### **Marilyn says**

Defiant bride doesn't even describe Madison Whitney. She is the professional Vice President of Marketing for MicroTech, she's a stunning beauty and she has it all, the job, the New York apartment, the degrees.....well she doesn't have it all, she wants a child with no husband. At a very young age, Madison learned from her mother's mistakes not to trust a man so she's determined never to marry. She's also planned on having a baby through artificial insemination at New Born who specializes in sperm storage.

As for the handsome and powerful sheikh, I believe Tariq would be at the top of my list. He's incredibly handsome and his loyalty to his father, his brother's memory and his country definitely puts him at the top. Tariq is aware that he must rise to the cause of someday being the ruler of his country due to the recent death of his beloved brother. He's committed to finding a wife so he searches in his own country and neighbouring regions with no luck. He's determined to return to the US, continuing the search of finding a wife.

One evening he watches a television broadcast featuring Future Born and Madison Whitney is speaking about sperm storage and its use for the future. Just watching her stirs a need in him, and as fate would have it, they meet at his lawyer's cocktail party. Madison seeks him out in an effort to get rid of an unwanted guest. Immediately Tariq realizes who she is, and he acts on his attraction later that night in the garden. Things get out of control and when they are interrupted, he believes himself to be a fool; she's as consumed by lust as he is but in the end she resists and denies all. Tariq realizes he is no closer in finding a wife or producing an heir. And the woman, who spent some time in his arms, can't be trusted. He contacts his lawyer to arrange to have his sperm stored for future use.

Fate steps in again. Madison has arranged to be inseminated and becomes pregnant with the donor she chose? Did she really? No! For some reason which is not known to Madison, she receives the wrong sperm. Tariq has been informed of the mistake and that he's going to be a father and Madison is the mother. There is only one thing to do, marry this feisty woman for the sake of their unborn child and he realizes it will be hard to convince her! When the news is dropped like a bomb, Madison bristles, no way will she marry this proud sheikh. However, Tariq has other ideas. Their journey is an incredible one; from their getting to know each other, to their marriage and what fate delivers them. The Sheikh's Defiant Bride is just another wonderful Sandra Marton love story.

Sincerely, there is so much I want to share but that would be unfair to the reader. You're just going to have to trust that this first book in The Sheikhs Tycoon series is so worth reading. Sometimes when you least expect it an incredible story unfolds with so many lessons and this is no exception. Their journey and the love they both realize, just wonderful!

---

## **Delaney Diamond says**

Tariq, who can't seem to find an appropriate bride, decides to freeze his sperm. Madison uses artificial insemination to get pregnant because after having a successful career, she now wants to be a mother and doesn't care about getting married. Unfortunately, she's inseminated with Tariq's sperm. Let the fireworks begin!

He wants his child and the heir to the throne, she wants to maintain her freedom and doesn't want to have anything to do with him. He kidnaps her to his home country of Dubaq, and against their better judgment, the two eventually fall in love.

Another good one from Ms. Marton.

## **Sandra R says**

A nice, light, romantic read

---

## **Tia says**

As I first started reading, I was really annoyed by the hero. I don't think there has ever been a more arrogant hero, ever! Or maybe I just haven't read enough of these sheikh books yet. I was sitting here shaking my head at the heroes comments and thoughts about how he can train a wife simply because he's trained horses. I was so glad that the heroine gave him a run for his money and the hero eventually grew into more of a man. It was a great book!

---

## **Demetra says**

It didn't touch me.

---

## **Asteropē says**

The one thing that annoyed me was the heroine. One moment she's all into Tariq's kisses and advances and giving as good as she got and the next she's yelling at him, implying he's sexually assaulting her. I get she may be emotionally confused or whatever (being preggers?), but the crying assault rubbed me the wrong way. She did this a few times. After he kissed her, after they had sex. She nearly implied he raped her (if you squint, the implication of her words is there). He didn't. This attitude on her part bothered me as it's not okay to cry assault/rape/etc just because you may regret an action or didn't think things through.

---

## **Pam says**

This book was fun quick read. I enjoyed the idea of the Sheikh's sperm he had deposited into a sperm bank for his own personal use, being accidentally used for someone else. Not just anybody else...someone he just met and wanted to grab and kiss, but also wanted to shake until she rattled. When they get in a room sparks fly.....

## **Zuzana Malá says**

Menší výzva v rámci #zhavecteni / #zhavectenivevlaku  
- 155 stran a všechny jsem prožívala s dusícím se smíchem :D  
#endlesslove #instalove #kdyzsesejkzamiluje  
- za velkou dávku absurdity a rozveselení mého života 2/5 :D!!!

---

## **Elizabeth says**

I did not like that whole force marriage stuff the book had going on.

---

## **Stacie says**

A fast read with fast plot. Madison becomes pregnant with Tariq's child. Tariq is the crown prince of Dubaac and needs an heir and wife. But Madison is not the obedient, quiet wife that he envisioned.

2009

Bom, o romance é ótimo.

O casal é super fofo.

O sheik é uma delícia.

Agora, esse negócio de banco de sêmen, já deu! Toda vez que entra na estória, há sempre um engano, alguém especializado, isso me da medo, comete um erro.

Se fosse assim na realidade, a grande maioria das clínicas de fertilização, já teriam fechado. Pois, os sêmen

sempre vão para a pessoa errada.

Assim, não dá!!!

Por isso 2 estrelinhas. Tô cansada de estórias que se baseiam em erros dos bancos de sêmen.
