How do you live without the man who taught you what love is all about?

Malachi Bishop can't. And six years after Taylor's death, he still hasn't let another man into his life.

That all changes when he meets the handsome Cole Malcolm. Their unexpected one-night stand creates a bond that Malachi, no matter how hard he tries, cannot deny. And he finds himself doing the one thing he never thought he'd do again: give himself over to total intimacy.

But the road to true love is never perfect...

Malachi's 'friendship' with Zach, a student at the college where he teaches, could cost him any shot he may have at happiness with Cole. But Zach isn't the only obstacle standing in their way.

In a life filled with disappointments, Malachi has to believe in second chances.

He must let go of the past and open himself up to love.

Can he?

This is basically the same blurb as the authors other book titled Freestyle Love. Not sure why because I see no acknowledgement that this is being republished under a different title.

I was really disappointed in this book. From reading the description you would think everything would be more of a light, funny we never are in the right place at the right time but end up together rom com book but it isn't. I didn't like Malachi at all. He was too hung up on his died boyfriend, which yes is a terrible thing to happen but he never moved on. He needed something more than his job and his crush on student (show surprise surprise kills himself) to make him better.

I felt bad for Cole. He deserved better.

I would not recommend this book if you're looking for a rom com kind of feeling.

## **Heather-Anne Gillis says**

An emotional, thought-provoking journey for the main character. A solid cast of secondary characters.
