Gwen says

Like all the other Charmed novels, a great book, and just as good as the actual show.

ok but not the best one

Rose Heartfilia says

Up till this point there has never been a charmed book that I disliked more than this one. This was entirely bullshit with the fitness program and the UFO. It was ridiculous and annoying to read and 250 pages were too long. My theory of the sister in trouble is nonsense too so that is over and now I simply have to finish the rest to be able to continue with better books, thank you very much.
