His Billion Dollar Secret Baby by Frankie love

I volunteered to read this book for my honest opinion.

Dane is tired of having fake girls around they might relieve an itch but he wants real women who will be there for him someone he can introduce to his parents. Dottie on vacation for her friend's wedding is determined to have a relax time oh and maybe find someone to pop her cherry. Meeting each other might have been great but seeing each other without clothes made Dottie finally experience what others talked about. For her, it was one and done for Dane he wanted more but both left unaccomplished. Months later Dottie finally finds out his name but with some bad news.

That is all I am saying you will not want to miss this, I can honestly say I teared up wasn't sure how the book would end but of course, we do get our happy ever after. Quick romance but we got it all on this story:

-HEA

-Hot billionaire

-Babies

-And one man desperate of finding the love he let get away

A smoking hot quick read by Frankie Love.

Frankie never disappoints and just because this one was short, hot and sweet she still hit another one out of the park!

Dane is a billionaire on a little get away from New York City to Miami, Florida.

Dottie is on a bachelorette party get away for her best friend from New York City to Miami, Florida.

Dottie catches Dane's eye and they have a brief sexual encounter in a cabana at the luxury Miami Hotel and she walks away much to his disappointment.

Little does he know that he gave her a little gift which she had no way of thanking him for because they didn't exchange any information, not even names.

Over a year later Dottie sees a newscast that brings the name of the man she had that brief affair with and it tells her so much more than she wants to know about him, causing her joy and heartbreak.

This book is so enjoyable for more than one reason but mostly because the heartache turns to joy for the HEA.

I voluntarily reviewed a complimentary ARC of this book and highly recommend it and the author.

This is a fast book.

The sex is fast but hot.

The story line was good but it's a short story so it's to be expected.

Dane is in Miami for a weekend of fun and is tired of all the tanned barely dressed women when he spots Dottie. Dottie is at a bachelorette party for her friend and she was berating herself for not getting a tan and wearing a one piece so that she would fit in with all the other girls.

They connect in every way possible however she doesn't believe he wants anything more so she leaves immediately after and they don't share any contact info but what she didn't know is that she would be bringing a permanent reminder home with her.

The next time she sees him he is on tv and her friend convinces her to go see them. They reunite and their chemistry is hotter than ever but will their relationship be strong enough to handle the secret she has and his problems as well?

I was wondering how the author was going to be able to wrap everything up but I shouldn't have worried as it worked out perfectly and it even includes a little twist. I voluntarily reviewed an Advanced Reader Copy of this book.

Oh,

Dottie and Dane: what a sad and beautiful story. I did not expect that turn of events, whatsoever. Wow, this one was a wild ride.

Frankie Love got me feeling ALL THE FEELS. It's hot, sweet, heart wrenching — all wrapped up in one. A beautiful story.

This book will have you on the feels roller coaster. Wow. Dane is a hot billionaire CEO and Dottie is an independent high school guidance counselor. She's not the typical woman Dane goes for and that's part of her appeal. They have one hot, sexy, romantic hour together that changes both of them forever. Time passes and Dottie hears about Dane on the news and she rushes over to see him. They spend the day together making love and making up for lost time. What's happening to Dane is heart breaking and Dottie not being able to tell him what happened to her after their time together is intense and will have you turning pages wanting to know how it all works out. This story is fast-paced and has everything in it to make a great story. It had me crying, smiling, and wondering how they could ever have their HEA. Frankie delivers another great story. I highly recommend it! I voluntarily reviewed an advanced copy of this book.
