## **Super Rabbit Boy vs. Super Rabbit Boss!: A Branches Book** Thomas Flintham

Pick a book. Grow a Reader!

This series is part of Scholastic's early chapter book line, Branches, aimed at newly independent readers.

With easy-to-read text, high-interest content, fast-paced plots, and illustrations on every page, these books will boost reading confidence and stamina. Branches books help readers grow!

Oh no! Hero Super Rabbit Boy has been sucked into a strange, yet familiar new world. It's an upside-down land where everyone good is now bad and everyone bad is now good. And the major meanie in this land is none other than Super Rabbit . . . Boss?

Can Super Rabbit Boy make friends with a good King Viking and form a good Robot Army before Super Rabbit Boss destroys everyone and everything in sight? And will Super Rabbit Boy ever find a way to make it back to his real world? This quest could be the most **epic** adventure yet!

With full-color art on every page by Thomas Flintham!

## **Andrea says**

Mirror twins are interesting and a bit unexpected in a video game. The family isn't in this one as much. The video game challenge is more individualized, which makes sense as they figure out being good or bad. I enjoyed book 2 and 3 better, but this is still a pretty good one.

## **Gail says**

mirror/opposite world

---

## **DaniellaA says**

super rabbit boy is the hero

---

## **Andi says**

A fun one. My son continues to eat this series up. It's a great confidence builder for him since he can read them in a day or two.

---

## **Nam says**

It was decent, but he really should have done his chores before he played the game. He isn't at all responsible.

---

## **Pam says**

4th in the series.

This time Rabbit Boy stumbles into a mirror world where everything is reversed from his video game.

---

## **Eric Fisk says**

This is a great book with some great examples for kids. Teaching teamwork and also being nice to each other. Loved reading this with my little one.

---

### **Tranylle says**

The books in this series have been quick, fun reads for the kids. Kind of a basic comic book style I feel. A kid is playing a video game about Super Rabbit Boy, and in this one the rabbit boy goes into a tunnel that takes him to a world exactly opposite of his own and he battles his evil twin. Pretty fun.

### **Amanda says**

This is one of those books that you read because your kids like the book but you would never pick it up to read on your own. My 7 year old son talked me into buying this book after we missed a ferry and went to a bookstore to pass the time. Upon sitting down on the ferry he gobbled the book up in one sitting and then made me check the library catalog on my phone to see if they had the rest of the series so we could pick them up on our way home. Unfortunately they weren't all available right away but as soon as we got them he immediately read two of them aloud to his little sister. By the time he got to the fourth book of the series, I decided that I wanted to check out what was going on to make this series so appealing to my children. This is what I discovered. First of all, all the illustrations look like they come straight out of a video game. (What kid isn't going to like that especially ones like mine who rarely ever get to play video games. So getting to read a book that looks like a video game was about the next best thing for them.) Second of all, it has the same reappearing characters and similar plot lines which makes them predictable which is something that my 4 year old likes. Both kids also think the books are pretty funny with fun dialogue throughout. Unfortunately my brain kept wandering to other places so I kept losing track of what was happening. My kids loved correcting me when I'd ask a question about one of the characters. I think they had some background information from other books in the series which I didn't have so maybe that was another reason I couldn't follow it as well. My son informed me that this book was not nearly as good as the others, so I guess I should have gotten in on the action a few books earlier. For parents and teachers thinking about buying this book, I think its content would appeal to children K-3 but is probably best suited for students transitioning from picture books to chapter books since there is still a lot of pictures throughout the book.

### **Misty Mount says**

Another fun read with my little guy!

The whole book is a video game played by a young boy who really should be cleaning his room. He bargains with his mom for extra game time and takes us with him as he helps Super Rabbit Boy fight his way through the mirror world. (Don't worry parents, he cleans his room eventually.)

---

### **Alex says**

I did not like this book because I don't really like press start books. I also did not like this book because I did not like the part when super rabbit boss kidnapped good king Viking.
