## **Mistaken Identity** M.C. Jackson

The last time I saw my sister was the day before she vanished from my life. I've spent the last five years searching for her, clinging to the hope that one day I will find out what happened to her, but every lead has ended up at a dead end.

Until now.

He took me because he thinks I'm Her.

My instinct is to run. I want to fight my way out of there, but I can't. This man is my only connection to my sister. I'll do whatever it takes to uncover the truth. Even if it means falling right into the arms of a psychopath.

## From Reader Review Mistaken Identity for online ebook

**KAT ? Kitty Kats Crazy About Books ? says**

**MISTAKEN IDENTITY:** by M.C. Jackson is a stand alone suspenseful, psychological romance novel that will having you guessing right up till the end. Spoken in 'Dual Perspectives'

This was super easy to get into, straight away you're pulled into the grittiness of what Lena is discovering after waking up in a place unknown, locked in a basement, chained to a bed, her body, bruised, bloody, swollen, left in nothing but tattered pyjamas.

One minute she was out clubbing with six co-workers celebrating because a new client was happy with her work, she remembers arriving home, getting into bed THEN BLANK. She can't remember anything else that night. How did she end up here?

Reminiscing about better times when she was close to her sister before their parents died. Wishing that things were different between them, before she disappeared, missing her.

Two sisters who are as different as chalk and cheese

Anna skates precariously between right and wrong whereas Lena was the good girl never stepping out of line.

I'm going to cut my review off here so as not to wreck it for others, because as soon as you reach the 80% mark as there are a few twists and turns.

GAH!! I don't know if it's just a mood I'm in or what, the beginning grabbed me by the throat, kidnapped, locked in a cage in a basement, she doesn't know the kidnapper, which I thought was a perfect setting for a gritty semi dark read, a sister on the search for her twin, but then it kind of loses my interest, going past that half way mark nothing happens, it's not until you reach about 80% it all starts to unravel and make sense. I had to push myself to finish this, I'd even slipped in a non arc in the hopes that I'd get thrown back into this storyline, I just really struggled with this one.

---

**Beneath The Covers Blog says**

## **Twists and turns you don't see coming**

Lena is kidnapped and she soon realizes her captor thinks she's her missing sister. Does she go along in hope of finding out what happened to her twin?

Mistaken Identity is a suspenseful read with twists and turns along the way.

Jake takes Lena and I know when something like that happens we aren't suppose to love the character but I loved him.

There is so much to this story that I can't say because I don't want to give out spoilers, but there were things I didn't see coming and definitely an AH-HA moment.

I felt the author did a great job with the story line and the suspense.

*\*I was provided an ARC in exchange for my honest review\* ~Alison*

## **2OCC Reviews says**

I love a good psychological thriller type book every now and then and the feeling I got from this book was that it would been one heckuva ride trying to figure out what was going on.

Lana was strong willed in figuring things out that she put her self in a crazy position but you can't help but respect her because of her motives.

Jake was easy to read but at the same time he was very hard to read. I really liked his dedication to what he was doing because he knew that it was right.

I can't go into too much detail without risk of spoiling but I really enjoyed the mystery aspect of this book. It kept me on the edge of my seat wondering what was going on, what happened and when were we going to find out.

Overall, I thought the author did a really amazing job keeping me guessing. I never really figured out what was going on until things are revealed and then I saw everything in a bigger picture. Being my first book by this author I can't wait to read more in the future. 4 stars #2OCCJD

## **?Elizabeth says**

No es que sea malo el libro sino que no es mi tipo de libro.

---

## **Eve Recinella (Between The Bookends) says**

OK this cover would be great FOR A DIFFERENT BOOK. The heroine has long BLONDE hair, and there is NO mention of the hero having tattoos. Covers that have NO connection to the story or models that look NOTHING like the characters found within is such a HUGE pet peeve of mine. This book was AWESOME and deserves a cover that at least somewhat represents the characters.

So this review is going to be a little vague as I don't want to give too much away about this one. Suffice it to say that I LOVED it. I found it well written and nicely paced. The plot was interesting, and it had twists and turns aplenty.

I have to take a moment to give myself a pat on the back. I am excellent at Sherlocking twists, and I will say I had a good idea from the start where this one was headed. I turned out to be right. I don't think it was particularly evident, but since I had a little suspicious what the twist was going to be, I picked up on clues here and there. That said it DID NOT take any enjoyment away from the reading experience. It wasn't heavy of side characters, but the few we see here and there added layers to the story. Both main characters were likable and well developed. There were a couple of sex scenes but don't go into this one expecting that to be the primary focus, and the ending was OK. I'm not taking any stars off because the book overall was completely enjoyable but I would have liked a little something more from the ending.

Like I said, LOVED IT so go forth and give this one a read. Two HUGE thumbs up from yours truly.

## Michaelene says

*Mistaken Identity* is a suspenseful, psychological novel that makes the reader question what happens when you forget who you are.

Lena wakes up in a strange basement, tied up, and as the captive of a man she doesn't know. Nor does she have any other memories besides her name and that she was looking for her twin sister, Anna. It leads Lena on a journey to find out who she is, what her past is like, and what happened with her sister's disappearance.

The story definitely starts with the conflict. Lena's abducted and suffering from amnesia, and much of the story is her looking for clues. She almost takes her capture too well for me. I expected more emotion up front. And then she gets the feeling that her captor knows what happened to her twin sister, and she plots to find out the truth.

It started to drag for me in the middle. Not much really *happens*. There's plenty of suspense at the beginning, but then the internal monologues became overly long, and the same thoughts were rehashed over and over. The story wasn't propelling forward enough and as such, my attention drifted. The plot kicks back into gear at 80%, but by then, it was ending. I did enjoy how everything came together though.

I think a reader who loves a good, suspenseful story line would enjoy this one. It just missed its mark on the action and romance portions for me.

3 stars.

**My Rating:** 3 and a half stars

I've been waiting for so long to have a book pull this twist and have me blind to it all. This is one of few books in the suspense genre that kept me intrigued throughout the story.

Lena was a very confused character. When you consider her childhood it becomes painfully believable. Though I didn't understand why she kept up her "farce" for so long and why she didn't rush to read the journal she found. Other than that I liked her as a character. She kept the reader just as confused and pensive as she was. Though I did start getting angry at her for how far she was taking her farce with Jake before everything fell into place.

After getting the whole story I came to the conclusion that I like Jake. I don't agree with his methods and I think he could have handled everything a tad bit better. Overall he's a good guy who's doing everything in his power to "save" Anna.

I enjoyed this novel and the ending was sweet. I liked how she finally got the help she needed after everything she had gone through during her life. I also appreciated that she admitted that she wanted and needed help without being forced into it.

### **My Favorite Quotes:**

*"My issues ran so deep that all the therapy in the world wasn't going to help me.*

*"If there is one sure thing I've learned in my life, it's that people will never fail to disappoint you."*

*"It just proves that you never really know what people are capable of. Even when you think you know them."*

### **Beth says**

My 1st read, written by: M.C. Jackson, was curious to know more about the author, but Goodreads is not helping, neither does Amazon??! ... find it interesting how some authors are so quiet about themselves ... & you wanna promote to help their great awesome books but there is nothing to share?

this is a thriller, suspenseful, romance, very unexpected twist, a great and wild ride M.C. Jackson does take you on. this book will pull ya in and away from all going on ... you will not be able to put it down 'til it is over and then you will think where did the time go? Loved it! wow wee, what a shocker! ( ;

---

### **Alex ? says**

Very well written, good level of suspense.

Despite I figured out pretty early what the big twist would be, I was still shocked about some things.

No, male protagonist DIDN'T sleep with both sisters.

I can't say more without revealing the big secret.

Why only 2 stars?

Because of this one reason:

Male protagonist saved female protagonist from being raped. They met in rehab where his father was the lead psychiatrist. So, his father was the one who attempted to rape her. MP saved his woman, but did NOTHING to stop his father from abusing other patients.

His father, who also abused his wife/MP's mother, continued to work as a psychiatrist.

Was it love to "sacrifice" the others to save his woman?!

Was it worth it?!

Mistaken Identity by M.C. Jackson

### 5 Hashtags ###

Wow ! very unexpected and clever twist ! I loved this book, a really great read that had me hooked from the very beginning and I love that it's a standalone.

I actually thought and secretly hoped that this book was going to be a little darker but it didn't matter ....it

was much more psychological, really unpredictable and totally gripping. I love it when a book catches you by surprise and hold your attention all the way.

I'm not recapping or giving any of the story away, if you are unsure of what to read next - this is totally worth a one-click.

This author is new to me and I'll definitely be on the look out for more.

### **Shannon says**

These are my Happily Ever After Novel Thoughts...

This story starts out as pretty good. It was a good, solid 4 star read, and then #plottwist! Bam!! Just like that, 5 stars!

Lena is a great character and it's hard not to feel sympathy for her. Jake is out of his mind with worry and it causes him to run hot and cold a great deal.

There are quite a few things you get hit with and didn't see coming right at you.

I love how unpredictable this story is. No matter how hard I tried to figure things out, it felt just out of my grasp. The love Jake showed was confusing as well because he was hardly around. 1 + 1 was not equaling 2!

Great story! I would definitely recommend this to anyone who likes a twisting ride in search of a Happily Ever After.

### **Olga therebelreader says**

This one was an ok read for me. I actually liked the beginning of the book, when Lena and Jake meet. It was a suspenseful, spicy romance with a tiny mystery. It didn't blow my mind, but it was still an enjoyable read! My biggest issue with the story is the plotline of Lena faking being her twin. It truly dragged on for longer than it should. Plus, the excessive wordiness that tired me out.

Well crafted, but the characters and their connection never went past the superficial. It was angsty and light but I was not that sold to the story.

#### In short:

**Hero** 4/5 | **Heroine** 3/5 | **Plot (Point, Originality)** 4/5 | **Writing Style** 3/5 | **Steam** 3/5 | **Romance** 3/5 | **Angst-Suspense** 4/5 | **Darkness** 1/5 | **Humor** 0/5 | **Secondary Characters** 3/5 | **Drama-Conflict** 3/5 | **Mystery** 3/5 | **Twists** 3/5 | **Pacing** Steady | **Action** 3/5

## **Marah says**

**I was gifted an ARC of Mistaken Identity by M.C. Jackson in exchange for an honest review.**

Lena finds herself in a precarious situation and she doesn't know how or why it happened. She wants answers and a way out of her prison. She feels as though her life was just starting to make sense, before she is taken by her captor, Jake. She can't figure who Jake is and why he has kidnapped her. She's even more baffled by his looks of familiarity.

Lena soon realizes that Jake is connected to her sister, her twin. She's been looking for her sister for the longest time and she wants to find her. She desperately wants to reconnect with her better half, her twin even though they haven't always gotten along. She finds herself curious about the mysterious and very gorgeous Jake, curious about his history with her sister.

What Jake doesn't get is that Lena isn't the sister he was searching for. He has mistaken Lena for her twin sister, Anna. He has a past with Lena's sister, a history, and a shared love. He's willing to do just about anything for the woman that he loves and cares deeply about. He wants to guard her and keep her out of harm's way. He's willing to make sacrifices to do so.

What Lena doesn't count on is her reaction to Jake as a man. His touch scares her as much as it excites her. It seems familiar, they feel familiar. It throws her off her game. She isn't prepared for someone like him, she's been hurt so many times by the people that she's trusted. She comes to the conclusion that Jake would go to any lengths to protect her.

Mistaken Identity by M.C. Jackson is definitely a page turner. It's going keep you at the edge of your seat trying to figure out what's really going on. It's also filled without a lot of twists and turns that really worked well for the story. I was surprised as those twists and turns unfolded as the story progressed. I didn't see it going down like that, but I loved the unexpectedness and gave this one a four star rating ????.

---

## **Tanya Santiago says**

\*\*\*4 Crazy Stars!\*\*\*

This was a phenomenal story! There was so much suspense and I honestly did not see the ending coming at all.

Lena is taken by Jake who thinks she is her twin Anna who has been missing for 5 years after leaving their home with their aunt and uncle. Lena has no memory in the days leading to her abduction. She does realize that Jake thinks that she is Anna and she plays along so that she can get the answers that needs regarding her sister. Lena and Anna lost their parents young and had a really rough time physically and emotionally when their parents died. From here we get tidbits of their teenage years and the motive on why Anna leaves and never came back.

Throughout the book there are so many questions regarding Jake and Anna's relationship and what really happened in the days leading to Lena's abduction. Lena honestly does not know if Jake is the good or bad guy. There are so many twists and the ending was just crazy. A good crazy though. All of our questions are answered and you will be VERY SHOCKED once you read the ending. This was a great read and I so look forward to reading more from this author.
