The Cocaine Princess Part 1 Rio

The Cocaine Princess synopsis: Alexus Costilla is an 18-year-old Brownsville, Texas native who bears a striking resemblance to Young Money superstar Nicki Minaj. Raised by her father, a ruthless Mexican drug cartel boss, and her mother, a strong-spirited black woman with an MBA from Harvard, it's no surprise that when Alexus graduates from high school text books to kilos of cocaine and heroin, she quickly becomes one of the best to ever do it in the dope game. After her father, Juan "Papi" Costilla, is sent away to federal prison, Alexus soon finds herself in Michigan City, Indiana with her mother, Rita Mae Bishop. With \$250,000 in cash and 48 kilos of pure cocaine--stuffed inside large soup cans and smuggled into the country through her family's drug tunnel-- Alexus sets out to build herself a BMF-like drug-dealing ring, utilizing the connections of her numerous lovers to maximize her bankroll. But will she survive the wrath of the Costilla cartel when a portion of it turns against her? Find out in...

From Reader Review The Cocaine Princess Part 1 for online ebook

Brittaknee Jay Aims says

I was so excited there was finally a book about an area i live close too. I found this book to use a lot of old slang but once u get past that it was pretty good. I dont know about Alexus yet.. On to part 2

Alisha Benjamin says

Alexus

Very interesting storyline! Love it! Is Alexus strong enough for this task or will she allow sex to be her downfall. Actually looking forward to reading all of the novels.

D. says

Where to begin... the writing isn't bad, the story itself is interesting. It's just Alexus. She came off to me as a ghetto Mary Sue: perfect at the drug game, a sex expert when she's never been intimate with anyone, everyone lusts after her... all of this at 18 and fresh out of high school. Then again, some of the key characters came off as being too flawless. Most of the characters, honestly, just aren't believable. Aside from that and the constant references to brand names, I enjoyed the story.

JazzyRacquel says

Great Read

This book had me captivated from the beginning to the end!

Yes there is a lot of name dropping and I've read some book that had some corny ass name dropping but this author blended everything well and it didn't bother me one bit ... It actually gave me a better picture of the story.

I would definitely recommend this book to others.

Now on to book 2 !

Ashley Zoe says

Typical

It's okay just the storyline can be better put together and it's to over exaggerated. Maybe it will get better as you continue to read

Ross Coburn says

I picked this up after reading that the author had such spectacular success. I'm not too proud to look for cues as to how to hook a reader or find an audience wherever they might be dug up.

Have to say though, it... Well, whatever appeal is beyond me.

The characters are comically absurd clichés, who are spitting images of celebrities to further lessen the burden of evoking them, and the book otherwise read more like a product placement class than a book. Everything is branded and labelled, right down to someone wearing not a 'Bulls cap' but a 'New Era Bulls Cap.'

Even the protagonist's bed was branded, to appeal to the closet interior decorators amongst the readership I suppose.

But again, the man apparently hit number one with this, which I have unavoidably done not once, so he's clearly found his audience and good for him on that score! I don't get it, and I don't dig it, but I wish no one ill in the writing field, except plagiarists like Dan Brown, who no doubt worries about my opinion constantly through the haze of millions separating us. Just, stealing from other authors is low.

Or those who spread hate or fuckwittery, of course. But lest this devolve into another comment on Trump, back on track:

I mean, some detail, some brand IQ is certainly an asset, if it worked for Ian Fleming... But this is just ridiculous, and shows more ability with a search engine than taste. It's fairly clear the author is aspiring, which again, nothing wrong there, but the name dropping comes off so monotonously metronomic that it goes from amusing to annoying to actually making the story hard to read.

I can't comment about the drug dealing aspect, not having any experience or relevant research done there, but as a pants-warmer this fizzled, the protagonist couldn't be any more plastic if she were 'Alexus by Mattel,' about the only product placement the author missed.

No hate here, just an honest opinion. If you write the good ones, gotta write the less so, or so I feel. Otherwise the reviewer risks coming off as a shill. (Pointing that at precisely no one in this thread, mind!)

Lisa says

Very short! A little off kilter! Could not have been too bad cause I want to read part 2!

Cynthia says

HEADBUSSA BANGER

I over live for books like this. Jumping into part 2. These are books that I must read again. Great job

Neka Bellamy says

Good Book

I Gave it a five because I liked the story line I was pulled into the book as if I was one of the characters

Michelle Ogden says

This book was an okay quick read. Would have liked to know more information about the Castillo Cartel Family history.

Shannon says

Starts off just right from the beginning to the end the characters made me laugh Alexis is gonna be just like her father was before he went down this book is full of action & drama I loved it & now I'm ready for the next book. I'm hooked

Robin Perryman says

Just Okay

Hmm. So far, so good but this was just setting the tone. Not too much happened yet but I can see the possibilities. My issue is that it stopped so suddenly. It didn't leave me excited to read on because it just faded out. I'm also not too thrilled with Alexis. She could be a little smarter. She's not a thinker. She's more of a slut than a drug dealer. Sex seems more important to her than money. I will read on and hope it gets better.

Natasha Russell says

Great Read!

I could not put this book down. It had a great mix of sex, drugs, and violence. I will read the next book in

this series!

Lisa says

DISAPPOINTED. THE BOOK STOPPED JUST WHEN IT WAS GETTING GOOD "TO BE
CONTINUED"

Tina says

Slow read

the book started off really really slow and it didn't pick up at the end but I'm goin to read part 2 to see where
this book go at
