Gabe a.k.a **Angel**

He is the VP of **Severed MC**. They are the good side of biker in town. He rescued Eve from his twin brother, Satan, member of their rival MC. He don't do relationship, because of unfortunate things happened to him in the past.

Eve

Single mother, who went to Australia to reunited and to be a maid of honor of her long time best friend. She was supposed to have good time with Teresa but everything went wrong when she witnessed a murder that puts her life in danger. She only known biker life through her book, which i can relate to her. never she imagined that she will be part of it.

I love my MC read full of action, suspense, and hot sex, which the book has all of it. I like the story, the action starts right away and never stop. Though there are violence but not extreme. The story was about survival, friendship, loss, loyalty and family. The main characters are both likeable. There are supporting characters that contributed well in the story. I like the name of characters and the history on it. It amused me. Disney, Dragon, Ink, Cowboy, Elvis. Even Angel twin brother, Satan He was a psycho but I think there is something behind his anger.

Why not 5 stars? Well, i just read "wake up" for all the start of chapter. Though this is the usual biker story, i think there is something lacking.

I didn't expected the ending, **CLIFFHANGER ALERT!!**

Overall I enjoyed it, I will recommend this book to all biker lover.

Severed Angel is the story of Eve and the Severed MC.. We meet Eve as she arrives in Australia for her best friend Teresa's wedding to the President of Severed MC. Teresa moved back to Australia 6 years ago, leaving with her father Elvis following the death of her Mother. This is Eve's 1st visit and she is excited to reconnect with both Teresa and Elvis; whom she views as a father due to the lack of one growing up. Eve has been unable to bring along her daughter Elizabeth, who she has left with her mother (awful mother to Eve growing up, but has stepped up to be a good Grandma to Eve's daughter). Eve is so excited to catch up with her "family" that she doesn't follow Teresa's strict instruction to stay at B&B overnight before then coming to Severed. Off she goes without a care in the world, until she loses her map and finds herself well and truly lost. Having left a message her phone dies, so she stops at a convenience store hoping to get some

directions.. What she witnesses, will change the course of both her holiday and her life... if she manages to stay alive that is!!

I liked this book. Eve was a pretty nice character that is obviously pretty damaged and naïve to the life of a MC. Angel/Gabe is the hero.. I have to say I loved his character.. he is the VP of the club and initially saves Eve from meeting a grizzly end at the hands of Satan (more on him in a minute) Eve hasn't had the best start in life and lacks in my opinion any love. Angel on the other hand, has known love but is unable to get over dreadful memories to give that love to any one anymore and hatred and the need for vengeance as taken control. They have a instant attraction to each other, but Angel defiantly fights the lust he has for Eve to protect her both from himself and his nemesis Satan.

Ok, Satan.... what a character.. I loved him!! he really is the ultimate evil, crazy SOB that you want and need in this type of story, for me he is the star of the book.. you then have other characters like Elvis, Teresa, Prez, Dragon and Ink. They were great additions to the story, however some were underdeveloped and could have been used more to add more depth to the story in my opinion.

As I have already said, I did like this book... I just didn't love it!! For me there was something lacking!! I like more grit, angst and emotional/sexual intimacy between my H/h in a MC book and I just didn't get enough of it sadly. The storyline is great and it definatly draws you in but at about 40% it just lost my full attention.. The middle just didn't build for me and I can't put my finger on why. However, come 85% it sucked me back in again and wow what an ending!! Genius!! So having said that, you will guess that being a 2 book series we have a dreaded cliffhanger.. what a cliffy it was though, in all honesty it saved the book for me and now has me really eager to read book 2.

A good but not great MC book, saved by a brilliant ending and perfect baddie... I just hope K.T, makes it a little more gritty, increases the angst factor and creates a story where you are routing more for Angel and Eve.

Severed Angel (Severed MC, #1) by K.T. Fisher & Ava Manello

A gripping new MC series formulated with the perfect blend of angst, sass and swoon. This is one ride definitely worth taking. - Kelly, Perusing Princesses

This is unlike other Biker books I have read, simply because even though club life is notoriously similar to that of the standard MC uniform, it differs slightly because the Severed MC are not the drug-dealing, gun running, killing-spree kind, in-fact, they are far from it. These boys know how to party, but they are revered for keeping their business on the right side of the law.

Upon reading this in the early chapters, I was concerned it would make these boys seem lacking in some way, but I couldn't have been more wrong. This MC put a high price on family values, on respect, and most importantly of all, they will fight to protect what is theirs.

*

This story follows Eve, a British woman who has recently come out of a failed relationship with ‘douchebag,’ whom left her and their two year old Daughter, Elizabeth, high and dry.

Eve misses her best-friend Teresa and her Father Elvis since they emigrated back to Australia, to Elvis’ native home after losing his wife. Upon receiving an invitation to Teresa’s wedding to a man named Bill aka ‘Prez’, she is more than happy to leave Britain for a month and embark on the 20 hour flight to get reacquainted with Teresa after six years apart, while leaving her Mother to care for her two year old Daughter back home.

Getting lost in the middle of the night in a strange country wasn’t in the itinerary. Stumbling upon a murder scene in a late night store certainly wasn’t in the travel plans either, but unfortunately, it puts Eve in a precarious situation when ‘Satan,’ the VP of rival club The Carnal MC, fails to clean up the loose ties when Severed MC arrive just in time to save her from his deadly clutches.

To Teresa and her father, Eve is family, therefore Severed MC offer protection in the form of ‘lockdown’ when they hear of the \$250,000 bounty on her head. It’s hard being around him though, because the one they call ‘Angel’ looks just like the man who put a gun to her head - being around the VP and identical twin brother is disconcerting, but even more so when she finds she can’t help but lust after the man who has sworn to protect her.

When a club whore becomes collateral damage in the ‘hunt for Eve,’ Gabe/Angel will not let her out of his site and subsequently, out of his bed...

*

Yes, this is a love story, well... maybe more a insta-lust story, but the workings are all there. This storyline is entertaining with a worthy angst factor, although I prefer a little more grit with my MC boys, I cannot deny that Gabe/Angel is one sexy SOAB!

I liked our two main protagonists, and I connected to a few of the secondary characters, although I would have liked more emphasis on character description for each of the members, I found myself having to make up my own.

Satan is a fabulous villain, he is the angst factor and a part of me loves him, not in the way I connected with Gabe, but in a ‘he scares the shit out of me, but I want more of him,’ kind of way. And I feel my wish may be granted in book two after that stunning cliffhanger ending!

I know many of you hate cliffy’s but it gave this book impact, and I can see why the author/s did it. I’m highly anticipating book two, because I know after that whopper I just have to continue with this series.

Definitely worth a read!

I'm an MC book junky. The biker world has its own set of norms and rules it lives by and immersing myself into that atmosphere is a great escape for me. What makes *Severed Angel* stand out amongst the rest is that the Severed MC actually runs legitimate businesses and stays on the right side of the law, which is an interesting and refreshing twist on most biker stories that I've read. It allows the idea of good versus evil to be depicted and explored throughout the text in a variety of ways.

Eve and Gabe ("Angel") are the focus of *Severed Angel*. Eve is from England, but she flies into Australia to be in her best friend's wedding. As soon as she arrives Down Under, all hell breaks loose, and her life is on the line from the very first pages of the text. Eve is at the wrong place at the wrong time and what she witnesses puts her in direct contact with the Devil himself, and even though he's merely a man, he has the power and the will to bring the Grim Ripper down on Eve. The Severed MC comes to Eve's aid in the nick of time, but now Eve has put them as well as their old ladies and club whores in a world of trouble. The only way out of it is to hand Eve over to the Devil, but that's not even an option after Angel, Severed's VP, willingly protects her against his brother. What follows is a story of passion, danger, and death, and due to the ending's cliffhanger, readers will have to wait patiently to find out how it all plays out.

Eve is quite the dynamic heroine; she's been through hell with her ex, which has definitely weighed her down, but it hasn't made her frail...just cautious. She knows how to hold her own and has a feisty attitude, but she also feels deeply, and it is shown many times by how she reacts to the events that occur in the story.

Gabe is a tormented man; he has suffered severely at the hands of his brother. In all of the MC stories that I've read, he's probably one of the most honorable bikers there is. He's attracted to Eve, but he knows he's no good for her. He's a protector, but not everything is in his control, which makes him feel powerless at times. Without control, Angel feels unstable, and in a matter of life and death, he needs to be on his game before he loses something else that matters to him.

I loved this book. It's a fast paced text filled with action, angst, and hot sex. The twists and turns the plot takes set readers on edge, wondering what is going to happen next. Eve and Gabe are strong and dynamic characters who are surrounded by a cast of interesting supporting characters who add much to the plot. The antagonist is evil to the core, and the authors do a great job of illustrating just how opposite the devil is to the angel. With the cliffhanger ending, it's anyone's guess how good is going to prevail over evil, but no matter how it happens, it's going to be one hell of a ride.

A complimentary copy of the text was provided by the authors in exchange for an honest review.

Deborah says

This just didn't work for me.

I love MC books and this one had some really great reviews but I struggled with it, I'm too picky, I know I am but once I notice something or something annoys me I just can't let it go, I wish I could it would make it so much easier.

Anyone familiar with my reviews knows I don't put spoilers in very often but I can't review this book without them.

SPOILERS

- I did pause very early on when the map blows away and Eve then has no charge on her phone, I just think first time in a strange country by yourself when it's getting dark you'd be a bit more careful. Maybe that's just me.

- It made no sense that Satan didn't just pull the trigger, it would have only taken seconds and not held him up.

- And seriously why wouldn't Eve lock her door if she going to get naked on her bed in a clubhouse full of bikers

- Satan provides them with footage of him and his boys torturing and then killing Lola they then dump her dead body outside the clubhouse....isn't that enough to have him put away? I can't understand why they would go to all the time and trouble of setting him up on drugs charges when they've got proof he committed murder. Is it just me because it doesn't make any sense at all.

- I feel bad about giving Angel that sedative now. I hoped tonight he'd have told me how he felt about me' again is it me....seriously Eve wants Angel to tell her he cares Angel is desperate to tell her he cares so she sedates him. Then next morning she's unhappy because 'He didn't say anything last night' that's cos you sedated him before he had a chance.

- This is just the main points the list is actually quite long.

I knew before starting that this was part 1 of 2 and as it reached the end it was obvious how it would finish and again

BIG SPOILER

When Angel wakes from his sedation and gets to the airport - "I'm sorry sir, that flight has just departed" She gives me an odd look. "Funny that, I could have sworn I'd already checked you in"

Now I know Angel has had a rough time lately and he's still recovering but doesn't it ring any warning bells at all.

I wont be continuing on to the next book because while I liked Angel and the rest of the MC there were just too many inconsistencies for me.

as a lover of MC books I've read a lot of them and can say that Angel will be your next book bf. this book will have you on the edge of your seat, cheering for the good guys, panting through the sex scenes, crying your heart out and hanging for the next one. do yourself a favor and get this book... but be warned, once you start reading you won't want to put it down

Judy says

In a daze of one clicking new MC romance releases I one clicked this book without realizing it was a cliff hanger. So I broke my cardinal rule of no cliff hangers for 2014 because it was too late to return the book. My initial thoughts were to skim the book to see if it was worth reading. To my surprise I really enjoyed the book. My only admonition is that I still feel disgruntled because \$4.95 for 178 pages is an expensive short story and it is not a complete book. Now I guess there will be another book for the same price and length that will finish the story. I wish authors would understand that the vast majority of readers want a full book for that kind of price and have made it known they hate cliff hangers. All of these issue impact my overall opinion of the book and the author. If this book had been a complete story it is possible the rating would be at least 4.5, however the most I can give it is 3.

The story is based in Australia and is centered around the Severed MC. The h in the story is visiting her childhood friend who is getting married to the MC president. The h witnesses a murder committed by a rival MC and is targeted for death. In steps, Gabe or Angel as he is called, the VP of the club to save the h. The author did succeed in presenting a host of characters that I liked and the story did not seem to be as trite as some of the other recently released MC romances. At this point I do not know if I will buy the second book because of not being sure it will lead to another cliff hanger and the fact that paying \$4.95 twice for a book of approximately 400 pages is just to high. There are enough characters in the book for the author to write multiple books in this series.

Yes yes yes. I totally loved this story. Angel is my new book boyfriend. Oh yes. I'll be thinking of him for a

while.

Eve and Angel are the main characters. However I loved reading about the others in the book.

This book got under my skin. I inhaled it... Yes I basically sat and didn't move until I'd finished it. This is a edge of the seat read. Bloody brilliant:)

I need to know when book two is out as this ended in a whopper of a cliffhanger.

4 Severed Stars!!

Well, my MC cherry is now **POPPED!!!** Yep, going into this book, I was a total MC virgin. I have about 3 or 4 other big MC series on my TBR but just haven't gotten to them yet. So I was a little worried that I wouldn't be the right audience for this book but SWEET BABY JESUS was I **wrong!!**

By 4% in, I was totally and completely hooked! The action starts right away and does not let up until the end. Eve is on her way to Australia to see her best friend get married. Just upon arriving, she has some very bad timing at a local convenience store and witnesses a gruesome murder at the hands of the Carnal MC group, the VP of which is (the very aptly named) Satan. But Eve luckily gets rescued by a group from the good MC group in town, Severed. And the VP of this group is none other than the very sexy, very alpha male, Angel...who is unfortunately Satan's twin brother. But there is no love loss between these two. Satan never leaves a witness so Eve immediately becomes his primary focus. She becomes the very same for Angel as well, but for very different reasons.

What follows is a story of good versus evil, with a touch of forbidden love, that had me biting my nails until the last word! Angel is a self-professed man whore who doesn't do relationships anymore, but can't keep his eyes off of Eve. The chemistry between them is there and the sex scenes are **HOT!!!**

"I step closer to stop her ranting. She glares up, her face softening when she sees my smile. "What's going on Angel?"

I lean my forehead on hers, breathing her in. "I don't know."

I love going into a book with zero expectations or before-hand knowledge and being blown away!! And that is what happened here. I hadn't read any of the work of either K.T. Fisher or Ava Manello before, but I can tell you now, that these are two authors to watch. The writing flowed from one scene to the next seamlessly, keeping me engaged that whole time. Definitely a couple of authors to remember with big time potential!

There were a couple of things that kept this from being a 5 star book for me. First, there were a couple of

times where scenes were flashed back to instead of the reader getting to experience them in detail. For example, (view spoiler)

My second issue was a part of the ending. By now you may be aware that the ending is a cliffy one and I didn't even mind that part of it. It was suspenseful and exciting as hell! The part that I didn't like was that (view spoiler)

Other than that, I really enjoyed this book. I loved the rough and raw parts that are to be expected in an MC romance, as well as the tender, romantic parts that were intertwined.

"I know that being with Angel will never be sweetness and roses. I'd almost convinced myself that I could settle for the hot and hard sex with him, but then I let my fucking emotions get in the way." ~ Eve

I will be over here breathing in a paper bag until book 2...like seriously! :)

4 Hot as Fuck Angel Stars

Complimentary copy provided by the authors "K.T.Fisher & Ava Manello" in exchange for an honest review.

I just about gave up on this book and am I so fucking glad those 5 star reviews for this kept on taunting me!!

This book kind of had it all for me, Murder, Suspense, Angel (wipes chin) Good versus Evil, Hot tattooed bikers, \$250,000 bounty, A set up, off the scales hot alpha cave man scenes, god you name it what the fuck didn't this book have!!

So we first come across Eve who takes a wrong turn and witnesses a murder which in turn puts a \$250,000 bounty on her head.

Shit just got real

Eve almost wants to laugh, *"for most of my childhood I was told by my mother that I had no value. Well mum, look how wrong you were, I'm the equivalent to a fucking lottery ticket for some drugged out biker."*

"If anyone is going to kill him, it will be me, but that piece of shit ain't worth rotting in a cell for, well set him up, a drugs raid on Carnal turf."

Just looking at him you know this man will fuck you senseless.

"I don't usually share my bed Princess." His voice is thick with sleepiness, it's so fucking hot. *"Well you can leave."* I offer, hoping like fuck he turns me down. He chuckles. *" Nope, not going anywhere."* He lays one of his strong legs over mine and an arm over my waist. *"And neither are you."*

But before I go into stalkers mode to hunt down these authors that ending OMFG!! I NEED/WANT book 2 NOW!!

Eve arrives in Australia ready to see her best friend and be part of her wedding. She is excited and even though her friend warned her to wait to be picked up, Eve decides to surprise her by renting a car. Never in her wildest dream did she expect to witness a murder and to have the VP of a corrupted MC determined to see her dead.

VP of Severed MC Gabe "Angel" finds himself protecting Eve, but as much as he would like to be with her he can't. His twin and enemy is the man after Eve and Gabe has met more betrayal at the hands of his brother than anyone should in a lifetime. However Eve is getting under Gabe's skin and only his own ghosts are

keeping them apart, it is only a matter of time before Game makes his move and he is determined to make Eve his old lady.

This is a two part book. I thought this was fantastic, Eve has to endure quite a bit with being scared to death about being in danger, her attraction to Gabe, and some other surprising dynamics that unfold in the story. Read both books in one sitting, couldn't put it down.
