**The Prophecy** Jennifer L. Armentrout

*History is on repeat...*

Seth never thought he'd have a future. But now he's on the brink of having it all with Josie: A tomorrow. A family. A forever. And all that's standing between him and that forever is the Titans. If he helps Josie entomb them -- without killing them, a nearly impossible task for him -- everything he could ever want will be in reach. But he soon realizes that as a god, every little choice he makes can reshape the world for the better... or worse. And in meddling with the Titans, Seth may have just set into motion catastrophic consequences that will force the Olympians to enter the mortal realm and reshape the delicate balance of power that keeps the world from total collapse.

*A price must be paid...*

Entombing the Titans is Josie's top priority. After all, it was what she was born to do. But the plans her father put into play to help her are no longer an option, and the odds she and Seth face in forging their own path are grim. The escalating violence between halfs and pures only increases the danger closing in on them and their friends. Josie knows their chances of succeeding in their task are slim at best -- and if they fail, they might lose everything. But she also knows she's not fighting just for herself -- she's fighting for the man she loves, for their future, for the world. Together with the Army of Awesome, Josie and Seth will face the unthinkable. And to win this war, the ultimate sacrifice must be made.

*For the end is here and the Prophecy will be fulfilled....*

I must admit that I dragged my feet a bit on starting this one. As excited as I was to jump back into this world, it was bittersweet knowing a favorite series was coming to an end. I've read every book Jennifer L. Armentrout has published, and to this day the Covenant series is my all-time favorite of hers. Naturally I was overjoyed when she announced the release of a spin-off series. It feels like I've known Seth for such a long time now, and it's been amazing to see how far he has come since we first met him. Somewhere along the way he managed to steal my heart, and I am oddly proud of his journey throughout the two series.

One reason why I love JLA's books is the excellence of her world building. She never fails to make me feel like I am a part of the story and keep me on my toes. While The Prophecy was certainly an action-packed and exciting story, there was also plenty of romance, humor, and yes, even heartbreak. Josie shone in this final installment. She was such a badass. The way she stood by Seth's side and tried to convince him of his worth melted my heart. While I am sad knowing I've come to the end of Seth and Josie's journey, I am incredibly satisfied with the conclusion of this series. I anticipate plenty of re-reads in my future.

SO AMAZING but I'm heartbroken. I NEED MORE.

What an amazing end to an incredible series. It felt like I was waiting for this book forever but it was definitely worth the wait. I tried so hard to savor it but it sucked me in instantly and I struggled to put it down. I bawled like a baby at the 80% mark. Like serious ugly crying, which was ridiculous because I trust JLA and I knew she wouldn't let me down. The end was so perfect and I cried again, but it was happy tears this time. I'm so sad this series is over. I love Covenant and Titan and I'm hopeful there will be more as the possibilities are endless. I could happily continue reading about these characters and this world for eternity. I am a massive fan of this author's work but these two series are my favorite (and I don't say that lightly because she has written so many amazing books/series.) I'm not ready to say goodbye to Seth, Josie, Alex, Aiden, and co yet so I've started binge re-reading both series from the very start. I cannot recommend this book or this series more highly. Well done, Jennifer, another absolute triumph.

### Ramona says

I like authors that are diverse, that enjoy writing various genres and rock at it. Jennifer L Armentrout is one of them, because she manages to write just about anything and make you love everything about it. Whether is Romance, Paranormal Love or Dark, she is awesome and I admire her tremendously for her talent and capability.

"The Titans" series it's "The Covenant" series spin off and fans know about this awesome universe that Jennifer created. I have to admit that my chronology sucked, because I read "The Return", then all the books

from "The Covenant" and continued with the "Titans". :D Overall, I loved both series, maybe "The Covenant" better, because my loyalties lies with Aiden no matter how wonderful Seth it :D I just have a huge crush and I won't think it will fade ever.

So, "The Prophecy" is the last book from the series and besides "The Struggle", I think it was the best. I don't know if last books have this burden of being the best, because they are the last and the final conclusion has to be epic, but this surely respected everything about it. It was intense, funny, HOT, emotional and nerve wrecking most of the time. The mission to entomb the Titans is against the clock and options are running out one by one. There are not enough demigods to fulfill the task and destruction is near. Josie, Seth, Aiden and Alex have to figure out a way to stop all of this, and stay alive in the process. Sacrifices will be made, people will die and prophecies will be changed.

There are 2 things that I want to talk about. The first is Seth, of course, because I was not his fan in Covenant. I understood his motives, I felt sorry for him, but putting him against Aiden had no match and my attention was utterly diverted. Now that Seth was the hero, I had more time to get to know him and really see him. Besides with humor and arrogance, I liked what he became and the person Josie made him be. It is his credit also, because you can't turn an evil person into a good one, the foundation has to be there, but the real Seth was difficult to discover. Thanks to him, I cried by the end of the book, because the emotions were overwhelming and seeing him so raw and vulnerable made me weep. Seth has come such a long journey and I am extremely proud of him. I sometimes compare him to Loki:))) because I have a love/hate relationship with him. When you think he will do something good, BANG, wrecks it again, but his foundation is good. He was lost, misguided, but found the light that he needed. As a final conclusion, he really stood up to his status, to his personality and became the kind of person worthy of being loved and remembered.

Secondly, I liked his relationship with Josie. It was kind of different from what Alex and Aiden have, because Josie and Seth are beyond fun. They tell each other straight forward what the problem is, they make fun of one another, but they also love each other with a raw passion and vulnerability that breaks your heart. This book is the culmination of everything they fought for and I thank Jennifer for the amazing scenes between them, because their are epic, perfect and really amazing to read about.

Now, after having read all the series, I can sincerely say that it was a success, that Seth managed to demonstrate just as awesome he can be and apart from this, I am glad with all the situations he had to face in order to get there. As he said, "Seth, Greatest Hits" began when he entered the Covenant, but his real life began when Apollo made him protect Josie. I really like it and recommend it to everybody who enjoys a good plot, great characters, funny scenes, but also dramatic and shocking outcomes. As a bonus, our beloved characters from "The Covenant" series are right by our heroes and together they make an excellent team.

5 amber stars!

I loved this series and book. I love all Jennifer L Armentrout's books, but this series definitely pleasantly surprised me.

This was the conclusion of the series and I'm sad that I'm not going to visit this world again. Hope she writes a novella or something else set there.

This book was intense, so many things happened. Sometimes it felt as if the author was playing with my emotions. I got really attached to all of the characters and I didn't want anything bad to happen to them. Just wanted safe and happy!

Seth and Josie's relationship was great as ever. I love those two, way more than I liked Alex and Aiden in the other series. I just prefer them both as individual characters, but also together.

Ending SPOILERS!

I just have to talk about the ending somewhere! This was insane! It was like I knew that probably they won't die, but just it was insane. Seth died and then there was a fucking 2 months gap. I started questioning if he had died for real. I was relieved to find out that he was alright. The wedding was so cute and I was so happy about them and then Josie freaking died! What the hell?!? Afterwards she of course came back to life, but I was definitely not expecting that. Basically in 40 pages both of the main characters sort of died and came back.

Definitely an insane and amazing ending! I'm so glad that I read this series!

Rating: 4.75/5

When I re-entered the titan's world I had a lot of expectations...and I can say that the prophecy and Jennifer L. Armentrout met every single one of them. Action? Check Romance? Check Cocky Seth? Check Heartbreak? Check (because this is not a JLA book if you don't feel like your heart is ripped out of your chest a couple of times while reading it).

The prophecy is (unfortunately) the last book in the series. If you haven't read the previous books stop reading of you might spoil yourself some elements. The book starts right after the end of the struggle. The gang is still trying to find a way to get rid of the titans (who in the meanwhile are having fun creating havoc all over the place) without creating more catastrophe around the globe with only an handful of demigods left. If that wasn't enough tension is running high on campus between the Pures and the Half-bloods. More and more incidents start to happen between the groups and let's just say that it isn't pretty.

Those of you who haven't converted to team Seth by now will probably hop on board. He did a lot of

growing up since the covenant series and in this book, he show a selflessness that few people would have thought him able to. BUT he's also 100% cocky (and sometimes asshole) Seth and yes he's still shirtless often as usual.

I also loved the growing up Josie did in this installment. Her pregnancy made her even more mature and she can't run head first in every situation like she would have liked to. She's also worried about what's in the cards for the children of a God and a demi-god.

Overall, you'll laugh, you'll cry, you'll feel every emotion in the book and you'll have the chance to hang out one more time with Alex, Aiden and the rest of the gang. Jennifer L. Armentrout once again deliver a powerful final to another one of her series. Even if we do have closure at the end I can assure you you'll want more. Now I can only hope Jen will revisit this universe someday!

#### **I received an e-ARC in exchange for an honest review. Review can be found on *\*Milky Way of Books\****

After almost two weeks of trying to gather my emotions over the ending of this book, I am finally able to write the review.

Josie, Seth, and co still haven't found a way to entomb the Titans and at the same time, vast destructions are razing the world. Pures are getting angry and many halfs are also in danger. Yet the Gods give no answer to the questions of everyone.

I really enjoyed the emotion and everything in between in both Seth and Josie. To be honest, if Seth now could go to the past and meet the old Seth, they would have a fist-fight. While Josie doesn't do much in this book, she is the brain of everyone. Alex, Deacon, and Luke are amazing and the bromance between Aiden and Seth is adorable!

I surely didn't expect the second half of the book to make me cry that much...but I cried a lot. The ending was bittersweet, because I became so invested in this world since 2013 and it is hard for me to see it go. But Jennifer Armentrout's amazing writing never stops to amaze me!

### **4.5 stars!**

Wow, Jennifer L. Armentrout knows how to finish off a series, and she's done a great job with this book. Seth and Josie's story comes to its exciting, heartwrenching and satisfying conclusion in a read that had me glued to my kindle and my heart pounding. I laughed and cried, and OMG did I swoon, and I loved it!

Picking up where the last book left off, we find Seth and Josie together, in love, and planning their future.

They have both come so far, and I was thrilled to be thrown back into their loved-up, blissed-out, highly passionate relationship as they continue to go from strength to strength, loving and supporting each other unquestionably, while never losing that sense of fun and the great banter that is so them.

*From day one, she had my back and saw me for more than who I had been, but for who I was...and who I was becoming. Sounded cheesy as hell, but it was true. She was why I was able to start moving on, and she was why I was becoming a better man. But I was still an asshole on most days.*

The couple, along with the rest of the ‘Army of Awesome’ have gathered together and are preparing to take on the Titans. They are still tracking down the remaining demi-gods so that they can unlock their powers and entomb the bad guys once and for all, but they don’t have their full team assembled yet. And as all hell begins to break lose and the Olympians making their appearance, Seth is about to learn that there are heartbreaking consequences to his actions and the mission is about to take a turn as the battle against the Titans looms closer.

*There could only be one reason why Zeus was here.  
He wanted to throw down.  
The moment Aiden realized who was standing before him, he dropped to one knee and bowed his head.  
I, however, did not move, because fuck that shit.*

This is such a great read, and as much as I love these characters, it is Seth that makes these books as entertaining as they are. With his sarcasm, wit and irreverence, he had me laughing out loud so many times. But he also feels very deeply, and I love that we got to explore that side of him, and never more so than in his love for his Josie. This is a man consumed by his feelings for the girl he loves - passionate, protective and adorably sweet, and I was in a world of swoon while reading.

*“What I feel for you increases every waking moment and sometimes that scares the hell out of me but I love you. Yesterday. Today. A thousand tomorrows from now, I will be in love with you.”*

But with time running out, Seth and Josie must fight for the future that they so desperately want. And when the time comes, what will they be willing to sacrifice for it?

OMG, my poor heart was put through the wringer with this book. The story twists and turns, and the character development for Seth and Josie is fantastic as they are put to the test in ways they never have been before. They have both come so far, and they are incredibly strong on their own, but together they are absolute magic and I loved watching it all unfold. And as the tension builds, it makes for a really exciting read, full of the humour that I so love about JLA’s writing.

Just to make it even better, Alex and Aiden are along for the ride, as are Deacon and Luke, who always bring a lot of fun to the story, which in this case was absolutely needed. As well as some of the newer characters we’ve met along the way.

The action wasn't as prominent as I was expecting, but it was definitely there, and the story wraps up really well with everything finished off nicely.

I loved this book. I've said it before that JLA is the queen of YA/NA PNR, and series like this is exactly why. She's given us a great story with strong world building, a great bunch of characters, a strong heroine, an unlikely hero that you cannot help but love and a romance that is both seriously hot and incredibly heartfelt. It's a total win.

4.5 stars.

*\*\*\*Spoilers for the previous books in this series\*\*\**

**The Prophecy** was a stunning conclusion to the Titan Series! It was action packed, emotionally gutting and completely addicting! This is going down as one of my favorite series ever! Here are some of the reasons why I fell so crazy hard for The Titan Series.....

#### **★ Characters that captured my heart**

*So damn lucky.  
Another three words that kept replaying over and over. The thing about luck, though? It was bound to run out.  
Always. - Seth*

From the beginning of this series, Josie and Seth enraptured my heart. And as I closed each new book, I felt

myself grow even closer to them. Along with every one else in the pages. They *all* felt so real. As though I could feel their emotions radiating off of the pages. It was so easy to love them, flaws and all. But Seth? Oh, he will always be one of my favorites. He was the tortured soul whose past continually haunted him. His choices broke his own heart, and mine. Yet he was more than redeemable. And he proved that. Especially in this book! I've never been more proud of Seth! Although, just wait. Because Josie's love and faith in Seth made me cry. She was the perfect match for Seth in every way possible.

**Her eyes narrowed. "I think you can find a better use for your mouth instead of talking."**

**I laughed. "Damn, girl."**

**She grinned at me as she rose onto her elbows. "Just speaking the truth, *Sethie*."**

**"That you are."**

**And so I did.**

### ★ True Love

**"What I feel for you increases every waking moment and sometimes that scares the hell out of me, but I love you. Yesterday. Today. A thousand tomorrows from now, I will be in love with you."** - Seth

There is something so powerful about love conquering all. And what Josie and Seth had was definitely true love. It not only conquered all, but it gave them strength. Strength with each other and it also helped them find strength within themselves. But they definitely didn't have an easy path. They had so many obstacles in their way. Yet they persevered. And their love grew stronger because of everything they faced. I loved that by the end, Seth and Josie truly felt like a power couple.

**"My life really didn't have much meaning until I met you. I always hated the idea of fate, but it feels like this is fate."** - Seth

### ★ An emotional journey

**I curled into myself, a scream of vast agony and despair still pouring from me, tearing from my very soul.** - Josie

The Prophecy was the *most* emotional book in this series. And that's saying a lot, because the last book? I thought that one would break me. Oh how naive I was. I found myself sobbing through *chapters* of the Prophecy. So make sure that you have a box of tissues with you, because I found myself crying *all* kinds of tears. There were happy tears, hopeful tears and then there was also the gut wrenching tears that stole my breath and left me shaking. This was an extremely emotional book. And looking back, I loved every minute of it!

**Lifting her against my chest, I buried my face in her neck as I lost all control. Didn't even care. I fucking sobbed as I held her.** - Seth

## ★ Friendships

**“I want to go with you,” Aiden announced.**

**Seth looked over his shoulder at him. “Are you trying to be my best friend?”**

**Aiden smirked. “I thought we already were best friends.”**

Here's another beautiful thing about this series, it was not *just* about Seth and Josie. There were so many characters that had captured my heart all the way back to The Covenant Series. And they played such an important part throughout this series! They added so much lightness and humor. They had Seth and Josie's backs. They were true friends. And I loved all of the smiles, laughter and even tension they created. Alex, Aiden, Luke, Declan, Solos, Marcus, Apollo and so many others added so much heart to this book!

**A surprised laugh burst out of me. “Baby shower?”**

**“Of course! We’re going to have a huge one.” He clasped my hands and squeezed. “Like, the baby shower to end all baby showers. It’ll be *Supernatural* -themed.”**

**My brows flew up.**

**Luke’s grin was now a full-fledged smile.**

**“How far along are you? Do you know if it’s a boy or girl? When are you due?”**

**Excitement filled Deacon’s eyes. “Can I name it? If it’s a boy, it has to be Sam or Dean. No other options.”**

**“Geez,” Alex laughed. “Come get your boy, Luke.”**

## ★ Sacrifice

**The finality of this slammed into me. This was happening. There was no way out of this. He was going to do it, and I broke. Deep, soul-crushing sobs racked my body as Seth held me. I buried my face into his chest, gripping his shirt once again. - Josie**

Sacrifice was such a beautiful, emotional theme throughout this series. Seth sacrificed his happiness to keep Josie safe, and far away from him. Josie sacrificed her duties and relationship with someone, so she could make Seth realize how much she loved him. I watched this theme happen again and again throughout this series. Every single time it was magnificent. But the sacrifices that took place in The Prophecy? It blows *all* of the other sacrifices out of the water. These crushed my heart and soul. I sobbed hysterically and there was no stopping the pain. Yet the love it showed? It was beautiful. It was selfless. And it was perfect. Absolutely perfect.

**Hope dared spark alive deep in my chest, but so did a terror I’d never tasted before, because hope— it could kill me. - Josie**

The Covenant Series was one of my favorite series. To be able to stay in that world, in a spin-off series, with characters I loved with my whole heart?! Priceless! And with the addition of new characters I absolutely adored, that just made this series such a huge win! So it should be glaringly obvious that The Titan Series easily become one of my favorite series ever. Yet I’m still in complete awe over all of the emotions that were pulled out of me. **I loved every single smile, laugh, heart clutching, sobbing hysterically moment. And to end out this series, I have to say that the Epilogue was EVERYTHING!!!! It was absolutely**

**perfect!!!!** Sigh.

**“You’ve always been the best of me, Josie. I love you.” - Seth**

PS Anybody else want to know more about Erik? I feel like he has a world of issues and trouble just waiting to be dived into. Possibly with Erin.....can a bound demigod even be with a fury?

PPS Chapter 33 "from what we can tell", I'm holding onto that phrase. You'll see what I mean when you read that scene muahaha.

I'm soooooo disappointed. I have to come clean: from the beginning I wasn't the biggest Seth fan but I love this universe so very much and I just have to read everything in it. Having said that, I was still disappointed. The series started out good enough; I remember being thrilled with Seth and Josie and Seth's development. But from the third book I started losing interest. I don't know what happened or who's to blame, but I didn't really care about either Seth or Josie. I felt like the whole plot was dragging. A lot.

This fourth and final book was a huge NO. I don't know where to begin. It was too action packed; too convenient; too plot holey (pretend this word exists). It was just too much.

Especially those last few chapters? Imagine all the worst case scenarios you can think can happen in a book; all of them happened in The Prophecy. I mean come on, give me a break. And the plot holes???????? What in the world? I have SO many unanswered questions it's absurd. I did not expect this kind of sloppy writing from JLA - which I ADORE by the way, I love all of her books. I don't know, I guess this book was a bad moment. Like a really bad moment.

Anyway, I still cried at the ending, cause you know THIS IS THE LAST OF AIDEN AND ALEX WE'LL SEE ~~what do you mean this series wasn't about them~~

**“Te amo ahora ... Te amare siempre.”**

The Prophecy es el cuarto y ultimo \* llora en un rincon \* libro de la saga Titan escrita por la autora Jennifer L. Armentrout y continua teniendo a Seth y Josie como protagonistas.

Esta serie recuerdo que la comence practicamente por mi curiosidad ( y amor ) por Seth, ya que aunque habia disfrutado leyendo la saga Covenant, no se convirtio en una de mis favoritas, en cambio estas novelas si que estan dentro de mis preferidas de todos los tiempos.

Quien me conoce sabe que cualquier historia que escriba la autora se añade al instante a mi lista de TBR, no importa el genero que sea, ya que con el paso del tiempo he descubierto que es una genia escribiendo sin importar la tematica, con este libro en concreto me sorprendio, esperaba que fuera una buena lectura y tenia mis expectativas por las nubes pero realmente fue aun mejor de lo que imaginaba.

La trama esta tan bien desarrollada y narrada que es imposible no quedar atrapada desde el principio pero eso no es todo, la historia de Josie y Seth es tan amena y agil que la devoras sin darte cuenta. No me hubiera importado que The Prophecy tuviera el doble de paginas.

Como es costumbre con Jennifer la novela esta perfectamente equilibrada, no le falta ni sobra ni una sola palabra, las partes sentimentales se fusionan magistralmente con las escenas de accion y el desenlace es simplemente perfecto aunque admito que en varias ocasiones me puso nerviosa que no tuviera el final que yo deseaba ( y ansiaba ) pero por suerte el final de Seth y Josie me dejo muy satisfecha.

El epilogo fue tan hermoso, dulce y tierno que me dejo con una sonrisa tan grande en la cara que aun la mantengo, aunque han pasado varias horas desde que lo termine.

En resumen, no hay palabras para describir este libro, es precioso. No solo recomiendo mucho esta cuarta parte sino toda la serie, te aseguro que no te arrepentiras de darle una oportunidad.

P. D : Que voy a hacer ahora que esta saga finalizo?? estoy muy contenta de haber leido esta historia pero tambien un poco triste de despedirme de este mundo y sus personajes, supongo que siempre puedo releerlo cuando extrañe demasiado a Seth y Josie \* suspiro \*.

**5 Oh my poor heart STARS**

Gods! I'm a mess... I don't even know where to start reviewing this book. My heart is still beating like it's going to come out of my chest and I still have tears in my eyes. I expected an epic story and memorable ending to this series, and I certainly got that, but boy, I was so not prepared for what hit me.

I wanted to jump straight in and finish this book in one sitting, eager to see what this story would offer, but at the same time I wanted to devour each word and take my time in this world. I've been with these characters for several years now, lived their stories, felt their emotions, suffered and loved with them and knowing this was the last installment in Titan series made me feel like I was saying good-bye to an old friend. And I kind of was...

The story continued right where it ended with The Struggle and it was like I never left this world. I was right there again, surrounded by all the godly creatures, trying to figure out how to entomb the Titans, trying to save the world. And of course in typical JLA fashion there were the intense battles combined with some small and big twists that made me bite my nails. There was the sexy banter between Josie and Seth that made me grin like an idiot. Then there was the bromance between Seth and Aiden and all the witty comebacks to the Gods that made me laugh out loud. But above all was the love in this book.

It was completely and utterly breath-taking to read – the devotion, the hot passion, the steamy scenes, the quiet acceptance of the other. It was the perfect combination of everything I look for in a book and then some.

**Josie** was still this strong, defiant, badass girl I started to admire throughout the previous books. She was a bit shy and hesitant in the beginning, but she grew into a confident, determined woman and completely thrived in this final book. I felt sorry for all the things she had to endure. She certainly suffered a lot of pain, but at the end, she was stronger than before and turned into a character to look up to.

#### **And Seth...OMG Seth! Swoon, sigh and repeat!**

I have to admit I wasn't a fan of Seth in the Covenant series. There was time that I truly hated him and wanted to strangle him. There were times I wanted to slap him in the face in here too, but boy, he completely redeemed himself. He was still his cocky, a bit arrogant, somehow annoying self, but his character development throughout this series was truly remarkable and he absolutely and irrevocably stole my heart in this book. He was so caring, patient and overprotective of Josie and his love for her – so selfless and pure, was flowing freely from the pages and simply melted my heart.

They both grew a lot in this series and become better persons individually, but they were truly amazing together. They were just destined to find each other, because it was their love that took out the best in them.

They made a lot of fateful decisions in this series, they certainly made some bad choices and some that completely changed the course of this story. But at the end the real question was how much each one of them was willing to sacrifice to protect the ones they loved?

But will their love be enough to change the Prophecy and what price are they willing to pay to save the world and the people they love? You need to figure that out for yourself, but prepare yourself for the unthinkable and be sure to have a box of tissues nearby.

This was without a doubt the most emotional of the 4 books in this series. I was a sobbing mess the last part of the book and I had to put my kindle down a few times so I could compose myself. The power of the words, the feelings behind them, the emotions flowing from the pages completely stole my breath away. And just when I thought I pulled myself together for the epilogue and I was holding my tears back like a big grown girl, and the dam broke again on the very final words... and I was wiping my eyes again... It was certainly a beautiful, although somehow bittersweet ending that won't leave you indifferent.

**A powerful story of love and absolution. Of heartbreak and loss. Of devotion and sacrifice. Of new beginning.**

THANK YOU, Jen, for this amazing final of this series. I'm not saying good-bye to these characters, because I secretly hope this is not the end of the Army of Awesome.

p.s. and I keep staring at that cover. It's my very favorite of the four! The eyes... the look... all the godly power behind... Hot damn!

What a journey, I loved this one so much!It has everything I wanted and even more!The Prophecy is an incredible mix of action, a little bit drama, a little bit suspense , funny moments, amazing secondary characters and a beautiful romance!

I'm going to miss Seth and Josie so much!They were perfect for each other!Seth will be always my favorite character, he is just perfect for me!Even though sometimes he wasn't right I simply loved him!He cared for Josie so much that he could do everything to protect her!He is caring,passionate and funny!Josie is strong, sweet and funny too!

Overall, it was another amazing book, I loved this series and I'm sad that it's over.
