The Fortune Beth Williamson

Running from the past...and running out of time.

The Malloy Family, Book 9

French-born Francesca Chastain came to New York with her family to find a better life. Now she is fleeing a nightmare. Her past chases her from New York and she must run, and run hard.

Her journey to the land of milk and honey is interrupted by the accidental squeeze of a trigger. And the man on the other end of her blunder is a man like none other she's ever met.

After three years working Oregon-bound wagon trains, John Malloy has almost saved enough money to start his own horse ranch. And almost met the end of his life at the hands of fiery, green-eyed Frankie, a confusing, frustrating woman who responds to his flirting—then disappears.

No one is more relieved than Frankie when John races to her rescue, but now they're trapped in the wild. And the shadows of both their pasts are closing in...

It was great getting to find out how this wonderful family began. I loved how the characters meet and interacted with each other. The wagon trains going west in the 1840's is the backdrop for the Chastain family and John Mallory is helping the wagon train along. The chemistry between these two is great to read. Francesca wants to be distant and John defiantly feels a spark. There is an interesting back story to Frankie and it is coming back to haunt her. Lots of action, wonderful characters. A must read especially if you are a fan of the Malloy Family.

4 STARS

For anyone who has read Beth Williamson's The Malloy Family series, The Fortune is the first of a new set of books that take us back in time so we get to see how the "older generation" met and ended up together. Most of you who read my reviews know I don't read a lot of historical romance but Beth Williamson is one of the very few authors of this genre that I do read. I've always enjoyed her work and this book is no exception. I always wondered how the French born Francesca (Frankie) Chastain ended up with the rough and tumble John Malloy and their story is one hell of a love/hate relationship.

Taking place during a trek west on the Oregon Trail Frankie meets John when she accidentally shoots him, no really seriously she does! While they claim to take an instant dislike towards one another it's pretty clear that that thin line that separates love and hate is stretch between them.

I really loved watching these two banter back and forth and pretend they didn't feel anything for one another. When Frankie ends up in a bad situation is John that comes to her aid and sees that she is taken care of. Along the way they begin to discover everything that makes the other special and out of the lust they feel, love blossoms.

This was an exciting story packed with many obstacles you would expect from this time period and through it all they persevered and managed to find a love that we know spanned decades. Author Beth Williamson adds another engaging and interesting story to The Malloy Family line and I'm looking forward to seeing what comes next.

The Fortune by Beth Williamson is about John and Francesca Malloy finding their way to their happiness and future. It was a great story of the older Malloy's love story. I can't wait for her sister's stories. Hopefully there will be books of her sister's kids.
