## **From Reader Review Bee and Puppycat, Vol. 2 for online ebook**

### **Iris Bratton says**

\*Sigh...\* I never want this series to end.

Bee and Puppycat is an original short series on Youtube. I would recommend watching the series before diving in to the comic. This volume is very similar to the first in creating a collaboration of different authors/illustrators to invent stories in the Bee and Puppycat universe. These stories were so sweet and so funny. I enjoyed them as much as I did Vol. 1.

This graphic novel is light hearted, whimsical and very pink. I love it because of its simplicity. It's a quick read which is nice after reading really long and heavy books. Bee and Puppycat is like a warm hug on a cold winter day. It's so inviting and leaves you feeling all fuzzy inside. I had so much fun reading this graphic novel! I definitely recommend picking it up!

---

### **Cassandra says**

I was hoping that one of the stories from volume 1 would be continued, and unfortunately it wasn't. The other stories are cute and fun, but I was really looking to see where that ongoing story was headed. Here's hoping volume 3 has what I'm looking for.

---

### **Bee (Heart Full of Books) says**

SO much better than the first volume! Puppy cat was particularly adorable in quite a few of these stories and it was great to see more Deckard!

---

### **Rebecca says**

Probably more of a 3.5 stars but it was a delightful little read. I especially loved the T zysk stories. Pancoma.

---

### **k.wing says**

Enjoyed this a little more than volume one, as I had a better idea of the characters. It helps that it's all just food related. :P

---

### **Josefa Ruz Ginouves says**

I love all the illustrators who are a part of these comics ;-; their styles are so different and it just spices things up a little bit. I want more Deckard though, I'm not gonna lie. In the show he doesn't appear much (haven't seen some because they're only available in the US) so I'm craving him in the comics! I've only got one much volume to go and that's it for the bee and puppycat comics!

---

### **Monica says**

I'm good after two volumes of this stuff...over it.

---

### **Aaron says**

This is more of the same, some fun artistic styles from some new illustrators, same old Bee being a weirdo and puppycat being a cute little mystery. Magical girl temp is a fun concept and while the implications in the wider culture about millenials annoys me the work itself is a fun slice of life. I would say this is a fun experience if not quite an adventure: not a lot of the plots really resolve, we just get small snapshots of this character as she does what she does in her way. It's fun.

---

### **Maija says**

Cute and silly random adventures. I have no connection to the series so this left me a bit cold - I understand this is aimed at the fans of the show. I got the first two volumes in a Humble Bundle and read them with no prior knowledge apart from seeing pictures of the title characters around. I like Puppycat's design.

---

### **Christie says**

Loved it! Fun trade

---

### **Chessa says**

I got this for my 10-year-old for his birthday, but honestly, it was as much for me as him. He read it by himself first and then we read it together, and I did the best Bee impression I could muster.

I love Bee & Puppycat. It's hilarious and weird and awesome. I'd recommend watching the shows on YouTube first to get acquainted with the world and personalities (there are only 4.5 eps out, it's not much of a time commitment). How can you not love an aimless twenty-something who is obsessed with food, has an alien pet/roommate and does intergalactic temp jobs?! Bee & Puppycat 4EVA!

---

### **Harris says**

This brief collection of short comics was a sweet, if rather ephemeral, treat for fans of Bee and Puppycat. The artists collected here took the cute but surreal send up of “magical girl” anime tropes and daily grind slice of life comedy of Natasha Allegri’s charming Youtube cartoon series and previous comic and interpreted them through their own styles.

While the stories, ranging from full “episodes” to short one page comedic “scenes,” do a good job of paying homage to Allegri’s style and voice, the lack of the voice acting and music from the show detracts a little from them. The last comic’s innovative use of QR codes to add music was very welcome. However, for me the witty writing is as much a part of the charm as Allegri’s adorable art, and while the artist’s here all can draw pretty cutely, the writing was not always there. Riffing as they are on the show’s common themes and plotlines, they also feel a bit repetitive, yet disconnected from each other. Still, for those craving a little more candy-coated comedy with an edge of millennial melancholy, Bee and Puppycat Vol. 2 is worth a read!

---

### **Julia Sapphire says**

2.5

---

### **Woffke says**

Really beautiful! It's like a coffee table art book, but an actual comic book

---

### **Lata says**

Fluffy, but not quite as enjoyable as the stories in Volume one.
