Domestic abuse, is a hard enough to live thru, but writing and reading it is just painful. I loved this book, because it patterns a few things that some women have gone thru. Not sure if the author, has been thru something like this, but if so / not, the characters Deja, Bailey, K & even Rayne (before she passed) have / had been thru something, that no women should even go thru by any man. Thank god they had great men, and support systems, to help them, and also helped others. GREAT JOB TYANNA.. I look forward to reading your other works....

#### **Amazing**

Tyanna did an amazing job of telling the story of millions of women who have forgotten that they have a voice, as well as those whose voices have been silenced through no fault of their own. I loved this novel for so many reasons. This novel is my own personal testament that there is life after abuse. The book was not far-fetched and tells a chilling, yet realistic tale of how many women are existing in today's society. Kudos to you Tyanna! Thanks for telling my story.

#### **Soaked in my tears**

This book was a five star book all the way I really enjoyed it and it made some great points on domestic abuse and the reason so many women chose to stay I glad Daja decided to leave and get the help she needed also she was able to get her happy ever after I would gladly recommend this book to others because it something we all need to read. Keep up the great work.

#### **Could have been better**

This book had a serious message to convey, it just wasn't well executed. I loved the fact that Bailey and Ky were survivors and used a negative to create positivity. Good editing and better writing period would have made this a five star read. I'm glad this was a stand alone - it's the only reason I completed it.

### **Great!!!!**

This book was so good. It took me through something and brought back old memories. I felt connected to Deja because I was her once upon a time. Like me, I'm happy she got out when she did. Never thought emotions would have hit me so hard reading this book, and it left me feeling like a survivor myself. Tyanna you did an amazing job on this book. I'm happy Jace died and I wish he was dead sooner. I'm glad Taji was there for Deja when she needed him the most. The rest of the gang was a huge factor in the story and that what made the story pop. Never known a story would have affected me the way this story did, and it was truly amazing. Great job and I'm looking forward to reading more of your books. First time reading your work and it won't be my last.

Noone deserved to be in a Domestic Abuse situation. Regardless on what someone has done I cried for Rayne and her daughter's Jace was a coward. I love Taji, Bro, Reem, Tee, Ky, Bailey they were all good people. I love the ending. Everyone needs to read this book. You will enjoy

### **Great read!**

This was my first book I read by this author and I couldn't put it down. I know Jase was a fictional character in the book but there are a lot of Jase's in the world and it's sad. I shouldn't say it but he got what he deserved! Looking forward to reading more books by this author.

### **So good yet so sad at the same time**

This book was so good yet so sad. Good because Deja was able to get out of her situation twice, even if Jace had to pay the ultimate price for abusing her. It was sad because Rayne wasn't blessed to have a second chance at leaving her abuser. To know that so many women go through this on a daily basis angers and saddens me. I have witnessed it with my own family members so I know how it can be. I hope that someone who is in an abusive relationship reads this book and uses this to help them get out of that situation. Kudos to the author for writing a novel like this!!

**patricia reid says****Greaaaaatttt read**

Omg this was worth getting I'm so glad you wrote about this. This definitely open my eyes I didn't understand why my sister stayed in a situation like she did by u telling Daja story I understand. I would love to pass this on ...

Great job n ty for putting this out

**Lakimbac says****WOW ??????????**

This was a really emotional read. There are so many people; women and men who are victims of domestic violence. I? really loved what Ky and Bailey did and I? hope there are more centers like this in the world.

The writing was amazing and I? definitely will be reading more of her books?

**Nadia Adams says****Sometimes there's no happy ending !!!!**

Often times we outside looking in can't comprehend why a woman will stay with her abuser or if she gets the courage to leave then go back, but with Deja and Jace you saw how much he instilled fear by threatening the people she loved most. Even when she had support she still went back, but in the end she decided that enough was enough. I am so happy that she will finally get to experience the love she deserved with Taji....

**Simone Kent says****Great book!!!**

I really liked this book!!! It truly is sad that a lot of women are going through domestic violence but have no where to go or no one to turn too. I am glad Deja had Bailey, Ky and Taji with the help of her best friend Tee and everyone else to get through her tough situation. No one really knows what a victim is going through even if they were in a similar situation. Really good job Tyanna!!!

**Starnekia says****The reason for the three**

The reason that I gave this book a three is because the ending for me was weak. To me the ending made no

sense. We still could have gotten our happy ending without it been rushed. Spoiler coming after how things ended with Jace and how it ended there is no way that she was in a relationship with Taji six months later. There was no healing at all. I could go on but I am going to stop there.

### **Alesia Russell says**

WOW... What an eye-opening read. The storyline was both uncomfortable and enlightening. For some that has never experienced abuse.. it answered some of the questions that most people have.... Why stay?? I have never hated a character more than I hated Jace. Glad Deja got her happy ending.. she deserved it. Loved her and Taji relationship and the support system she had in place. Ky and Baily were angels in disguise, and the their relationships with the significant others. Bro, Reem and Taji showed there still good men out there. Triombe was ride or die from day one!

#### **Satisfied Reader**

My heart went out to these ladies. I felt their pain but they were strong individuals. Deja took so much and just exploded. I was so happy she called Maady. I couldn't stand Jace and I wanted one of the guys to put hands on him something terrible. Taji was like a breath of fresh air and it was funny how he was being tested by others. I'm so glad he cared for Deja even tho she was broken. Tyreem,Bailey,Ky and Bro was great together. They had an unbreakable bond. My heart went out to Rayne I wish she was stronger but Terell knew the right words to reel her in. I know its a lot of women that goes through this daily I just pray for each and every one of you
