**Spider-Man: Black Cat** Jen Van Meter (Text) , Javier Pulido (Illustrations)

The Cat is B(l)ack in her own series and it's international intrigue at its sexiest by Jen Van Meter (Hopeless Savages, JSA) and Javier Pulido (AMAZING SPIDER-MAN). As Spider-Man is stalked during the Grim Hunt, the world's slyest, smartest and sneakiest jewel thief's latest heist puts the Black Cat face-to-face with the family that has been terrorizing Spider-Man's dreams and threatening those closest to him!

**COLLECTING:** Amazing Spider-Man Presents: Black Cat #1-4, Black Cat one-shot

## From Reader Review Spider-Man: Black Cat for online ebook

### **M says**

Jen Van Meter outs the spotlight on famous jewel thief Black Cat in this Spider-Man miniseries. Framed for a murder committed during a smash-and-grab heist, Black Cat is out to uncover the truth behind the set-up. Drawn into a search for Russian heirlooms that leads to the doorstep of the Kravinoff family, Felicia must pull out all the stops to rescue her mother, protect her crew, and demonstrate why no one messes with the Black Cat. While the opening issue of the volume does fall into the trap of information overload, the rest of the collection demonstrates a fantastic look at the workings of Felicia Hardy. The crew of fashion assistants, gadgeteers, ID forgers, and fences provides a rich supporting cast that begs for more action. Felicia's use of smarts and sexiness are played to the hilt by both Van Meter and artist Javier Pulido. Two codas featuring Spider-Man and Black Cat crossing paths offer engaging and humorous takes on their relationship dynamic. Despite being embroiled in the Grim Hunt event, this graphic novel demonstrates how Black Cat should be utilized within the Marvel Universe. Steal a glance or two at this collection and find out for yourself.

### **Andy Baird says**

The main focus, Black Cat #1-4, were kind of boring. But the last two parts, The Root of all Annoyance and The Other Woman are super-entertaining. I loved Javier Pulido's art, it reminded me of the original classic comics from the 60's bold flat color with minimal detail.

---

### **Rosa says**

Black Cat is a thief that some times helps out the good guys (sounds like a cat from DC doesn't it). Her mother is kidnapped and someone tries to trick her into helping them steel back a russian cache of art and priceless antiques. I was expecting the volume to feature Spiderman but he wasn't really in the initial story line since Black Cat was trying to protect him. He was however in the two shorts that followed, one about a bank theft and one focusing exclusively on their fwb relationship. Both of those stories were on the goofy side which made a great counterpoint for the first story.

---

### **Nate says**

Spider Man: Black Cat just seems lazy to me. One of the more fun street level characters in the marvel universe gets a mini series and it's pulled along by uninspired art and it all feels like a Catwoman knock off rather than diving into the deeper elements of the character.

---

### **Julie says**

Interesting character... and of course, I love Spiderman.

Finished all four of this little series and I'm sad they are over. Just loved her... and I would love to know more of her story. It looks like I might have to start reading Spiderman to find out.

---

### **Liv says**

Black Cat is bad ass! And quite clever too.

---

### **Robert Bussie says**

This is this so average to below average. It has three stories. The main story from "Amazing Spider-Man Presents: Black Cat #1-4" has an average and story that is boring in spots. The art work is below average; the coloring is below average with no changes in tones or hues.

The last story from "Amazing Spider-Man #612" is just terrible. The story 8 pages of shallow ramblings about the loves of Peter Parker/spider-man with just terrible art work. Even the lettering is terrible. And again, wow, the art work sucks!

The middle story has a story from "The Many Loves of Amazing Spider-Man." It is actually really good. It is a funny story with great art work.

The cover price on this trade is \$16.99. I spent \$4.00 on it at comic con and I am soooo happy that I did not pay full price. This one is being donated to my library. Maybe someone will find it interesting. As for me, Nope

---

### **Alyssa Greatbanks says**

Now, the Black Cat is my favorite superhero. So I got really excited when she was getting a new comic. But seriously, this one sucked, HARD. It looked like they rushed all the art (except the covers), or just plain got someone who didn't know what they were doing. In more than half the panels Black Cat either looked anorexic or constipated, and that's not a very good quality for a Superhero. The story was okay, could have been better.

The only thing that saved this was the 'The Many Loves of The Amazing Spider-Man: The Root of All Annoyance" story. That one had great art, and a very entertaining story. I wouldn't hesitate to buy that one separate.

---

### **Allen Setzer says**

I love the Black Cat and her stories and interactions with Spider-Man are always Enjoyable.

---

## **Mer Mayhem says**

3.5

---

## **Thelma says**

Very fun! It's always such a delight and a relief to run across a book I Really Like, so thank you for this one, JVM. My first "black cat" story, with heists and history and politics and Spiderman in boxers. Similar to and even better than the French comic about the Cold War, Pierre Christin and Annie Goetzinger's *Le Poison Rouge* ("Agence Hardy").

---

## **Bryson McCheeseburger says**

Always loved Black Cat and Spider-Man. They are a great combo. I kinds wish there was more to this book than what it was, but the story (and shorts) are pretty good. The main story is typical, but done well. The ending seemed rushed and a little of a letdown, but all in all, a pretty solid book.

---

## **Paul Hasbrouck says**

To save her mother, The Black Cat and her team must pull off series of heists. Each heist will bring her closer to the estate of The Kraven family, that kill crazy enemies of Spider-man and her mom. Nice fun read.

---

## **Elliot Huxtable says**

Witty and sexy in equal measure, this comic really shows off the character of Black Cat. The main story of the Kraven heirlooms is fun, as is the Spider-man team up against the occultist, and the artwork is delightful

---

## **Lynda says**

I really loved this one, and wish there were more stories, but apparently this was a limited series and that's it.
