I can't decide between 3 1/2 stars or 4 so I'm going with four.

We met Jack and Payton in book one Wilde Ride and I was anticipating this book once I finished book one but I have to say it wasn't all I was hoping for. Jack was an undercover cop and Payton and Jack met while he was undercover, once Payton found out that Jack had lied to her she cut him out of her life. Payton was never the type to fall for a guy or want more than just one night but with Jack she did. Now one year later Payton has moved to the town she met Jack and she soon runs into Jack. Jack and Payton have both tried to move on and they both have failed. So Jack decides he won't give up on Payton they had something special. But Payton knows she has to prove to Jack that she has moved on so Payton asks a friend to act like her boyfriend why getting the benefits, but Payton doesn't really know her friend and when Payton's put in danger Jack is there to pick up the pieces and convince Payton they were made for one another.

Trying to move forward is harder for Payton than most, she has a secret she has kept at all costs to protect those she loves and that secret has formed who she has become. When someone from her past crashes with her present Payton knows that keeping her secret has put someone she loves in danger and its time she share her secret. While Jack stands by Payton Jack has to learn how to move past the loss of someone he used to love and open himself up to a new love her never could have imagined. I liked this book but had a hard time getting into Meagan Lynn Moores writing style, with that being said I see great potential and the story was good so I'm hoping she continues to grow as an author with the books she writes. I had a really hard time in the beginning of this book relating to Payton and being ok with her actions but when I found out about her past and the extent of her past it was easier to see where she was coming from and empathize with her. I loved Jack and thought he was a great hero, he was crazy about Payton and wanted her no matter what.

The ending of this book was great and I'm a sucker for an epilogue so I was very happy that this book had such a great epilogue. I also really liked that we got to see not only the progression of Jack and Payton's relationship but of Payton herself. I also loved that we got to see the characters in book one and how they are doing now. I'll be reading book three because I'm really interested in the characters in book three, we are given just enough to want more.

HOLY FREAKING Swooning Jack De Luca Right nowHOLY S*** Batman he is one STEAMING HOT ALPHA MAN, Protector, Cop, Sex GOD !!!!!!

This book was better than the last one for sure. In the first one we met Jack and Payton , Payton is Ella's Best friend and Jack well he was a Undercover cop who ticked Payton off and she cut him outta her life.

Two yrs later we are getting the full effect these 2 people have on each other when Jack and Payton see each other for the first time in 2 yrs. Let me just tell you there is some MAJORLY HOT Chemistry between these two people and It will leave you HOT AND BOTHERED !!!!!

“You are my everything,” my lips glide along her mouth. “Without you, I am nothing.” Her tongue lashes out, nervously licking her lower lip. I place a soft kiss on that exact spot and say, “I love you,

beautiful.”

Without giving to much away so you all can enjoy the full benefit of this great story , I will say that we learn all there is to know about Jack and Payton in this book. We learn also how much they truly need each other as well. We see first hand how they have missed each other for 2 long yrs.

“When I first saw you, I wanted to kiss you. When I first kissed you, I wanted to claim you. When I first claimed you, I wanted to love you. I have fallen so deeply in love with you, I’ll never be the same man again. You have effectively ruined me.” <<<< SEE TOTAL SWOONING !!!! JACK F***
DE LUCA**

There is some MAJOR heavy Sex scenes with these two. There are some twists and turns to a plot and you will be going WTH did I just read . Then you will be like that RAT BASTARD !!!!!!

We get a glimpse of the next story and I cannot wait for Evan and Cade.... I am sure they will be as great as the rest so far.

Thank you Maegan for the opportunity to read and review this for you

Lit. 4 Ladies says

Rating: 4 Teacups / 5 Handcuffs

Why We Gave it 4 Teacups:

One of the things we find really excellent about this series so far, is each novel has a different type of hot alpha male. Wilde Ride, had a hot motorcycle MC president, Sweet Ride has the hot alpha detective, and the next book will have a hot underground fighter. Jack may be the law, but still he’s still a motorcycle riding bad boy like we met in the first novel.

This novel focuses on Jack and Payton’s relationship, which takes places several years after the end of Wilde

Ride. They both have not moved on from their sexy weekend together and a chance meeting throws them back into each others lives. We get a chance to learn more about Payton and why she struggles with relationships. In learning more about her character, her history and the thoughts inside her head you begin to like her as a person a lot more than you did in the previous novel. She was annoying and slutty; and now we know the reasons why. The fact that Jack did not give up on her and forces her to deal with her past demons, endeared him to us. He was not going to give up on her or what they could have together.

4 stars. So much better than book one. Jack was such a hot alpha male and I like Payton because she had a backbone and didn't seem to take shit from anyone. Good hot steamy read with some twists and turns. Looking forward to book three.

LZ says

Better than the first IMO. Not as funny, but there were definitely giggle worthy moments. Ahem.....

There's obvious growth as far as the writing and storyline goes. I loved both Jack and Payton. Payton's got a backbone and her vulnerability endeared me to her. Jack's as good as any swoon worthy ALPHA out there.

“When I first saw you, I wanted to kiss you. When I first kissed you, I wanted to claim you. When I first claimed you, I wanted to love you. I have fallen so deeply in love with you, I’ll never be the same man again. You have effectively ruined me.”

I'll definitely pick up the next book about Evan and Cade.

Dee says

Another awesome Wilde Ride read!!!
Jack & Payton are smokin hot together!!

Cannot wait to read the next book :)

Kim Person says

Sweet Ride is the second book in the Ride series following on the heels of Wilde Ride where we first meet that sexy bad ass motorcycle riding President of the Mayhem MC Club & sweet Ella ~ well now we continue on with Payton's & Jack's story ~ There is no way you can forget the chemistry between these two in Wilde

Ride and then the little well BIG secret that Deuce laid out ~ I'm not going to give you too much cause if you didn't read Wilde Ride I don't want to ruin it for you!!

Payton that crazy ass, partying, fun loving, sex loving sassy beautiful girl~ She had me cracking up at times and at other times my heart broke when we learned what happened to her when she was in high school ~ it kind of explains something's but still it was something she has lived with so long that you just ache for her to FINALLY open up and trust someone like ummmm JACK!!!!!!!!!!!!!!

It's been 2 long years since Payton & Jack have been together and boy oh boy their fire never went out when they were apart heck it just EXPLODED in Sweet Ride ~ these two have some serious sexy as sin toe curling sex scenes that had me fanning myself!

Sweet Ride should also be called chaotic ride as well as WTH was that ride! This book has more twists & turns than a windy mountain road~ at times I felt like I was going crazy trying to figure things out ahead of times but once I resigned myself to just sitting back and enjoy the ride I did and it was quite the ride but hell it's PAYTON come on and Jack FREAKING De Luca with his sexy Italian ass and his tattooed rocking body ~ He's working another case and don't you think for one minute that Payton becomes the helpless little Miss nope this girl has big kahunas and she's not afraid to stand up for herself.

The best part is we have a few more stories with a few more sexy boys coming our way along with some Ryder & Ella in this one ~ loved when Payton & Jack paid a little earlier than expected drop by to Ryder & Ella's house never laughed so hard in my life and BEST LINE in a book I hope you get the sh**ts ~ totally freaking rolling when I read that part!

This was a solid 4 star read for me some parts definitely 4.5! It's my opinion that the authors writing style grew from Wilde Ride to this one ~ it read smoother for me and more in depth making me definitely wanting to read the next one ~ so if you like sexy ass bad boys who just might be part of the good guys and wild crazy ass beautiful women then I recommend you get your hands on this one as soon as possible.

An advanced read copy was provided in exchange for an honest review~

Karen says

I give it 5 stars because I love the characters. Writing has improved since the first book too. I still like Ryder more than Jack though.

Vieira says

I really love this series!!! This book was smokin hot and had a great plot too. I want me some Jack De Luca he's a hot Italian Stallion if you know what I mean, with "the beast"!!! Peyton was great too. I feel awful about what happened to her. No one should have that happen to them ever. I can't wait til Evan and Cade's book!!!!

Mary Ceja says

Sweet Ride.... The title says it all. This book was definitely a sweet ride. Add to that the hot steamy BAM! BAM! and drama.

If you read Ryder and Ella's story Wilde Ride, you have already met Payton and Jack.

Payton is Ella's best friend. She is over the top funny. She takes everything to the extreme. She drinks too much, has way too many one night stands, and the filter between her brain and mouth is broken. Jack is a police officer. He worked undercover in Ryder's MC. He is completely Alpha. He is so hot but so sweet too. He wants things his way and only his way. Most of all, he wants Payton!

I went into Sweet Ride expecting another Wilde Ride. I did not get that. This book is not the easy read that WR was. It's funny, but it has nowhere near as much humor. What it did have was heartbreak. I wanted to scream; I did cry. It was emotionally draining, but I loved every second of it.

Vedrana says

Much much better then previous one.

Totally different and more real. Maybe because the girl has issues and dark secret but I enjoyed this one hellova more.

Payton is badass chick and with short fuse and mean right hook so def one of the top heroines at the moment. Not the best, but to 15 maybe.

All in all, nothing new and nothing earth shattering but good ride with chick who never sleeps with the same guy twice.

Yeah, babe...

end the best line:

“What the fuck’s that?” he asks, pointing to my underwear.

Oh shit! I forgot what type of panties I put on this evening.

“Duh, it’s Edward Cullen,” I say, looking down at the panties with my favorite vampire’s face on the crotch. “Haven’t you watched Twilight?” I ask.

“Fuck no! The next time you want a face on your pussy, all you have to do is ask. Now take them off,” he demands.

Payton Clare is hiding behind her party girl persona. She never sleeps with the same guy twice until she meets Jack De Luca or should I say Diesel. You see, when Payton first met him he was known as Diesel, a member of the Mayhem Motorcycle Club. She thought she'd finally found a man she could fall for until she learned he was an undercover cop and a big fat liar! Payton hasn't seen him in two years, but that hasn't stopped her from fantasizing about the only man who has ever brought her to orgasm. Too bad he's a lying sack of shit.

After their years apart, Jack has stumbled into the club where Payton works. Her body betrays her and she quickly realizes that she needs a plan to protect her heart.

I'm so fucking confused right now. The tears start streaming down my face. He does think the same about me as everyone else. I'm a slut and only good for one thing. That's all I am and ever will be.

The plan comes in the form of another hot ass man, Dag who agrees to pose as her boyfriend and in return expects some fun between the sheets. Jack is a persistent man. He knows exactly what he wants and he's not letting her go without a fight. But in time the two learn that Dag is very likely the least of their problems.

Both Jack and Payton have been deeply hurt in the past. They carry around unimaginable guilt and shame. As they grow closer, their pasts come back to haunt them bringing to light new fears and concerns. Their unlikely love may be exactly what is needed to heal two broken hearts.

I want a Jack De Luca! That man is EVERYTHING a woman could want. No wonder Payton had such a hard time staying away! I'm pretty sure I'd still be dreaming of his hunky ass after two years, too. He's the perfect blend of bad boy and law abiding cop. The man is 100% alpha and could make any woman drool. In short, that man is as close to perfect as humanly possible. He never gives up on Payton – Never. No matter what that woman puts him through or who he has to watch her with, he keeps coming back for more. Everyone wants to feel like they're someone's everything. And Payton is definitely Jack's.

This man, this beautiful man before me wants to make sure that I find happiness. That warms my heart, and I know that I'll never be happier than I am when I'm with Jack.

Payton has obviously been through a shit ton in her life. She's strong – I mean STRONG. She's been holding the equivalent of a mack truck sized bag of pain, shame and torment on her shoulders for the last seven years. She's been walking through life alone and numb. I'm telling you, once I found out exactly what was plaguing her I was shocked she could even function. I'd be a blubbering mess of a human being. Just thinking of it makes me want to cry. Thank all things holy she had her sister and Ella. It helps to have people around who love you even when they're completely clueless about what you've gone through. Family, friends – the love and understanding they give... Yup, that's the important stuff.

Based on my history, and what I've been through, no man will ever want to be with me seriously. I'm nothing but trash, or so I've been told, so why not act like it. Ella doesn't know what I've been through and honestly, I want to keep it that way.

The characters are easy to connect with, the story is spot on and the twists and turns keep you engaged and

on the edge of your seat until the very end. I'm not usually one to demand that you add a book to your TBR list, but for this book I will make an exception. *Sweet Ride* has it all – drama, angst, sex, pissed family members, weapon smugglers, tattooed alpha males and more. While this book is technically part of a series, it also stands well alone. I will admit that I haven't read the first book...yet. You can bet your buns I'll be picking it up shortly! Oh, and I'm REALLY looking forward to reading Cade and Evan's story! Honestly, read this book. It's one of the best I've read all year.

Phew. Sweet Ride was more wild I think...

Jack fucking De Luca... YUMMY. Payton and Jack's story was beautiful and HOT HOT HOT.

"What the fuck's that?" he asks, pointing to my underwear. Oh shit! I forgot what type of panties I put on this evening. "Duh, it's Edward Cullen," I say, looking down at the panties with my favorite vampire's face on the crotch. "Haven't you watched Twilight?" I ask. "Fuck no! Oh. My. God. I seriously had TEARS running down my face. Funniest. Scene. Ever.

Cliffhanger – no (book 2 of series)

POV – Jack and Payton

Desirae (Dee) says

Let me tell you how much I love books about Motorcycle clubs. I LOOOOOVE Them. And this book was no exception. Add to that the hot steamy romance and drama and BAM!!! You've given me a book hangover. So you have to remember that this is book 2 in the series, *Wilde Ride* is book one. *Wilde Ride* give you the background for this book. You may want to look into that before reading this book. I recommend both. Okay...now onto the book. I love the chemistry that Jack (aka Diesel) and Payton share. She is such a wild child. Holds nothing back, tells you what's on her mind, and does what she wants. wham bam thank you man..and moves on. And he's such a badass. The muscles, the Harley, knows how to talk dirty.... then they run into one another and BAM!!! If you know their history, you have to question if they

can make it work. Can she give him another chance, while he's working, and she working, and she's also pretending to be in a relationship to make him jealous? There were so many times when I was like OH YES, she has GOT to make this work. but then she starts pushing him away. Then after we learn of what he went through..I'm like LOVE HIM PAYTON! Then when we learn about what she went through, and why she has nightmares... I was all.. JACK YOU GO GET THEM BOYS!! And... That scumbag... with her sister!!! Oh that's not all the drama, don't worry.. Then add in how it ALL ties together and you get some major OMG moments. Man Jack is hot! Had to throw that out there.... Not only do we have all that drama, we also meet his family. SURPRISE PAYTON! And oh heavens.. I have no comment. Let me just say I highly recommend this book and this you should read it... AFTER you read Wilde Ride, of course
