of the scenes are laugh-out-loud funny. Not the most memorable characters ever written, but a fun read.

Basic premise: Paige, one of Satan's former minions, was experimented on by Satan and is turning into the most evil creature to ever exist - a wraith. Only she really doesn't want to - she's a sweet, sun-shiny kind of girl. Jed, a rare shadow warrior (don't ask), is damned, and therefore the only person she can touch without killing. She hires him to protect her from herself, but they fall in love while on the search to find her cure and to free Jed's brother from hellish captivity. A happily ever after ending ensues.

Sheila says

Funny! Paige is supposed to become Satan's ultimate weapon but she is so sunshiney and positive, you have to wonder how evil can lurk in her. When Jed meets her, he's not sure what to do with her. He's damned and she makes him hope everything will work out for his brother. Between Satan and Satan Jr. fighting for Paige's soul, Jed trying to break his contract with Satan Jr. and save his brother from becoming Satan Jr's, and both of them falling in love, it's a blast! I enjoyed the story. The only drawback was that an angel named Ralph became Sam for two pages then went back to Ralph. Otherwise, it was a fun, quick, easy read. Pure escapism.

Diana says

Even though she's only existed for a month, Paige is determined to grasp life and live it to the fullest. So when she discovers she was part of Satan's experiment to turn her into a deadly killing machine, she'll do anything to stop it. Crossing paths with shadow warrior Jed, the only one she can touch without killing, they're racing to find a cure before she becomes pure evil.

Paige is an eternally sunny and refreshing heroine, while Jed is a little more of the dark and brooding type. The plot and circumstances are quite bleak and depressing. Although they triumph, it certainly feels hopeless at many times.

Laura the Highland Hussy says

So cute! Paige is too funny and the way she got jed's heart, fabulous! And the scene outside the angel bar where theresia and Dani were criticizing her granny panties, but making her wear a sheer bra and a thong causing Jed to tell her that there was nothing wrong with her original undies? *sigh* wish my hubby didn't

care about grannies. :) I loved the teeny tiny interaction between Rafi and Mona...maybe we'll see them again? And I so hope that Satan and Iris get together again....I love them together. I wasn't sure what to expect from this series, but 4 books in and I LOVE Stephanie Rowe's style and her characters. Each girl has her own personality without being unlikable or too unidentifiable. I will absolutely read anything that follows!

Amber says

At first i thought this series was gonna be dumb because of the titles but it ended up being something that i really liked. This book was different from the other books in the series where as in the other books they had to escape something else this book she had to be saved from herself. I loved the fact that Jed was willing to touch her to calm her down even though it cost him severely, it meant he really cared about her and that is something you dont see very often. Where one person loves another so much they are willing to sacrifice everything to save or please the other.

Robin Reynolds / October Woman says

I read the first three books in this series several years ago, and I loved all three of them. In the third book, Paige, the heroine of this book, was introduced as a secondary character, and I adored her. She provided a lot of comic relief. So I was really looking forward to reading SEX & THE IMMORTAL BAD BOY. Unfortunately, I've just really had a hard time getting invested in the story.

Paige is a Rivka, created by Satan very recently, to harvest the souls of people who are going to hell. She has managed to get away from Satan however, and no longer works for him. Then one day she discovers that any living thing she touches, a plant, a tree, an angel, is burned up and disintegrates. Something Satan did to her without her knowledge in his quest to create the perfect killing machine. Now she's on a mission to find a cure, before her inner wraith completely takes over and she loses all her humanity.

Jed is a shadow warrior, who works for Satan, Jr. Not by choice, but in order to protect his brother from being tortured. And it turns out that, being damned, Paige can touch him and not hurt or kill him. So now he and Paige are teaming up, to find a way to cure Paige, and get Jed out of his contract with Satan, Jr. and save his brother.

And if that all sounds like a silly confusing mess, it is. I'm not sure if the plot is really that bad, or if I've just gotten so far away from paranormal romance in the last couple of years that I just can't connect with it now. Granted, it's been awhile since I read the previous book (2010), but Paige just doesn't seem like the same Paige I loved in that book. She is so desperate to be touching Jed all the time, you'd think she'd been unable to touch anyone else for years and years, not for a day or so. For the most part I just find her to be too dramatic and annoying. I do like Jed, and if the story were just about his problems and solving his issues, I'd probably enjoy it more. Except maybe I wouldn't, since I'm not sure what he sees in Paige, other than that she accepts him for who and what he is.

I gave up at page 164 (out of 314). I just don't care enough about these characters to finish their story.

Review first posted on my blog.

OK, I managed to grit my teeth and get through this book. Can you spell sexual frustration with a capital "F"?!? I can. And this book dishes it out by the page.

Poor Paige the virgin Rivka is more than willing to give it up to the sexy bad boy shadow warrior Jed. There's just one hitch: if she does, she loses her soul and everything literally goes to hell. This author delights in getting you all worked up and gives you no sense of relief until the very end of the book. Ahrugggg.....

That and the character of Paige is way too cheery and upbeat " a'la Mary Poppins" for a demon who is constantly getting all sorts of unconquerable crap tossed in her direction. The only thing that keep me reading was to find out how the author planned to solve the plot mess she's written herself into.

Sorry Rowe, but you've been scratched from my must buy list. Write another dragon book and maybe I'll take a look.

I really, really liked this book! It was at times romantic, often very hot, packed with action, some times even kind of creepy. And it was very hard to put down.

I liked Paige and Jed a lot, although not all the time. There were times when Paige was a little too romantic, a little too sweet and naive, and other times when she was too stubborn to admit, even to herself, that she Loved Jed. And there were times when Jed was kind of creepy and cold. But I still loved them together a lot. I also liked Theresa. Satan was kind of funny. Junior was a spoiled evil brat. I didn't like much Dani, she wasn't a very good friend. And Rafi was kinda creepy.

A very good and entertaining read.

Well I can't say enough how much I love this series of books by Stephanie Rowe. They are so much fun to read.

This one is about Paige Darlington who we met in the last book. She is the newly formed, bubbly, Rivka that managed to escape from her bondage to Satan. Unfortunately she soon discovers that she was used as a new secret weapon and she is destined to become Satan's ultimate killing machine. A wraith whose touch kills anything living and is destined to destroy the world. Being the bubbly, optimistic person that she is she soon discovers someone who does not die from her touch, Jed, a shadow warrior who is under contract to Satan Jr.

Paige hires Jed to be her bodyguard and protect her from her inner Wraith, while allowing her to touch him whenever she wants, since she craves human contact and kills anyone else that she touches.

As Jed & Paige work on trying to save her soul, as well as Jed's brother, and the world, we watch the

relationship bloom.

As with all of Rowe's books in this series, it is fun to read about the adventures of old favorites as well as new characters.

I already know who the next book will be about and I can not wait!!!

Let me backtrack a little. I was at a yard sale about five years ago. I picked up a bunch of romance (and supernatural) books, and this book was one of them.

I had never read Stephanie Rowe's books, and *Sex & the Immortal Bad Boys* was apparently the fourth and final book in her *Immortally Sexy* series. I guess I thought this would be an interesting book. I don't even remember. It had just been sitting on my shelf for the last few years.

I decided to finally read it on Friday afternoon, and then after 104 pages, I had enough. Not only am I not into romance books anymore (who needs to read about romance when I now have a romantic husband), I just found the book ridiculous and way out there. The main character was interacting with Satan, and he wasn't even evil. More like a soap opera villain. In fact, the whole book was like one big soap opera.

Needless to say, I rate it 1 out of 5 stars.

Steph says

Sex & the Immortal Bad Boy is the final book in the *Immortally Sexy* series. While not my favorite of the series, I thoroughly enjoyed it. In fact, I have enjoyed all the books in this series and wish it would've continued.

Paige Darlington, the former apprentice to Satan's right hand and most-favorite Rivka, Becka Gibbs, is having a major problem ... she is killing people with her touch. She doesn't mind killing those that deserve it, but she's not happy about this new change in her abilities.

One night, she meets Jed Buchanan, who works for Satan, Jr. She quickly realizes she cannot kill him with her touch, so she hires his hotness to guard her from herself and touch her. LOL! He agrees to help her try to solve her problem because he came there to kill her, in order to protect his brother. As you'd expect, things don't end up how either of them planned.

This HEA was cute and sexy, as are all throughout this series. The books are light, funny and quick reads. Satan is hilarious! He's one of the funniest characters I've read. All of the characters add to this colorful, entertaining series. If you're in the mood for something funny, light, but sexy, read this series!

Meagan E. Oltman says

I love it cuz the guy in it Jed is damned and that is sooo hot. I do think so far Must Love Dragons is my fav. one yet. Theresa is such a fun character plus she is a dragon. That rocks!

Books are a little longer than I think necessary though. Ok. I get it their hot for eachother and blah blah blah. They are in danger, have to figure out how to not have to kill eachother and both live and blah blah blah. The story could move a long a bit quicker without all the incessant ramblings of I don't want to kill you, but I don't really love you, but I don't want to kill you, but I don't really love you. Maybe I love you. Oh! What ARE we gonna do?! Ok! We get it. Just move on to the action and stuff.

Shelita says

I enjoy this series a lot. I do wonder if it's going to continue.

Kate Adamek says

This one was a huge disappointment compared to the other 3, even though He Loves Me He Loves Me Hot only got 2/5 stars from me. But this one? No, I'm sorry, no.

Paige was only introduced last book so it surprised me she had her own story with a male protagonist that was also new. Talk about having no stock in what happened to either of them throughout the entire story! The series just went downhill and rapidly in this installment. I was sort of hoping Rowe would do a fifth with Quincy (I was praying Quincy, Derek's twin brother, would be a feature in a relationship with someone paranormal but alas it didn't happen). But I think maybe she realized it was time to just end this series once and for all.

By this point all charm and fun are out and exasperation and annoyance fills its place. It's difficult for me now to even remember the plot of this story because the dullness of the male protagonist and the exaggeration of Paige was too much to handle. And then have them fall in love? I'm sorry, I couldn't like her as a protagonist how could Jed have fallen in love with her is beyond me. (Also, Jed? Oh yes, nothing strikes more fear into the heart of man than "Jed." At least Derek and Zeke had cool names.)

It's sad this series had to end on such a low note but I'll always remember the first two as a fun, paranormal romp. The second half of this series? You're better to skip it.

Dhfan4life says

Honestly I was not feeling this book after initially reading about Paige in He loves Me, He loves me Hot. I have nothing personally against cheerleaders or really peppy optimistic people or characters. But Paige truly was grating on my nerves. And now in this book where she has her own story and is to be Satan's top lethal weapon, I really wanted to pull my hair out. Not because she was equally peppy in this book. But this time around she seemed obsessed with a whole bunch of kissing and being possessive over a guy that hadn't even

really said he wanted her or not in the start of the book. That and the fact that she always found time to want sex at the most inopportune times throughout the book. I mean I have heard about wanting someone right here and now. But Paige took the cake with it.

Prime examples being her and the hero of sorts choosing sex over letting in the one Council member that could have helped her. And also having sex in one of the bowels of hell right before she was to turn into the ultimate evil killing machine. That majorly irked me about the book. I get the whole last few hours a live together deal. But come on. I will add another thing that irked me was the fact that throughout all 4 books in this series, there were several familiar and repeat characters. But the main two that kicked the series off didn't even show up again til this last book and very last mintue (which I thought the Guardian of the Goblet whose mother had some sway over Satan and was Satan's own daughter would be much more frequent in the series. After all with the Goblet being used so much I would have thought she would have been called in at least to find more justifiable loopholes. But she was barely a blip on the radar til this book).

And the last thing that still kind of irked me a bit was the portrayal of Satan. The spin on him was funny most times. But he was still too dramatic and theatrical and read like he was a Latin lover or something instead of the ruler of hell. So long story short I don't think I could recommend this book either. And by far Must Love Dragons was my favorite. Not just because I like dragons but because I think that was toned down and felt like a story should be compared to the others.
