## My Kind of Trouble Becky McGraw

A western romantic suspense series by New York Times and USA Today bestselling author, Becky McGraw with hot cowboys, a dash of suspense and a lot of southern humor--the perfect recipe for Trouble. All of the books in the Texas Trouble series can be read standalone.

### MY KIND OF TROUBLE

When she left her hometown ten years prior, Cassie Bellamy had no intention of ever going back. Phoenix is where she built her life and it was a good one. But when her father is injured, she has no choice but to return. The question in her mind was could ten years be enough time to forgive and forget about the dark-haired devil who sent her running to Arizona?

On a nostalgic whim, Cassie drives her old pickup back to town and her question is quickly answered when it breaks down and Luke Matthews stops to help her. Although he's no longer the nineteen year old badboy from her girlhood fantasies, the sex-on-a-stick, fully grown man is even more of a force to be reckoned with by her heart.

Cassie decides her best plan of action is hiding out at the Double B Ranch until her father recovers and she can go back to Phoenix, but Luke Matthews isn't letting her run. He is on her two-yard line and won't be satisfied until he scores.

Her fiance's appearance proved to be a buffer, but not when she starts to have doubts about him as her business partner too. When those doubts turn into dangerous facts, Cassie realizes the only one she can turn to is Luke. But could she convince the jaded playboy lawmen to help her? And could she protect her heart while he protected her?

\*\*NOTICE\*\* The cover on this book is new, but the content and story have not changed.

### **Barbtrent Sohn says**

I can't believe I waited so long to read Texas trouble series. I'll be head over hill in love with this series for sure. Cassie wasted ten years of her life over a mistake for the man she loved. Now going home because her daddy needed her and being engaged how much trouble could follow her after ten years? Luke the man who stole her heart ten years was still in love with her could he won her back and find out why she left? Could this mixed up fun loving trouble finding couple find love in each other again? Hop on over to the Double B Ranch and find out what kind of trouble you can get into

### **Tamara Stevens says**

I LOVE THIS SERIES !!! Ok so I am going backwards from the first to the last book that I have had read of the series. I want to express that I find it very hard to find interesting, smart, witty, strong characters, and I love when there is suspense and romance.

From the first book and not that far into it you get hooked and hog tied ( I am not going to spoil it for you because well it would take something away from the magic of this wonderful series.

Something that McGraw does is she starts her magics and brings in character that you know have a story they way they interact with the main characters of the story and you think in the back of your mind and some comments they make or how they interact with each other they stand waiting for their chance to embark on their own journey through pages.

I highly recommend that you start with the first book and make your way through through the series I really hope there is many more ...

---

### **Sunny? says**

Both the hero,Luke and the heroine Cassie were very likable and realistic characters. Luke had a poor upbringing and it showed in his speech. Cassie, had a black cloud of trouble following her. Her run first, think later attitude got her into more trouble. These two loved each other for years but misunderstandings stood in their way.

The story clipped along at a perfect pace with laughs, tears and excitement along the way. This is the first book in this author's series. I look forward to the next books. This book showed so much promise in imagination and in hot story telling. Parts of the book seemed familiar and predictable but other parts caught me by surprise. With an other book under her belt this series can go no where but straight up and away. The characters introduced in this book, I hope I will see again in the following books.

The jilted boyfriend was the one weak spot in the book. I have met him in many other books with a different name. He does however make the perfect villian that allows Luke to strut his stuff and Cassie to display her quick thinking. An easy, fun hot read for a cold night by the fire.

## Shirley says

I really debated about whether or not I was going to post this review on my blog or not. Usually when I know that I'm going to have to give a book a lower rating I only post it on GoodReads and Amazon. I know, that's kind of a cop out, but that's just the way I've always done it. What made me reconsider when it came to *My Kind of Trouble*? No other reason than I think this book could have been salvageable and I wanted to give you my reasons why.

See, *My Kind of Trouble* wasn't an awful book, it just went a little over the top. There are some things I can't be specific about because they would definitely be spoilers. I'll try to be as vague as I can, so here it goes:

- One of the most obvious things that would have helped this book is if the author would have shortened it. I know, I usually complain about novellas being too short and not giving the characters or the story more time to develop. In the case of *My Kind of Trouble* though, things could have really been wrapped up in about half the time.
- Cassie came dangerously close to doing exactly what she supposedly hated Luke for. I can handle characters doing stupid things (it happens all the time) but not when it goes totally against every principle they seem to stand on from the beginning of their story.
- Cassie had been gone for 10 years. That wouldn't have bothered me near as much if it would have been just Luke that she left but she also left her father, her home and everyone else she cared about with no explanation. Running away is fine I suppose, but it was the time span that bothered me. I get antsy my daughters don't check in from time to time even though they live close by and they are all in their 20's. I can't imagine how frantic I would have been if they would have left without a word or explanation right after they graduated from high school. Maybe that's just me but I think that it would have been slightly more believable if the time span would have been a little shorter.
- I think that there was one life or death situation or injury too many. I almost gave up on a HEA for this couple. It seemed like every time I thought they were finally going to reach it something else happened.

There were a few more situations that were totally over the top, but I can't really tell you what they were without giving something away. Let's just say that I rolled my eyes... a lot. Just to be fair, there were quite a few people who really enjoyed this book and you can go to GoodReads and check out their reviews. I'm glad that they enjoyed it, this one just wasn't for me. This is the first book in Becky McGraw's *Texas Trouble* series. The next book is *The Trouble with Love*.

## Jamie Rhodes says

I got this book as a freebie, but I enjoyed it so much that I am going to buy the next book in the series. Cassie and Luke were sweethearts ten years ago. A misunderstanding caused Cassie to leave town and harbor resentment. Luke had no idea why she left all those years ago. Now they have a second chance, but it will not be easy. They will have to fight to get their HEA. I can tell that this series is going to be a lot like some

of my other favorite series because we always get a peak at some of the other characters while reading about the two main characters. This book has heartache, angst, love, good friendship, and lots of action. This book does have lots of trouble, but I believe that this trouble starts with a capital "C".

---

### **Wendi Hanson says**

I have to admit this is the first book I have read from this author. I was pleasantly surprised. I loved the characters and could relate to them. I have to admit from country girl to city girl intrigued me. Look forward to reading the next in the series.

---

### **Jen Emig says**

I just really didn't like the writing style. Some things were just so tedious to read. The book needs to a proof reader - so many errors! I believe I even found one place where Cole's name was used and it should have been Luke's name.

The book was long, which was both good and bad. I like a long book but not when I'm bored with it. The story line was just. . . well. . . let's stick with the program. This whole thing started with the ranch needing help. Yet that lasted like one day, then Cassie and Luke got distracted with other things. Cassie's leg cast. . . umm . . . she sure did a LOT of stuff that would seem awfully hard with the cast. It seemed the cast was mentioned when necessary but she had a normal life in between. \*eye roll\* I liked Cassie and Luke apart, but together they were weaker characters. I don't know. . . I was really hoping for a new series to read, but this will not be it. This author has potential, but this falls way short of the mark. :(

\*\*\*\*\*please proof read this book!!!

---

### **Tammy Fisher says**

cassie and Luke and the double b ranch great start to this series am so looking forward to the rest of the series ..... Luke sounds like Sex on a stick and cassie was a head strong woman who knows what she wants 10 years wasted because of mix signals and wrong assumptions but some things life's meant that way love is a strange thing definitely worth 5 stars .....

---

### **Pam says**

3 stars

*"You are nothing but trouble, lady. But damn if you're not my kind."*

Luke and Cassie have a past, ten years ago she ran away letting her greatest fear drive her from the one she gave her love and heart too. Now it's time to go back to the town that raised her to help her Dad get back on his feet, the one thing she didn't expect was to bump into her past her first day back. Luke doesn't seem to be the same boy she left behind but nothing will change her mind and her perfectly controlled life. A life far away from here, where she runs a successful business and is engaged to her business partner, the only thing missing is the love and passion but who needs that when you have your heart is safely tucked away from getting hurt again, she just needs to keep reminding her heart that.

***"How can you marry him when you want me?"***

Luke's spent ten years of his life wondering why, why did she leave, did she lie all those years ago when she said she loved him? So many questions and now it's finally time for the answers. Taking a break from his job to help Cassie out, he plans to get the answers he deserves, but nothing is really ever as it seems. Ever since Cassie's stepped foot back into town, Luke finds himself in nothing but trouble.

***"You're his kryptonite, babe. His weakness. You crook that pretty little finger of yours, and he's following behind you like a dog on point, ready to chew off the face of anyone who crosses you."***

Kinda refreshing to read a full length novel, that covered all its bases all in one book. **My Kind of Trouble** was an enjoyable read, Luke was a loveable guy that was so in love he would do just about anything for Cassie. Cassie on the other hand was so damn stubborn, granted she was so young when she first left Luke, you would think she would learn her lesson but still she kept on running when things got hard. There was an added plot line in the story that kept things a bit more interesting but at the end things were just drawn out a bit too long for my liking. Still a great read for a freebie!

### **Denise says**

Cassie left 10 years ago she thought Luke had cheated on her , she was now coming back to help her father run his ranch while he was laid up from getting throw from a horse .. Cassie didn't even make to the ranch before Luke had ran into her .. She was not happy to see him and he could not understand why .. They did finally had a talk and found out everything was misunderstanding .. While Cassie a stalker named James and he caused many problems for them .. This was the first book I have read from this author and I got to say I loved it .. I am going to book two .. If you are looking for a good cowboy romance you should really read this

Kindle freebie 7/24/16

---

## **Paula Legate says**

This was one of the best books I've read in awhile. I started this book when I got off work, knowing I had the next day off. I ended up staying up all night just to finish the book. There was not a good place to stop for the night...I fell in love with the main characters Cassie Bellamy, and Luke Matthews. I don't want to spoil the book for you, so I can't say everything I loved about this book. I will tell you, I laughed, I smiled, and at times I wanted to throw stuff while I read this book. I will highly recommend this book, if you like a really good romance. The ending is not the same as you would guess, so you have to keep reading till the last page.

---

## **Laura says**

My Kind Of Trouble is a good book it had me interested from the beginning to the end!!!!

---

## **Black Butterfly says**

A PRETTY GOOD STORYLINE THIS IS THE 1ST IN A SERIES OF 10. I'M NOT SURE IF I WILL READ ANY OF THE OTHERS, DON'T KNOW IF THEY WILL BE DIFFERENT FROM ONE ANOTHER, WHICH HAPPENS IN SERIES (TO REPETITIVE). THIS FIRST ONE WAS VERY ENJOYABLE HOT ALPHA MALES, TEXAS SMALL TOWN SETTING AND SMOKIN' HOT SUPER DUPER LOVE SCENES (I MEAN OFF THE HOOK H.O.T. HOT). . . . DID I MENTION HOT SEXY LOVE SCENES!!!!

---

## **Denise says**

I hate to type this. I don't like giving reviews when I don't finish the story, but I'm so aggravated that I have to let out some steam. I am flouncing for the following reasons:

- main female character all of a sudden just became a different person. No, really. She is nothing like she was the first 25% of the book. Just completely turned.
- the whole 10 year stint away from home was caused because she saw her boyfriend in what she thought was a cheating situation. Which, duh, we all know... really wasn't, so she left and they've been apart for all this time because of that. \*yeah, go ahead and roll your eyes. I did.
- main male character went from Sheriff to sucka in 2.5 seconds.
- oh and he just decided one night that he's going to quit being a sheriff and become a rancher and buy all of her daddy's cattle and it's no big deal.
- they are so short on help, but no one is ever actually working at the flipping ranch. But hey, whatever, you're selling it all this week to the man you hated last week but now lurve again.
- oh, and let's not forget that her dad fell off his horse spooked by a snake. then she comes to help him and

same thing happens to her. Original.

- then she tries for some alone time in the middle of the day at lake (you know, while there's so much to do at the ranch and they're so short handed) and he shows up (again, nothing to do at the ranch. which, p.s. he took 3 weeks vacation to help them. disappeared for one of the weeks because he was all butthurt over her) and then they fight and she falls and breaks her leg and gets a concussion.

- evidently one invalid in the story wasn't enough.

- so he hates her again and wants nothing to do with her and is all like, weeee are never ever ever getting back together. And she's all like, but I love you!

- so she blacks out and instead of taking her to the hospital he calls his BFF to the lake and an ambulance so he can walk away, but then sit at his house and go all cookoo for cocoa puffs because he doesn't know how she's doing. Again - you took three weeks off sheriff duty so you could work the ranch, perhaps you wanna go, oh I don't know, to. the. ranch!?

- Then he decides he's going to pick her up from the hospital and take her to his BFFs lake house for a week. Am I the only one this upset over the ranch being neglected? And this dude wants to have his own ranch with 500 head of cattle?

- so, she's all settled in the big bed and he heads back to town to fill her prescriptions and buy groceries, where he runs in to her ex that she dumped two days ago. Yeah, he's still hanging out and apparently unable to bath, shave, or brush his teeth. They argue and push each other and the ex says, "oh, i wanna file charges. Assault." And of course, the sheriff is arrested by his deputy and BFF. Aaaaaaaaaaaaaand, I flounced. Because this is just whack!
