## Pack Council Crissy Smith

*Alpha Council Representative Kurt Moore has his hands full with his investigation into the Church for Humanity...and that's before he meets the woman who throws his world into chaos.*

Alpha Council Representative Kurt Moore is settling into the town of Lovington, California and his new position. He's busy gathering information on the five chapters of the Church for Humanity, making plans to take down the Church and protect his fellow wolves. He's dedicated all his time and energy to his work. He's content and happy, even if he is a little lonely. Then he meets Savannah Conley, the new deputy, and everything changes. Savannah is such a perfect match for him that Kurt starts to question himself and his needs.

Savannah Conley is instantly attracted to the quiet shifter she's introduced to by her best friend. She'd accepted the open position for the Sheriff's department and was looking forward to laying down some roots.

The more time she spends around Kurt, the more convinced she is that Kurt is meant to belong to her. She might only be a human, but she knows deep down that the dark-haired shifter belongs to her. She doesn't have a lot of time to persuade the stubborn shifter to get him on board, though. A wolf shifter who had gone undercover with the Church has disappeared and Kurt is on the hunt. Savannah does what she can through legal means, but knows Kurt will do whatever he'll have to in order to ensure the wolf's safety.

Enemies try to tear them apart. But Kurt and Savannah will show that they are stronger together...and can defeat their adversary.

*Reader Advisory: This book is best read in sequence as part of a series.*

### **Janette Lopez says**

I absolutely loved this book!! And I cannot wait to see where this all is going! With all the new shifters their is so much possibilities!! I simply cannot wait for more!!

---

### **Jamie \*Gypsy Smut-a-teer\* says**

This really has been a good shifter short story series. They are the perfect length to squeeze in between longer reads, and a good story as well.

### **Marie says**

#### **Interracial Relations**

I'm glad the shifters are finally sharing information as a community against their common enemy. I love the names of groups of animals (A group of bears are called sloths - priceless). This story definitely moved the plot along. The hero and heroine are a cute couple. Their best friends are mated to each other and set the couple up. I love the quips from their friends.

### **Megan says**

This is the ninth book in the Were Chronicles and is best read in series order. There are many re-occurring characters and story arcs that are best experienced when read in order.

Kurt Moore has recently moved after accepting a new position with the Pack council. When he looks around at his friends he sees many of them have mated leaving him feeling like he is missing something. When he meets Savannah Conley he is instantly drawn to her and knows that he wants to get to know her better.

I really enjoyed reading about Kurt and Savannah. They are both warm and open people that have no issues with relationships or falling in love. It was a nice change from some of the angst filled books I have read. When they meet the sparks fly and once Kurt realizes he can't let Savannah get away, they are extremely hot and heavy. My one complaint with the first love scene was that it felt scripted, a little too technical at first. They are pretty clear headed then, once naked, they start to really turn on the heat. After that it was sexy and hot.

There was advancement with the plot line that has been prevalent in the last few books. We are introduced to several new characters while we also get cameos from previous characters. I was a little disappointed that there really isn't any action. Action happens but not around the main characters and we just see the planning or the reactions. I was hoping to get in the thick of things, so to speak.

With the new characters in this book as well as the feline shifters introduced a few books back, there is a lot that Smith can do with this series and I am looking forward to seeing what happens next.
