C. Montgomery Burns' Handbook of World Domination Matt Groening

In the third volume of the Vault of Simpsonology™ series, The Simpsons' maniacal Mr. Burns takes readers into his wicked world of wealth and power and shares his foolproof tips and tricks for taking over the world.

Does power corrupt? Absolutely! Does the hunger and lust for absolute power course through your icy blue veins? Do you feel the need to rule the world with an iron fist? To subjugate the masses with a whimsical snap of your fingers? To rise above the insolent and unworthy with your superior intelligence and unlimited supply of cold hard cash? Have you ever wondered if there was a simple step-by-step guide for following your impulses and instincts toward world domination? You've come to the right place. Here is the opportunity of a lifetime—the chance to turn your sociopathic needs into bloodthirsty greed! Now you can learn at the feet of the Master of Megalomania . . . Charles Montgomery Burns! Don't just stand there, you sniveling slugabed. Purchase this portable periodical posthaste and leave your conscience at the cash register!

I read books like this one when I have trouble concentrating. It is not at all stimulating, but it helps pass the time.

I received this book from Goodreads Giveaways. The art work in the book was wonderful. Some of the comedy was a little disappointing. The satire seemed predictable - picking on oil companies and Walmart. There were some funny bits and clever spots. Making the book like a children's interactive book was fun.

Natalia Borisova says

A very funny little book with a lot of goodies inside for all Simpsons fans!

mark it as to read

Chris Wasson says

This book was well made.

I like all the pop ups and the little details that went into making it.

Mike Northrup says

A quick, fun read with lots of laughs. A must for any fan of the Simpsons.

Have you ever found yourself wondering how to command the business world to the point of total earthly dominance? Unless you work for Congress, you probably don't have a framework how to get started in your quest for power. That is until now!

The C Montgomery Burns' Handbook of World Domination is your textbook to becoming a titan of industry, a sultan of international affairs, and potentially a member of a shady secret society that controls everything from behind closed doors!

This book will teach you how to dress for success, arm your business office from intruding regulatory agents and annoying employees seeking raises, how to train a lackey, and much, much more.

From the Vault of Simpsonology line of books (a more interactive offshoot of the Simpsons Library of Wisdom), this one was a hoot. A very uncomfortable hoot, but a laugh nonetheless. I think it would have been funnier if without the current political climate. Yet, some of the gags, a couple of which involve Donald Trump, are eerily close to real life now.

Here's the really scary thing: this book was written in 2014! Yet, with very creepy perfection, a bunch of jokes about world dominance having wrung true in the past 24 months in American politics. It's like Simpsons creator Matt Groening is a comedic genius with the power of clairvoyance. And unlike most psychics, Groening is right an alarming amount of the time.

Please don't think that my review nor this book is intended to bash President Trump. It's just that this manual, while written as a gag, hits very close to the headlines, what with the Monty Burns School of Business (Trump University) and selections from Mr. Burns' recommended reading list read like the current administration's take on finance, ecology, and net neutrality.

If you have an Ollie's Discount Outlet nearby, this book can be found for less than \$4. If you are a Simpsons fan, you are going to love this book. But if you are a fan of conspiracy theories, then this book just might become the newest one to keep you up at night.
