**Fair Maiden** Cheri Schmidt

*Alternate Cover Edition for B004ZIDFAM.*

It's the Victorian era in England, but Tessa is from the medieval past. She awakens within a castle she has never seen before. Knowledge of her name also evades her. However, even worse than not knowing who or where she is, she cannot recall how she died or why she is dressed as a bride.

Along with Christian, the earl of the castle she haunts, Tessa tries to discover who she is and break the spell holding her in a prison of death. They never imagined the curse keeping them apart is the only thing protecting her, until it's too late.

## From Reader Review Fair Maiden for online ebook

### **Emillia Fuller says**

Words cannot express how much I have loved this clean romance book. I would have never thought in my wildest dreams how it would end and just loved how it turned out. My only problem was that I got to the end of the book and I really wished it didn't have to end and seriously could of gone on and on.

---

### **Mallory says**

This old time ghostly romance will sweep you off your feet! When a young woman awakens in an enchanted room with no memory of her past or even a recollection of her name, she discovers she is in the home of a dashing earl named Christian! Together they seal a bond and attempt to free the young woman from the castle that refuses her access beyond its walls. The romance will thrill you, the mystery will prod at your mind, and the characters tug at your heart! Fair Maiden is an enchanting novel that will perpetually linger in your mind and rest in your heart.

---

### **Megan says**

I loved every page of this unique historical spin off of Sleeping Beauty. I love the Victorian time setting, and the old England feel the book has. The main character is very personable and loveable, she pulled me in and I immediately wanted to help her solve her troubles. The ever surprising plot continued to pull me and I finished the book in a matter of days. The almost forbidden romance between the two characters is very interesting and touching. I strongly recommend this historical romance if you are looking for a good classic with a wonderful twist.

---

### **Cheryl says**

I love anything resembling to a fairy tale. This story was enchanting! I was truly expecting a regency romance with some time travel mixed in. I was surprised by the twist this story took. I fell in love with the characters and hope to learn more about them. I am hoping Cheri will continue this story with another book about other family members as she teased at in the epilogue of "Fair Maiden."

---

### **Keni says**

This book is so great. I always enjoy a little bit of mystery in my novels, especially since Sherlock Holmes is my superhero. And there is plenty of mystery in Fair Maiden. There's also romance, fantasy, and a chivalrous Earl named Christian. This book is perfect for the little girl in all of us, and also perfect for the more mature side of us. I can promise that i will be one of the first to recommend this book to everyone and anyone i know who can appreciate a well written and gorgeous love story. In fact, this is so book is so extraordinary,

i'm dropping what i'm reading now and picking this up. So, if you need me, i'll be curled up with a blanket, a cup of hot cocoa, and an absolutely amazing novel called Fair Maiden by the wonderful Cheri Schmidt.

---

### **Holly says**

I think this could have been a cute story but unfortunately the writing got on my nerves. It felt like I was reading a high school paper rather than a published book. The characters drove me crazy! Tessa (Ghost girl) cried all the time and I got tired of hearing about her beautiful green eyes! Christian could have been alright but he just grated on my nerves with all of his endearments towards Tessa. Its ok to use them just not every single time you talk to her!! Plus, I didn't need to hear about his handsome dimple every other paragraph either! I really struggled to get through this book!!

---

### **Sophia says**

This was a sweet, historical fantasy that was an absolute pleasure to read. The tale is set in Victorian England, but is not meant to be a piece of historic fiction. It's a lovely fairy tale.

I enjoyed the main characters, Christian and Tessa and found the secondary characters very endearing as well from Jackson the butler to Tabitha the witch. It switches point of view between the adorable, but confused Tessa who wakes in the wrong century and far from anything she knows to the amusing and witty Christian who must avoid his parents' matrimonial plots while guiding Tessa through the pitfalls and times of 'modern' Victorian England.

The tender romance was the stuff of fairy tales which this story is including magic spells, maiden in distress, dastardly villains, and a heroic white knight to save his lady love. There is always a mystery to Tessa that slowly untangles as the story progresses.

It is an easy, clean read that you can trust in the hands of your teens without a qualm.

If you love Sleeping Beauty, you'll love this tale.

### **Jennifer Ashley says**

Magical

I LOVED THIS STORY! The creativity was absolutely amazing. One of my favorite things about this book was that I never could guess what was going to happen in the end. Honestly, I can't remember the last time that has happened while reading a book that I couldn't guess the outcome. I was pleasantly surprised and very satisfied with the ending. There were so many elements that I enjoyed. She had romance, enchantment, magic, a damsel in distress, a very charming man that comes to her aid, and so much more. I am a huge fan of Cheri's writing. She has been blessed with the gift of storytelling. I fell in love with her writing during her Fateful trilogy. The minute the next book in the series is released I'm going to buy it. Cheri, I love it! Great job!

---

### **Kari Hakkers says**

I loved this book! It was a different genre for me and it proved itself to be a real gem! It was very enjoyable and left me happy with the ending!

---

### **Cheri says**

Note from the author:

This story is a YA Fantasy with a Paranormal twist, and a good dose of Romance.

After I'd read a few books with ghosts in them, this story started to come to me. I wanted something that blended two eras but I didn't want to resolve the story with time travel, which is typically done. By blending a sort of Sleeping Beauty kind of tale with paranormal elements, I feel I've created something unique.

It's also intentionally sweet because I meant for it to be YA. If this book were made into a movie, I'd pictured it as a Disney film that was something like Tangled. If you're looking for a tasty and steamy romance novel, sorry, you won't find that here.

---

### **Suzana says**

Super good book :)

---

### **Tifferz says**

Tifferz Take:

I have to say I was hooked from the teaser. This is a ghost story that will send you to the past. I loved all the twist and turns that Cheri created throughout this tale. This story not only has a ghost but, a witch, magic, a really bad guy and a totally great earl. Oh I forgot to mention a curse/ spell that needs to be broken! This is an enchanting ghost story with a intriguing adventure. This is a magical romance you won't want to miss. This is a clean romance!! I highly recommend this book. I will be on the look out for more from Cheri Schmidt.

---

### **Gina says**

This is a very imaginative and fun read! I enjoyed the idea of putting together a couple from two completely different time periods and the idea of a man falling for a ghost. One of my favorite characters was Jackson. I loved the dedication to Christian and the banter between the two of them. This is a Nook or a Kindle

download and well worth the sale price!

---

### **Nina says**

Very sweet romance, clean, and well written. This book is about a maiden who awakens in a strange castle as a ghost. She doesn't know where she is, what her name is, or what happened to her, all she knows is that she is wearing a bridal gown. She tries to get help from workers on the castle grounds but they are not able to see her. She finds the Lord of the castle and both are shocked that they can see and talk to one another. Lord Christian swears to find out who murdered her and why. With help from a witch, and the maiden's fey parents, Christian is able to rescue his love when she is suddenly taken from a dark fey prince who uses black magic spells. Christian and his love, Contessa, are married and bound together for eternity. Such a great story! This was actually a Kindle freebie! And it was the third book that I have read recently that used the name Christian as one of the leading male characters!

---

### **Holly says**

What would you do if you couldn't be with the one you love? Could not hold, touch, kiss, or feel them? How would that relationship survive? Throw in memory loss, a curse, an evil girl that will do anything to steal your man, and an evil ex fiance and you get Fair Maiden! A great twisting and turning adventure that will leave you wanting more!
