## **The Wedding Dress** Ellie Keaton

Meg knew exactly what she wanted: to be the Investment Director of Solomon Bank by the time she turned 30. And nothing would stop her. Not the fact that she'd be the youngest one in the history of the company. Or the fact that she'd be the first female Director. And especially not a man.

Then she met Tyler, and everything changed. It was like they were destined to be together. The attraction was immediate, and the follow-through was more passionate and amazing than she could have ever hoped for.

But Tyler was gone now. She could barely bring herself to think about their brief time together. As she stared at her wedding dress, she reflected on the fact that almost everything would be in place: a perfect gown, a perfect venue, a perfect ceremony. But not her perfect groom.

The Wedding Dress  
The Survivors Club Book One

This is a very short, story that tells of one woman's experience with 9/11, Finding love and losing it.

It was a very quick and easy read, but quite enjoyable..

Detailed character development, but the story is, in a nutshell, - they met, lusted, lived together, he died, she had a baby, his family wouldn't have anything to do with her or the child.

I was appalled at the graphic sex scene - I don't think it needed it - it actually made the protagonist seem more like a tramp in my mind. How much of what they had was love and how much was just lust. I shouldn't judge people, but I just couldn't connect with this woman. I am sorry she is raising this boy alone. I am sorry for her loss. But I think I would have been more sympathetic if they had had a more conventional meeting/courtship. I felt like the story about the wedding dress was just an excuse for the author to write several pages of graphic sex.

I won't read any more of her stories (and if I could have given it less than 1 star, I would have)

This is a short novella. I liked the story. It is about the after effects of 9/11 on one relationship. These stories hurt my heart. I know the author is contributing some of the proceeds from the sales of this series to help children who lost family during this horrible unnecessary massacre. The Wedding Dress is free and it is a preview of the other books with other characters in the series - the Survivors Club.

I still get goosebumps when I think about all the unnecessary suffering from this horrible event.

There are moments in your life that are simply branded forever into your memory. Memories that you take with you always, and that you revisit with others with the sentence, “I remember exactly what I was doing when...” My most recent memory like that is of Tuesday, September 11, 2001. The sky was a perfect blue and there was a teeny tiny hint of autumn in the Arkansas wind that was gently blowing that morning. Mark Haines and Joe Kernan were sampling purple ketchup on CNBC’s Squawk Box, and my husband was watching while standing in the middle of the living room dressed in a suit getting ready to leave town for the day, when the segment was interrupted with Haines saying that there were reports of a single engine plane hitting the World Trade Center in NYC.

I had to leave for work and I couldn’t wait to find out what was wrong. Mark promised to call me and keep me updated. At the time I was working as a family practice nurse, and my days were always busy from the time I walked in the door. This day I would prove to myself how strong I could be for others. The television in our area was in the repair shop. I relied on telephone updates from my husband while simultaneously taking care of patients and their families. I held hands with some, I cried with others, all the while, not being fully able to grasp what was truly happening to my country.

When we had time in between patients we would scramble to another area to catch a glimpse of what was happening. We’d hug each other, while making eye contact that said “remain strong”. We put our patients first. I remember one particular phone call from the spouse of a patient who was being seen. I was asked to give instructions to the spouse to go by the bank on the way home and take out all of the money. Then another patient was hysterical with grief because she lost loved ones in the Oklahoma City bombing and she was fearful that the whole country was in peril.

I also had a college world history course that night. I called my professor to see if she was going to cancel class and her answer was something like, “No the terrorists would want the whole country to stop, we’ll be having class and showing them.” I never really liked her or her class much, but I went. She let us talk for a little while then got right into her lecture about ancient China or something.

By the time I made it home, I was emotionally and physically exhausted. My husband postponed his trip, but was still in his shirt and tie when I got home. I don’t remember eating dinner; I only remember watching the news.

Tuesday, September 11, 2001 is a day that I will never forget, so when I received an email from Ellie Keaton asking me to review *The Wedding Dress*, the first book in her *Survivors Club Series*, I was honored to do so.

*The Wedding Dress* is a novella that touches the heart and the mind. It made me think and made me wonder. I wondered how a family member can go on after a tragedy of such magnitude. I wondered how one can get out of bed every day knowing what kind of death their loved one had. I wondered why these tragedies happen to some people and not others.

*The Wedding Dress* also reminded me that it’s okay to grieve and be sad, but it’s also okay to move forward, never forgetting. I was reminded also the true meaning of friendship. Ms. Keaton writes few words, but those few words hold so much meaning. The story may not be a true account, but I bet that there is a shred of reality in there. It was beautifully written and very touching.

Ms. Keaton is definitely on my Reader Radar! You should check her out. She is also generously donating 15% of her proceeds to Tuesday's Children I think you should check them out too!

I didn't have time to get into the story before it was finished. I more a fan of longer books but like this author and decided to give it a try.

### **Too short**

This story of a young couple who were ripped apart by the disaster of 9/11 is very touching and also brings back memories of that terrible day. I just wish this could have been a bit longer and would have allowed us to get to know Tyler's son a little better. I can't say I "enjoyed" this book but I am glad I read it and highly recommend. It will only take you a few minutes to read this story but you will remember it for a long time.

**Mia says**

This is a short, fictional story that centers around one woman's experience with 9/11, and how a great loss threatens to destroy her will to live.

This was a nice blend of drama and romance. I thought the story had a good pace, the characters were interesting, and, overall, I really enjoyed reading it.

The story dealt with:

Depression

Death

Sexuality

Romance

Sexism in the workplace

If you enjoy character-driven short stories you should definitely check out *The Wedding Dress*. I'm glad I read it!

This is the first in the series of The Survivors Club, which talks about lives after 9/11. This story focuses on Meg and Tyler, who met at a work conference. They were about to get married when Tyler was killed on American Airlines Flight 11.

I think that this was well-written, though there would have been places where more character development could have taken place. I liked it, but I didn't love it.

The Wedding Dress  
The Survivors Club Book One  
By Ellie Keaton

Meg had the perfect life she was on her way to fulfilling her dream of being the Investment Director at Solomon Bank by the time she was thirty, she also had the most wonderful fiancé, until one fatal day when her entire life changed.  
September 11th, 2001

Ellie Keaton has just made my "Evil Evil Authors" list. Despite going into the novel with my "tough face" on and determined to read this short story without crying, I did not succeed. I made it through most of it till I hit the end and she did me in. This was a beautiful story of the love and loss that surrounds 9/11. Ellie Keaton managed to create a stunning story in a few short pages that will surely move you, if not you may want to visit a doctor. In the end this is one of those stories that are worth the short yet entertaining read. Not only is the story amazing but the author also donates 15% of the proceeds from this short story to Tuesdayschildren.org which helps children who were affected by 9/11.

Genre: Contemporary Romance  
Length: 34 Pages

Very touching read.

Meg is a woman with a career goal in investment banking. She meets the love of her life, Tyler, at a work conference. While both Meg and Tyler are career oriented, Tyler wants to settle down. With her eye still on the career prize she's been seeking, Meg finally decides her relationship with Tyler is worth taking to the next level, marriage. After all, there is no one that makes her feel the way Tyler does. He is her soul mate and they are meant to be together. Then the calendar hits 9/11 and Meg's life is turned upside down.

ELLIE KEATON has written a beautiful short story of love, loss and living on. This is a tear jerker that I thoroughly enjoyed. Keep the tissue box close by.

### **Stephanie says**

I put off reading this book for a while because of the havoc I knew it would wreak on my emotions...and that it did. It is a short read, but it packs a punch on the heart of the reader. We see the main character, Meg, go from an ambitious, vibrant woman to a woman who is forced to pick up the broken pieces of her life. I loved the unexpected twist (other readers will know what I'm referring to), and I love how we see the survivors come together in both commiseration and healing. I hate reading stories about 9/11 because as an American, it hurts my heart, and I didn't even experience a personal loss associated with it. I commend Ms. Keaton for taking on such a sensitive topic and personalizing it for her readers in such a touching way. You can feel her sincerity to convey the toll this national tragedy took on more than just a nationwide level, but on an intimate level. Heartbreaking and beautifully done.
