Chrno Crusade, Vol. 4 Daisuke Moriyama

It's America in the roaring '20s, and gun-toting exorcist Sister Rosette Christopher is off to Chicago to kick some demon butt! But her demon sidekick, Chrono, is keeping a secret that could cost them their lives. Funny, action-packed, and beautifully drawn, the fourth volume of Chrono Crusade is a great addition to the hit manga series!

Catherine says

Good story line. Love the drawings.

Emmy Lou says

After resting for a little bit, the gang is chased from the hotel. The Chicago branch of the order swoops in to save them, then flies them off to San Francisco. The truth about Chrono's past finally comes to light, and what happens when frolicking at a Thanksgiving festival turns into a run in with the enemy?

Rachel (Sfogs) says

They are all travelling to the same place.
And it looks like a trap! RUN!

Rici says

Man kann diesen Band als die Ruhe vor dem Sturm bezeichnen. Es wird erneut heftig gekämpft, aber die Charaktere entwickeln sich und man erhält auch noch Informationen. Zudem ist das sowas wie eine Atempause, bevor es dem Ende entgegen geht. Chrno versucht Dinge aufzuklären, aber es passiert ständig etwas, sodass er nicht dazu kommt.

Evelyn says

Things calm down after the battle with Rizelle...nope never mind. We're back with that 0 to 60 action. Pursuers are after our heroes so that they can punish Chrono for his crimes against the demon world. Then in a flash we go from Chicago to San Francisco and everything will change.

This series has 8 volumes.

Jennifer Troike says

Chrno Crusade (no it's not a typo, that's how they put it on the Japanese title... it was a typo there but it got published that way, so us old school hard fans keep to it!)

If you are a fan of manga, and like good stories with lots of back drama, beautiful art, and sexy bishounen

guys with wings (uh huh!), then this is a must-read. I mean, it is my absolute favorite all-time manga.
