Maximize Your Potential Through the Power of your Subconscious Mind to Create Wealth and Success: Book 2 Joseph Murphy

Dr. Joseph Murphy's classic book *The Power of Your Subconscious Mind* was first published in 1963 and became an immediate bestseller; it was acclaimed as one of the best self-help guides ever written. Following the success of this work, Dr. Murphy lectured to thousands of people around the world, and millions tuned in to his daily radio program. In his lectures, he pointed out how real people have radically improved their lives by applying specific aspects of his concepts.

Now, these lectures have been combined, edited, and updated in six books that bring Dr. Murphy's teachings into the 21st century and provide readers with his proven tools on how to program their subconscious minds so that they can radically improve their lives.

This is **Book 2** of the series. Within these pages, Dr. Murphy shares his four-step *master key to wealth* to guide you to abundance and continuing prosperity. By following this plan, a salesman quintupled his income, a minister funded the rebuilding of a church for a previously impoverished congregation, and many other success stories took place that will inspire and amaze you!

James Bergh says

Good content on programming your subconscious and being aware of your thoughts. Got a bit overly religious at times but I enjoyed this very much despite that.

Chris Holmes says

I consider myself pretty open minded, however as a follower of Christ, I'm personally uncomfortable with how he uses some of the Biblical references in the book. There good material in the book, but there's also a potential for a lot of confusion. Just because the book was written by a pastor and uses scripture doesn't mean it's accurate.

I found old copies of this series on my family bookshelf. Like 10 books or so. I haven't read all of them because: the first book in the series was great, the second was repeating a lot from the first, the third was repeating a lot from both the first and third. By the time I got to the end of the third book, I had the feeling that all that the author wanted to say, had already been said.

Of course I will rate this book with 5 stars. Why? Well how would you rate a book that makes you feel so good about yourself? Isn't it great when you find an author whose books always seem to light up your life and influence positively on your attitude? That's what I found in Mr. Murphy's books..they are just always here for me whenever I am confused or feel like life is challenging me to do something..and I feel like being on a crossroad. His book work miraculously on boosting my self-confidence. Just like any other of his books I've read so far, this one has the potential of changing your life..all you have to do is just give it a chance. I personally, loved it!
