Purple Passion

Sindra van Yssel

Purple Passion Sindra van Yssel

Darren McCorvey can't believe his good luck when sexy violet-haired Lisa Martinez sits across from him at a table in a restaurant. Never mind she's only at that table by mistake -- she certainly didn't intend to join a bunch of BDSM aficionados -- he recognizes a submissive streak inside her that she thought was nothing but a weakness. She can't believe this hunky guy is interested in her, but the things he's into attract and scare her all at once. She pretends she's interested to piss off her controlling ex-husband, and doesn't intend to let it go any further. And Darren has no intention of falling in love, ever again. But after one fierce kiss it doesn't seem to matter what they intended, what they've feared, or what obstacles their pasts can throw in the way.

Publisher's Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable: Anal play/intercourse, BDSM theme and elements, exhibitionism.

From Reader Review Purple Passion for online ebook

Lirajean says

A cute little sexy story.

Karsyn says

cute short story, light and easy.

Julz says

great quick read. cute storyline.

Judy & Marianne from Long and Short Reviews says

Who knew an accidental meeting could lead to something so unforgettable? Certainly not Darren and Lisa. Their introduction is serendipitous. He believes she's a submissive attending a casual lunch. She believes she's meeting with associates of her ex-husband's. When they learn the truth, despite their mutual shock, their sexual chemistry is impossible to deny. Tempted to learn more about the lifestyle, Lisa accepts Darren's offer to attend a private gathering. Before long, Darren is enamored with a woman who isn't sure she's submissive at all, and the chase is on.

Purple Passion is a story readers are sure to enjoy. Darren and Lisa are perfect for each other. He's intuitive where she's impulsive. Their dialogue and banter is both sweet and sexy, and some of the pages are so hot you'll have to fan yourself. When jealousy and venomous ex-spouses and partners threaten to pull them apart, they come closer together. The story is a perfect slow burn, giving the reader just what they need while hinting at future delights.

The writing is tight, the pace is perfect, and the characters are wonderfully developed. The BDSM elements, while present, are not the central focus on the story. Purple Passion is about two people finding what they want most in another person. As Darren and Lisa fall for each other, the reader can't help but fall for them as well.

Those searching for a hot, passionate, BDSM erotic romance will thoroughly enjoy Purple Passion.

Sassafrass says

Original review done for The Romance Reviews.

I read the description, had to read it, and I have to say that I absolutely made the right choice. This book was immensely fun, utterly entertaining, and overall a marvelous read.

Imagine this: You're supposed to meet your overbearing ex-husband's colleagues to discuss business matters at a restaurant. You give the name that THINK is right, but you end up sitting at the munch of the local BDSM scene! Embarrassing, right? Maybe a little intriguing? Exciting?

Well, that's what happened to purple-haired Lisa, and her strength to stay during the munch changed the course of her life forever. She meets hot Dom, Darren, there. They start on a hot, relationship that shows Lisa that she can find strength through submission, while Darren learns that love can make even the strongest Dom a slave.

This book was outstanding! I just couldn't put it down. From the beginning, with this fantastically comical--and so easily believable premise, I was drawn into Lisa's immersion into the BDSM world. She's my favorite type of sub: she wants to submit, but she's not going to let anyone run over her. She's strong and gets even more strength through her submission.

Darren was the love 'em and leave 'em type, so he certainly didn't think that Lisa would be it for him, but he was drawn to her as much as she was drawn to him. From there, he was just a goner. How sexy is that!

There was also some subplot there with a jealous sub that gave some humor and drama to the story, but really Darren and Lisa were enough. They seemed mismatched at first, but they really were perfect for each other. I loved that they could laugh at themselves and not take themselves to seriously.

The chemistry between them was off the charts, which made the sex between them scorching. The dominance Darren showed was loving and sexy. There was some sexy spanking, a little flogging, and a whole lot of lovin'. Darren was just so unbelievably sexy, I'll tell you a little secret...I drooled a little bit over him. There, I said it. I stand by it. Read it, and you'll see.

So, PURPLE PASSION is just a fantastic read. With a unique plot, great characters, just the right amount of tongue-in-cheek, steamy love scenes, and that loving Dominance I just adore, I was entranced from the first word. What's even better is that I found a new author to read in Sindra van Yssel. I can't wait to read more of her work.

? BookAddict ↗ La Crimson Femme says

Why is Lisa still talking to Brian? This I didn't understand. I did find it funny she accidentally joined a munch. I giggled and thought what would happen if one of my vanilla friends did something like that. Lisa dropping in on the munch was the best mistake of her life. Darren picks her up and from there on out, BDSM erotica all the way. WOOHOO! I enjoyed this short and sweet story. I can always count on Ms. van Yssel for some hot smexy BDSM. I wish she would write some f/f BDSM. That would really make my day.

Fran says

3.5*

Discfan2 says

[It paints a semi-realistic picture of the lifestyle and the only real complaint was the instant love and collaring after only a week. (hide spoiler)]

Emily says

Lisa Martinez is running late for a dinner with a group of people she has never met, thinking it is a possible business venture meeting, when she finds herself at a table for BDSM interests. Not realizing until she has ordered, she is not certain what to do but the man next to her Darren McCorvey spots a hidden sub within the violet haired beauty next to him. Not sure if she will take him up on it, her invites her to a party hoping that he may get another chance to see her.

Great book, when Lisa realizes her mistake it is quite funny. Years of feeling stifled has her ready to see if there is more to her darkest fantasies than she is willing to admit.

MissyGirl says

It was pretty good. I like how it started. Lisa goes to a restaurant to have a meeting with some people she has never met. The waiter accidentally takes her to the wrong table. She soon finds out that she is at a Munch!

It reminded me of The Burn List. It starts out a bit differently, but ends up taking you on the same journey. Ended too abruptly. I felt like there was more that could have happened in Darren and Lisa's relationship before we got to the HEA.

Katy Beth McKee says

While it was a quick read it was very enjoyable. I found both Darren and Lisa to be very likable and I couldn't help cheering them on. I really enjoy a story where love sort of sneaks up on the main characters. Of course my naughty self would love to know what happens with their ex's Brian and Adriana.

Theresa says

DNF. I didn't care for the mentally/emotionally weak heroine. Lisa allowed her ex husband, who cheated on her, to run her life after their divorce. She had no boundaries and shared personal information. She even told

him about the Munch she inadvertently attended and even about Darren and his invitation to a play party at his house. Lisa needed more time and/or counseling before starting a new relationship. I stopped reading at that point because I knew I wouldn't buy into Lisa and Darren having a solid relationship.

Aelliana says

4.5 stars. Nothing to complain about really.

Army-mom says

I like how the author let Darren and his sub handle everything with respect. He understood and enjoyed her being who she was -even if it was a little bratty. The fact that being her dom and he still wanted her to be her own person in business or not was very nice change. I like the choc. cake part - yumm

Laura (Kyahgirl) says

3.25/5 B

I picked this book to read because I'm still exploring different authors and a review of another van Yssel book had noted that this author writes fairly positive, not-dark, erotica stories.

I enjoyed this story, it is along the lines of the Club Shadowlands books by Cherise Sinclair - woman interested in learning more about BDSM meets a man who's willing to teach her the basics. In the meantime, they play, get to know each other, and end up as a couple.
