## A Girl's Story Paloma Meir

Zelda, an ethereally beautiful teenage girl from a very wealthy home high up in the Hollywood Hills appears to have everything. She struggles inside her heart with a crippling shyness her friends and classmates view as an otherworldly aloofness. The bullying she suffered as a child is a memory she can't shake no matter how different her present day circumstances are to her.

Danny, is a golden boy full of confidence and humor. He's always been drawn to Zelda, the mysterious girl who has lived up the road from him since he was a child. He pointed the bullies away from her and did his best to keep her safe.

He would question himself, wondering why the girl stayed on his mind. She blossoms into a beauty before his very eyes and his protectiveness turns to a nagging crush. He does his best to attract her attention but even his deeply ingrained warmth can't penetrate the coolness of her façade.

The two meet at a party by chance for her, by plan for him. His easy charm and possessive nature break through to her. The tender feelings of love she had never thought she would know fill her heart.

An incredible act of violence shatters her world. Shame fills her and she pushes him away vowing to never to tell a soul about what has happened to her. She's left to pick up the pieces alone.

A Girl's Story can be read as a standalone and the Zelda's World series can be read in any order. The book does not end on a cliffhanger.

Themes: First Love, Coming of Age, Shyness, Bullying, Sexual Assault (not graphic or gratuitous), Some coarse language.

DNF:

Wanted to like this, but within the first couple of pages I was so aggravated with the run-on sentences and improper use of punctuation, I had an overwhelming desire to burn it.

The names of the characters are badly introduced, and the descriptions range from non-existent to excessive. There is no middle ground. It's choppy and weird, and right off the bat I found I just had zero vested interest in the story. I was bored before the first paragraph was over. But I pressed on, and then, 6% of the way into the book, the main character starts talking about things I don't want to read about. It was bad enough I stopped right there, and though I loathe the idea of repeating it, I will add an explanation to my clean reader category so others don't have to make the same mistake.

Sorry, I know it takes a lot of work to write a book, but this one goes in the slimey - not even eligible for consideration - category.

For my clean readers:

Yes, some of the descriptions are just natural body functions, but it isn't necessary. And I'm not at all pleased with reading about a 13 year old having sex, and performing masturbation just so he can please his crush later on.

I absolutely loved this book! The story was incredibly interesting, and I was so wrapped up in the story that I read the whole book in a day! I just couldn't put it down. Danny and Zelda are both awesome characters with a lot of depth, and reading things from each of their perspectives was great. The whole story just came together really well, and the emotions I felt from Zelda and Danny were so real. I really felt like I was part of the story, which is what really makes a great book to me. Loved it!
