Heidi says

This adorable board book holds a fun mix of fairies and their coordinating flower colors. Little lady adored the mermaid and princess inches the most of course. I love the illustrations.

Received via Goodreads First Reads program. I love winning books in their giveaways.

This book is **so pretty!** It's a sweet little board book to teach children colors. Each page has a photograph version of a type of flower, with an illustration of a fairy in the same color scheme. Children can learn the colors and flowers at the same time, and the colors are bright and fun to look at over and over again. Love love.

Trish says

This is a cool book about colors. There are fairies who are the different colors.
