In Tune Laramie Briscoe

The third & final book of the "Red Bird Trail Trilogy"

Forgiveness

Compassion

Love

When Cash Montgomery and Harper Stillwell decided to take a chance on a fling, neither one knew where it would take them. From the highest of highs to the lowest of lows, they are clawing their way back to the kind of relationship they have both fought so hard for.

Cash can forgive, but he can't forget. Harper can apologize, but she can't express her true feelings.

Growing up is hard—just because you reach an age where the world says you're an adult doesn't mean you are. These two are figuring out that life only gets more difficult the older you get, they are learning that love comes at a price, and they are deciding whether it's worth fighting for.

After the Collision—they're desperately trying to figure out if they can ever be in tune.

It was a bitter sweet end to this series. The perfect summer series to keep me on point.

I was totally happy with the outcome of this book it was the perfect way to end it off.
Cash totally proved himself to me in this book. He grew up to be a phenomenal man and his love for Harper is just amazing
I was so happy how thinking ended for him in this book.

As for Harper she finally took control of her life and made me so proud.
Her love for Cash is so beautiful and I love her.

I also love how Laramie always includes her characters from other series it just makes them even better.

As for Remy he is freaking sweet and I really hope Laramie gives us a book for him he needs one.

THE EPILOGUE IS WHAT GOT ME PERFECT!!

LEEANN'S REVIEW
5 STARS

This is a stunning conclusion to Cash & Harpers story.

The 1st 2 books of Cash & Harpers story were about new love, trust, lust Betrayal & hope.
This final instalment is all about growing up & becoming the people they were meant to be.

Both Harper & Cash get the opportunity to face their pasts head on & make peace with it. They learn that when

they make mistakes, to own it & fix it. They also continue to raise Remy & make sure he gets the childhood he deserves.

As always the Heaven Hill MC is there to back them up & show them that you don't need DNA to be a family.

Laramie Briscoe has done a fantastic job wrapping up Cash & Harpers story in a way that answers all the

questions &

lays any doubts these two may have had to rest. I have really enjoyed this series & can't wait to see what we get

next from this awesomely talented author!!

[So, at the very end of book 3 we see Harper and Cash married with a daughter of their own and Remy in college and aged 20! I love an epilogue that shows what happened to the characters a fair distance down the line! (hide spoiler)]

Absolutely awesome conclusion to The Red Bird Trail Trilogy! Cash and Harper just grab your heart in this series! So many things tried to interfere in their relationship but they persevered! Their love for each other and their love for Remy made them such a tight family unit! Cash was so protective of Harper and Remy! Harper had demons from the past that she had to overcome and with Cash's strength, love, and understanding she was able to be free! The epilogue was totally awesome and I just love this series completely! Even greater was getting scenes with our fave characters from the Heaven Hill series! Ms Briscoe rocks it out of the park again with this beautiful series!

**Reviewers note: This review encompasses the three books in Ms. Briscoe's Red Bird Trilogy: Flagger, Collision, and In Tune. This author contacted me to review this trilogy knowing that I enjoyed her other work but gave me the heads up that the first two books in this trilogy ended in somewhat of a cliffhanger type ending and because she and I are Facebook friends she knew how I felt about that and made sure I understood that and in the end I made the decision to wait until all three books were out before reading this trilogy. I will say that I probably would have been fine reading them as they released as the cliffhangers were not too bad and the fact that she released the three books very quickly but I'm also glad I waited because I very much enjoyed being able to pick up the next book immediately and moving forward with this couple.

When Cash Montgomery was introduced into Laramie Briscoe's Heaven Hill series I knew then I wanted to know more about the young mechanic. The Red Bird Trilogy tells his story and it isn't a pretty one; Cash's life has been hard and being that he's only 21 he's endured a lot more than people his age should even have to endure but he's willing to work hard and do what it takes to make something out of himself and to make sure his much younger brother, Remy, never has to deal with everything he's had to in his life. Cash might be a bad boy, tattooed, racing hot shot but there are many layers to him and when he crosses paths with Harper Stillwell the first time he has no clue how much his life is going to change.

While this book is most likely classified as a new adult given the ages of the characters are 21 and 19, between the two of them their life experiences make them so much older. That's not to say they don't have

their moments when they show they are absolutely that age but I have to give them both credit for how hard they work, their goals and ambitions and the fact that they both put 10 year old Remy ahead of themselves and even when they do make mistakes they do it because they are young and are simply trying to protect themselves from what they fear the most.

In this trilogy we see them meet, act on their undeniable chemistry, move in together out of necessity, fall in love, have issues, reconnect, confront issues, begin to heal and figure things out and eventually get to that place where they (along with Remy) are secure, happy and in love. It was hard watching them go through everything they had to in order to get to that happy place. My heart broke for them both as they dealt with the demons in their past and worked hard just to keep a roof over their heads and food on the table. I loved seeing the members of the Heaven Hill MC there to support them, to offer advice and for the help these two desperately needed even when they didn't want to admit it. I also loved watching them mature, grow and change without losing themselves in the process and I applaud them for getting help when they realized they were over their heads and needed a safe place to talk about everything that had happened in their short lives.

Ms. Briscoe has a knack for writing characters that you can believe, gives them lives that aren't easy but yet there is hope and for making them see that having someone beside you can make a difference. I will say that this book is quite a bit sexier than the others she has written and that's not a bad thing, it is just different from her norm but it seemed to fit these characters well.

All in all I very much enjoyed this trilogy and this author did right by these characters by not rushing their story and trying to cram it all into one book where the conflict and problems were solved easily and overnight. These characters needed time and by allowing them that time, the story played out successfully and reasonably. Well developed characters, a thoroughly developed plot and a story that showed us that hard work, dedication and sacrifices can lead you to everything you want out of life made the Red Bird Trilogy an outstanding addition to Ms. Briscoe's body of work.

I have got to admit, I really enjoyed this trilogy more than I originally thought I would. Each book drew me in more and more, I need more of Cash and Harper's relationship. I wanted to know if they were going to make it, if Cash would be able to take care of Remy, if Harper would be able to open her feelings up, and if

Cash would be able to fix what he broke.

The way that Ms. Briscoe has not only showed that even if you are struggling in life, that if you don't give up, if you have someone to encourage you along the way, things will work out. Life isn't always easy. People struggle to make rent, put food on the table, to do the right thing even if it means the easier thing would be to just let someone else handle it. I love how she also proves that family doesn't mean only blood. Family is those you allow to be your family, the ones who have your back, who will always be there for you, who will help out when you need them, that those are the people who are your family.

I am sad to see that the trilogy has come to an end. I hope that we will continue to see more of Cash, Harper and Remy in the Heaven Hill series. The trilogy is now complete, so if you have been waiting to check it out, make sure that you go and get all three books asap. Laramie Briscoe knows how to make her readers fall in love with her characters and have her readers crave for more.

This is a satisfying conclusion to the story of Cash and Harper. I've been a long time reader and fan of Ms. Briscoe's work. It's been great to see her growth as an author. She develops her craft and this book shows it. In Tune is book 3 of the story of Cash and Harper. Read Flagger and Collision first before reading this book. The epilogue is perfect! These books have characters that are younger and more immature than some readers (myself included) may care for but still worthwhile to read as the writing is so well done that you will either love Cash and Harper or hate them as they come to life. I received an ARC of this book in exchange for an honest review.

Maranda Fitzgerald says

In Tune was a great conclusion to the Red Bird Trail Trilogy. Laramie did an excellent job of transitioning each book so the reader wasn't left hanging. Cash and Harper faced some all too real situations and were able to grow together in spite of their upbringings. The incorporation of therapy into many of Laramie's books is refreshing. Very seldom do things magically work themselves out in real life. Their love story took a lot of work, but they both knew where they were meant to be. I would have liked a little more depth to Harper's situation with her father and aunt. I just felt there was something missing to her side of the story. The epilogue was amazing. After spending hours immersed in a book you feel invested in the characters and want to know what happens next. It nicely wrapped up Cash and Harper's story with a fantastic view into their future.

ARC given in exchange for an honest review.

This was the final instalment of the Red Bird Trail trilogy. This series, though it included characters from Heaven Hill MC, was a very different feel. This third book was a chance to understand the characters, as the major plot lines were mostly wrapped up in the second instalment. I loved the chance to really see what made Harper and Cash tick. It made me root for them both, and I love Remy! I hope he gets a story

someday!!

This took me 3 hours to read.

I recommend it if you enjoy: Stacy Lynn, Natasha Thomas or Kelly Elliott.

Fairytales ending!

Wow! Such enjoyable finish for the trilogy! This storyline was one I really enjoyed reading. From the first chapter Flagger to the wonderful ending of In Tune, it was magnetic. Emotionally, it brought tears to my eyes...that had not happened in quite sometime!

Since I read The Notebook by Nicholas Sparks...The chemistry between Cash and Haper is lasting and electrifying. Their love for Remi and later their little girl is warm and refreshing. The way they overcame so many obstacles and secrets...Mrs. Briscoe, please keep these books coming. I love the way you tell a story. Hats off!

Oh, Laramie, what a wonderful story!! It was slow reading for me though, because I just wanted them together so badly!! This trilogy with Flagger, Collision, and In Tune showed how immaturity and youthful selfishness can be played out and hardships can lead to wisdom and lifelong lessons. Classic story of live and learn!! I love Cas and Harper and Remy!!! Beautifully written as I have come to need your books to have faith in great writing!!! Thanks for allowing me to read it and you continue to be my Favorite Author!!!! Christine

In Ms. Briscoe's final installment of the Red Bird Trail Trilogy, she gives Harper and Cash their Happily-Ever-After. In the first book, Flagger, the couple battle against outside demons plaguing the relationship. In Collision, the battles moved a lot closer to home and became more and more disruptive to their life. In this last installment, the couple now faces their own demons, and they have to fight like hell to hold onto each other and the love they've rebuilt. The famous doctor that is on the Heaven Hill MC's speed dial makes an appearance and gives Harper the drive and confidence she has been lacking to face her past. To hunt down the one person who used her as a shield while she was just a child, with great inner strength she facing him again and demands answers. Cash is not one who will sit back and watch the people he loves be scared or shelter their lives because of a horrible past, he pushed for peace and stability. Fighting alongside Harper,

she finally finds the peace she has been searching for and has brought all of her focus back to Cash and Remy, and providing the home they have longed for and can see within reach.

This book has to be my favorite of the three, and not just because of the steamy love scenes between Cash and Harper. In Tune, shows how much life can knock a person/family down and how hard they fight to come back. Loyalty runs huge through the MC world and it has a major place within this novel. The characters are the same great characters Ms. Briscoe introduced us to in the first novel however, InTune, showed us much more depth and complexity in Harper and Cash. I was hopeful throughout the novel that they would find the peace they need so desperately and life would start to turn around. And it did that and so much more, the epilogue was just what we wanted to read about. It added more to the story, it sealed their fate and left the readers feeling satisfied. Overall, In Tune, is a fantastic ending to the series and Ms. Briscoe has done a great job with Cash and Harper.

Addyson Thompson says

This is the third and final installment of the Red Bird Trail Trilogy. I've been eagerly awaiting this one. I couldn't wait for Harper and Cash (and of course Remy, too) to get their HEA...and boy it was worth the wait. This is absolutely my favorite of the three! Their love is so raw, pure and beautiful. Multiple times I found myself grinning like a fool at my Kindle. In Tune has one of the hottest sex scenes I've ever read!

No details of the story are left unresolved. From the issues Harper and Cash have to work through to become a solid couple and family with Remy to the conclusion of the drama within their families. Ms. Briscoe wrapped the entire story up sweetly leaving you wanting for nothing.

I know my review is a bit vague but I really don't want to give anything away. My explanation could not do this incredible trilogy justice. I'm not one that usually cares much for a trilogy but you can't go wrong with this one: sweet, loving, the right about of angst, passion, fire, nothing is missing. Ms. Briscoe you are true inspiration.
