Education is a critical part of safety - and not getting lost, or knowing how to get found if you do, is one of the most important lessons. Simple techniques to navigate out of dangerous situations are the focus of this handy waterproof reference guide, along with basic compass use and travelling by simple bearings. Contents also cover navigation skills around obstacles, pacing beads, aiming off, and dead reckoning. Developed by noted survival expert and woodsman Dave Canterbury, this is one of a 10-part series on survival skills. Made in the USA.
