Kidnapped by the Driver

Jessi Bond

Kidnapped by the Driver Jessi Bond

When a mobster's wife is kidnapped by her husband's sexy driver and held for ransom, the only thing she can think of to do is to seduce him. But the driver plays rough - is she prepared for everything he's going to deal out? Warning - this story contains 3,833 words including M/f bondage, rough sex, oral and anal, and a desperate encounter between two lonely people that you're not likely to forget!

Raine says

Not too bad, this is a freebie on amazon and allromancebooks, but there are a total of 3 parts to this book so you know you will have to buy the last two in the series to finish the story. That's the part that sucks.

Sam Spencer says

It was a bit obvious

It is official.

I'm of the opinion that I HATE multiple book short stories

The entire compilation is less than 20,000 words.

This could have fit in one book and spared me the frustration.

I can't even give a real critique because it was too short to even expect it to have been properly developed.

Elena says

ok short story, but doesn't really have an ending! Then i saw that there is a second part to it > why not combine them in a decent short story ?! why is this short story split in half!?

Kristilyn (Reading In Winter) says

This really wasn't that bad, but it was way too short! There was a lot of build up in the beginning about the main character being married to a mobster and then the introduction to her husband's new driver was slow and steady, with lots of anticipation on the main character's part. But then, all the excitement starts to happen and it just stops. Boo!

While the sex scenes were a plenty once they started up, once the action really started, the story ended. It was kind of a let down. There are a few more books in this series, so maybe they flesh out the story a bit.

Still, hot and steamy while it lasts! Just wish there was a bit more story to it all.

This is a free ebook I obtained from Kobo on September 30, 2012.

78sunny says

Inhalt:

Rose ist die Frau eines Mafiabosses doch das Feuer ihrer Leidenschaft ist längst erstickt. Eines Tages stellt ihr Mann einen neuen Fahrer ein, den Rose sofort attraktiv findet. Allerdings reagiert dieser kaum auf ihre Bemühungen ihm ein Lächeln zu entlocken. Bei einem der illegalen Geschäfte ihres Mannes verschwindet der Fahrer plötzlich. Rose glaubt ihn nie wieder zu sehen, bis eines Tages in ihr Haus eingebrochen wird und sie gekidnappt wird – von eben diesem Fahrer.

Meinung:

Die Handlung macht relativ wenig Sinn auf diesen wenigen Seiten. Alles wirkt überstürzt und wird nicht richtig stimmig erklärt. Die erotischen Szenen kommen völlig aus dem nichts und die Charaktere sind nichtssagend. Die erotischen Szenen an sich sind auch eher mittelmäßig.

Bewertung

2 von 5 Sternen

Milena says

A mobster wife fantasy about her husbands driver comes to life. As expected it finished with a cliffhanger and now I am curious to know if her husband will find out about them. It was a good short story.

Katie says

Read: July 2013

Re-Read: May 2014

Thom Swennes says

The mob is a safe place if you're firmly on the inside looking out. Rose was married to a mobster. She didn't know that when he proposed or even when they solemnly took their matrimonial vows. The knowledge slowly grew and developed over a lengthy period of time. Once she knew, she was trapped with no hope of escape. One day, out of the blue, her husband announced that he was hiring a new driver. When Rose met this new chauffeur she found him attractive but extremely quiet; almost timid. For the next few months he spent lots of time with her husband. When her husband returned home, bruised, beaten and battered, he returned alone. She could only imagine what had happened and she assumed that the tall, quiet driver was lying dead somewhere. You can imagine her surprise when he came back; for her. This is a very short novella that richly deserves more words. With a little time and effort it could be a highly marketable novel. I give Jessi Bond three stars for effort. If she would concentrate more on quality and less on quantity her name would soon be better known and her books more widely read.

Skye Blue ?*~??(``?)~*? says

A lot of build up, for a little PWP.
Not bad pwp, but nothing special.

I got hung up, by the girl reaching down between her legs, when her arms are supposed to be tied behind her back, and on her stomach. Neat trick.

Butch says

I gave this a low 3. I felt the story attempted to satisfy more than the erotic genre. In this regard the first half of the story started out as interesting reading with some mystery. But, the ending was very abrupt, probably because there are sequels. Kind of left me hanging.

Future Slayer Girl says

Now I gotta read the rest of them! Full review coming soon!

twelvejan [Alexandria] says

3 stars

I liked this. This one has an actual storyline. It has an intriguing plot. However, minus points for breaking up the book and selling them by chapters (or so I presumed). Mine was a free copy from AllRomance. But it's being sold at \$2.99 on Amazon! 13 pages for \$2.99. -_- What the fuckery is that.

The blurb for book 2 (the next 14 pages, really) was :-

Warning - this story contains 4,306 words.....

Yup, thanks for the warning. I am not about to pay \$2.99 for the next 14 pages.

Conclusion: I disagree with such marketing tactics.

Yelania Nightwalker says

Es como si sólo hubiera leído el primer capítulo de un libro. Ciertamente pica el interés por leer el siguiente y ver cómo diablos continúa, pero no es *así de necesario, entonces, pasaré de los siguientes...*

Brigitte says

Just because this was free is no excuse for the errors and fact it is not a story. Starts off great with her background of being a mob wife. Kidnapping well written then its like someone else threw some pages together and said: here its free. The sex scene had errors. Starts off letting you know her hands are tied and then she is touching herself and not what you were just reading. This was like a teaser to get you to buy the book. Which is bk 2, if you consider this a book. There should be just one book and this just a free sample.

Katy says

This was a quick read - thank goodness.

Not that the story was bad. But it was...uneventful. I mean, if your husband is a mobster and you fantasize about his driver who then kidnaps you - there is a hell of a lot of sexy action that could take place. Unfortunately, I don't think all the possibilities were taken advantage of. I did like the ending though.

At least the story was short, so reading it wasn't a waste of time - I just think that with such a strong premise, the story should have been stronger. The characters could have been more developed and the sex could have been a bit edgier - I mean, she's been kidnapped! It's the perfect set up for several types of erotica...

I don't particularly recommend this story, but it also wasn't terrible. I just think there was so much more that could have been done with it.
