## **Eternity of Vengeance** T.M. Nielsen

Emily continues her quest to seek revenge for the death of her Cavalry, much to the dismay of the Equites and Encala Faction. The Equites are in a race against time to locate the fallen Encala Elder in hopes of preventing a war, but Emily is dead set on keeping him until he's suffered for the deaths.

The Encala overstep in their mission to regain Frederick, forcing Chevalier's darker side forward. As Alexis grows, she struggles to fit into the world of the heku, and strives to find a place in a world she only partially belongs to.

Emily befriends a strange mortal man, a self-proclaimed Vampire Hunter, and he causes tension in the house as heku and hunter have a power-struggle over protecting Emily. A trip to the Valle turns disastrous when Emily and Kralen are caught in a battle caused by the Encala, and Kralen finds himself unable to protect her, and returns to his coven. Emily goes to extreme measures to return her friend and guard, and gives him an offer he can't refuse.

Another ancient being emerges and again separates Emily from her beloved heku. The Cavalry sets out to find her and Chevalier decides to handle the Encala himself. Mysterious things begin happening to Emily, and Chevalier swears to find the source.

# From Reader Review Eternity of Vengeance for online ebook

## Katie says

This whole series was fantastic. It was quick, thoughtfully entertaining and interspersed with small snippets of humor.

---

## Janel says

oh my goodness this series is great!! i was very emotional in this book.

---

## Shari says

This book, at first, felt like it was a repeat of all the others. The same characters and pretty much with the same plots. Emily repeatedly gets captured and beaten up, which seems to happen over and over again. At some point while reading this I thought I was finally getting tired of the series, but then, something big happens (can't say what...don't want to spoil it for others)and for the first time while reading this entire series, I cried. Couldn't stop crying seemed like for 3 chapters. Even with the tragedy, I was excited again to be reading this series. I struggled to give this story a 4 or a 3. I eventually decided on a 3 because there is a point in this book where yet once again Chevalier, Kyle, Kralen, Mark, & Silas have to leave Emily behind with guards she doesn't know. Anyone that has read the other books know that when this happens, something always happens to Emily. "HELLO", by now you would think that at least one out of the 5 of them would be smart enough to know that there needed to be one person left with her to watch out for her. Like let's say, any one of her kids - Allen, Alexis, or Dain or by all means, I think Anna would have been great, she seems to care a lot for her, or the doctor? This seems to be the one place in this book, where the writer could have tried to come up with some reason for no one to have been available to watch over Emily in their absence. Not only could she not come up with any logical reason, but she also failed in her writing by having Chevalier yell at Dain as he's walking out the door, pointing out the fact that he was staying behind, by saying "I've already told you and I'm not going to say it again" which implies that Chevalier isn't allowing Dain to go with them. Come on could you not spell it out for us next time. Dain was left behind! Why could he not have went with Emily. She was taken to Powan to be guarded while they were out to war and instead was buried alive by the same people supposed to be protecting her. HELLO!!!

## Eeva says

I'm sorry but I really can't stand Emily. I thought that through the series she will grow up, become more mature, start act in some rational way - as every human being would, but I was deeply disappointed. She's still a brat, when she doesn't get what she wants, she just packs her things and go, then everyone is looking for her, beg her to come back, she finally agrees, but then again she doesn't get what she wants so she packs her things and go and so on and so on. I don't really understand why everyone around her puts up with it. Also every time a heku tells her the truth (that she is spoiled, always pouting, that she just takes and gives nothing in return etc) it turns out that this heku is some psycho and needs to be banished or killed or whatever. She

just wanders around aimlessly, slips her guards, gets kidnapped and tortured, then she's being saved by the Equites but learns nothing from the experience and still wanders around and slips her guards telling everyone that she's perfectly capable of taking care of herself but then again gets kidnapped and tortured. Where's the point in that?

Chevalier is just blinded, he allows Emily to do whatever she likes because if not she will go away, or erase everyone's memory or just turn them to ash and then go away and strong, thousands-year-old vampires won't be able to stop her. He's a good father, way better than husband.

The whole Council is weak and blinded by Emily : "Oh she brought here so much joy, we'll just snad here and let her put herself and the whole faction at every risk possible. Yes, that's an awesome idea!".

The series is pretty good (I mean the plot) but if there were some good, strong main characters, it would be better. I mean, a lot better.

### **Liza says**

I have to agree with some about the change of character. Doesn't seem to be the same character I've been reading about in the last 6 books. Being known as a head-strong, tough character, I was a bit surprised on the turnabout on this book. But nonetheless, T.M. Nielsen still delivered exciting adventures. Now on to book 8!!

---

### **Stephanie says**

This has been the saddest book of the series so far. Yet in its own way just as good as the others.

---

### **Mary Kruger says**

This book was absolutely amazing!!! The books seem to just get better and better. More enticing, more adventure, more of absolutely everything. Cannot wait to read the rest. The best way to describe it is addictive! One book that I will read over and over...

---

### **Amanda Kasiska says**

I actually bawled during parts of this book. Holy cow!!! The rage that Chevaliar showed was almost scary to me, but at the same time, completely heart warming---knowing he did all that for the love of his life!!!

---

### **Larry says**

Couldn't put this series down. My wife and I both read it and I highly suggest it for anyone looking for a good read.

---

### **Alex says**

I read the extended version, that book was too too long. The series is predictable but, I still wanna know how this all ends

---

### **Jessica says**

I want to start by saying I actually liked the first six books of the series very much. I just don't understand what happened in the last book; I don't think I have ever been so let down by what happened. Never in my entire time of reading series books have I seen such a complete break of character for a main one. In books 1-6 the main character of Emily is strong confident sarcastic stubborn a fast rebounder tempermental outspoken and a prankster. In this book not only does the author not have her as any of those but makes her the complete opposite of each. She is submissive weak quiet and reclusive. I understood reasons based on the plot but the author didn't even attempt to bring the character out of the stump they put them in. It would have taken time in the story and time was given with no turn around. Emily had been through many tumultuous events throughout every single book that should have broken her and never did until the end. I wish I had stopped at six to not see the complete humiliation the author gave. You simply cannot create such a stubborn strong headed character and then not let it end with them bouncing back with the same tenacity as the other books in the series. I am at a loss for what truly happened to the real Emily of this series.

---

### **Candice says**

Beat book yet in the series.
