**Unbearable** Kristen Hope Mazzola

It is finally my time.

I am an outlaw. The president of the Atlanta charter of the Unacceptables MC.

You can call me Bear.

I've given my blood, sweat, and life to my club. Devotion is a complete understatement.

It wasn't until a cute blonde walked into my garage that I considered giving myself to anything else.

Her perfect smile drew me in. Her sass made me crazy.

I'll do anything to protect my MC - and now her.

## From Reader Review Unbearable for online ebook

### Renee Entress says

4 star

I was pulled right into this short story. The story has grief, pain, secrets, and heartbreak.

If you have not read the below I would recommend reading those book(s) first

Unacceptable (Unacceptables MC, #1)

Unspeakable

Unbreakable

Untouchable

This is Scarlett and Bear's story. Bear is grieving for his friend he lost. When he meets Scarlett, he knows he will protect her with his life. Scarlett caught her husband doing something he should not have been doing and left. Can she trust Bear to protect her heart and not shatter it? Or is she about to lose not only her heart but Bear also? Can Bear have her and his MC also or will he have to give up one for the other?

I loved these characters and the side characters. I felt I could connect with the characters and the story was a great read. Can't wait to go back and read the others in this series.

I recommend this book.

---

### A.BookNerd.Bookseller&Bibliophile.Blog says

This book picks up the series with Bear, he's the president of the Atlanta chapter of the outlaw MC the Unacceptables. He meets Scarlett and there are fireworks. I love how fiercely protective he is of Scarlett. I took a star away because I was hoping for a little more depth with the characters. I can't wait to see these characters make debuts in the further books in the series.

### Lauren says

This book is short, fast paced and enjoyable. This book is the first book of Kristen Hope Mazzola's that I have read. Because of this, I wasn't sure on what to expect. I found the writing style easy to follow and the hero and heroine loveable. I devoured this book in one sitting and was left wanting more.

I am really disappointed this book was a novella and not a full length. I understand why but I wanted more of Bear and Scarlett. I really liked both characters and adored them as a couple. The chemistry and attraction between them was instant. I liked how protective Bear was. He helped Scarlett more than once. Each time, no questions asked. I liked that Scarlett's father was part of an MC and was a legend when he was alive. I hated Jasper and what he did but if he hadn't have done it, Scarlett and Bear wouldn't have met. That being said, I am glad that Jasper got what he deserved.

The storyline for this book is easy to follow and an enjoyable read. This book may have been my first of this authors but it won't be the last.

### **Colleen Giminiani says**

Unbearable by Kristen Hope Mazzola was yet another thrilling addition to her Unacceptable series. This crossover between her Unacceptable series and Fiona Davenport's Yeah, Baby series was a swooning, epic read. I never knew Kindle World installments would be so amazing.

Scarlett is a mixture of sweet and spicy. She has the ability to be fierce and we get to see just how she handles it all. Scarlett blended in beautifully with the MC world! - definitely someone I'd love to call a best friend, minud the whole "gaping hallway" and all.  
(read it and you will get the reference)

Bear, oh my sweet MANLY Bear! I have wanted to read his story and the author did an A+ job with giving his character the justice and outcome he has deserved. I enjoyed his POV and the rollercoaster of a ride he's been on.

I would definitely recommend Unbearable to others. Combining two great series has worked out 100%.

I received an e-arc copy in exchange for an honest review.

### **Brandy Roberts says**

Kristen Hope Mazzola is such a talented author I've read a few of her books including this series that you do not want to miss out on one clicking . Really felt the connection between the characters and I can't wait to read more from this series .

---

### **Eve Recinella (Between The Bookends) says**

Not a HUGE fan of this cover. The composition isn't that great, and the dude looks like he is stretched out lengthwise. On a positive note, I do like the yellow on the grey.

This one was OK. I enjoyed it for the most part. I have been thinking of trying this series out but was hesitant to go all in with a full-length book, so this seemed to be a good option (novella). And like I said, I enjoyed it. It was pretty decently written (if a bit too insta) and paced. The plot was engaging (but underdeveloped) and kept me turning the pages. That said, this seemed to be part of an ongoing storyline, and after reading this book and then checking out who the characters are from book one, I would suggest NOT reading this one if

you haven't read the previous books. I was a little gobsmacked by the events talked about at the beginning of this one, and because of that, I won't be reading any of the full-length books.

As for the characters, I liked them. Bear was great. At first, I didn't think I would like Scarlett, but she grew on me. It was good. It was super short. It was a bit underdeveloped and could have used much more fleshing, but I generally think most novellas tend to be. This one gets a thumbs up from yours truly.

### **Stories in Review says**

Good story. The h was cheated on by her husband. Other than that, it was a low angst story.

---

### **Teresa Lara says**

I love this series. Can't wait till the next book. Bear and Scars story was sweet and loving. Too short.

---

### **Britt Franks Red Hatter Book Blog says**

I've had friends tell me I have to read this author for a while now, so I figured why not give her a shot with this short novella and see if I like her style. One day I'll learn to listen to my friends. I didn't just like unbearable, I completely LOVED it! I fell head over heels for this fast, sweet, and sexy book right from the first page and absolutely devoured it!

Injured and left for dead on the side of the road after already having a horrible day Scarlett is rescued by Bear. This gruff, but secret sweetheart of a biker not only saved her life but couldn't seem to walk away once she was safe. I freaking adored Bear. He was sexy, tough, with the perfect amount of gentle and sweet hiding under the surface of his rough exterior. Their fast paced romance may have been contained in a novella but that didn't stop them from having one heck of an amazing story!

---

### **Amanda Thomas says**

#### **Bear and Scarlett.**

I loved this couple and even wish we could have had a full sized novel in which their story was developed!

---

**Jan says**

**Hmmmm**

**Enjoyable, I was turning the pages and finished so that says a lot.**

**The Plot;**

**I liked the idea of Scarlett finding her roots again something her father who was also a biker before he died would of been pleased with, his daughter settling down with a man from an MC like her dads even if she had to catch her husband cheating and fleeing him to get there.**

**I liked Scarlett and Bear. An Insta love story. Bear finding Scarlett Injured on the side of the road and not leaving her side. It was sweet, romantic even.**

**The story was too short though and not deep enough it felt like I only got bits, what I needed to know & I like depth and more meaning to things or more explanation rather than assuming the reader gets it, I didn't get some if it. I haven't read previous books, Do I need to? would some things make sense then?**

**Is it the way the story's told or is it not a standalone?**

**The beginning of this book shows Bear returning home after losing his friend in a shooting. I haven't followed this series but if I had I wouldn't be happy with the fact he is a main character from a previous book one a reader probably bonded with if they had read that so why? why do that? Bear could of been grieving over any one why write that In? it made me feel like I had started a book half way through I hadn't a clue what had happened or who Bear was on about.**

**Like I said it felt like chunks of the plot were missing and I had nothing to piece it together with. Scarlett and Bear's relationship though was easy to follow as that was told from first meet to the hea but the rest \*shrugs**

**Frustrated reader because it had the potential to be better. The romance side was great.**

**I've read a lot of novellas and short reads and just because a story is short shouldn't make it feel any less complete unless it's a duet or an addition to an existing story. I'm not sure what this is, I may need to read a previous book to decide.**

**An Insta love story told in first person dual pov. I Loved the romance part of the plot**

**Becky Wise says**

I love Unbearable. This is one hot quickie novella. Love Bear but then again I do have a thing for bikers.

He's hot and a badass with a big heart. Scarlett a badass biker babe that you can't help but love. Insta-biker love check. A little action check. MC double check. Now I really need to dig into the rest of the Unacceptable series that I have sitting on my kindle just waiting for me since I got a little taste of this MC now. Kristen Hope Mazzola has fast become a need to read one click author for me. I always get excited when I see one of her books come out and this one did not disappoint at all.

---

### **Brianna at Renee Entress's Blog says**

4 Stars!

Sexy. Sugary sweet. Insta-everything right from the very start. Kristen Hope Mazzola gave me an incredible novella in Fiona Davenport's world... bringing her series and theirs where world's collide.

Unbearable was the perfect standalone to heat up my chilly night. Kristen got my heart racing and my panties talking. I smiled..I giggled..I swooned. You know what you are getting when you read this kind of book and in never ever left disappointed.

He's grieving a loss when he stumbles upon her. Something is pulling them together and now nothing can tear them apart. Scarlett and Bear are going to steal your heart along their journey.

Get ready for a ride you'll never forget.

### **Kim Brewing says**

I really enjoy these quick reads. I'm a fan of insta love and all that it entails and this series so works for me. In this book our heroine Scarlett has the nerve to come home from the grocery store a little sooner than expected. What follows is the best thing in the world for her although it doesn't seem like it at the time. Bear is an alpha leader that thinks there is no way he can claim an old lady as he believes he can not be married to the club and have a woman at the same time. Will Scarlett be a game changer for Bear? Can Bear help Scarlett get back to her roots? Can this couple ride off into the sunset or will Scarlett be constantly looking over her shoulder? Guess you need to read it to find out.

---

### **Sara Oxtón says**

Unbearable by Kristen Hope Mazzola a fantastic four-star read. I have loved the Untouchables MC series, and this was great but I would have loved more. I haven't read the Yeah Baby series by Fiona Davenport so that maybe why I didn't love this as much as the others, but still I loved Bear and Scarlett's story. There is a little of everything in this book, and I would definitely recommend you give it a go.
