The Forgotten One

Trinity Blacio

The Forgotten One Trinity Blacio

Willow Townsend was one of the best female soldiers in her squad. But now that her leaders had found their mate and she was safe, it was time for her to return home. She wasn't a coward, but when it comes to her two bloodmates, Lydia runs home, a place they shouldn't be able to find. Plus, there was the fact that her father, the prince of hell, had a hand in the death of the wife of one of her bloodmates.

Alton Cooper, Maxim Evens were bloodmates, but they were missing the woman that connected them both, Willow. Between the two men they had centuries of women and loving, but nothing had prepared them for Willow. But first the two of them had to find their runaway woman and corral her, before she is harmed.

Could the three of them come together knowing of her heritage? Would their passion and love be enough to save them from the threat of the spiderlady herself? And would their little kitty be able to handle the heat in their bed?

Tia says

Ugh! These men totally ruined Willows story.. SHIT!

Debbie says

Wow!!

What a great book!! I just love this series! I can't wait to read Storm's story! A definite must read!! Happy Reading!! :)

poppy says

Another great book in the series really enjoyed this book couldnt put it down a recommended read

Tina says

Willow is hiding more than her identity. So when she finds herself mated to not one but two men, she runs. However, Alton and Maxim are determined to not only find their woman but also uncover her secrets. In The Forgotten One, the next installment in Trinity Blacio's The Surrender Series, Willow learns she can lean on both men to protect not only her and hers but also her secrets.

This story is best read in chronological order for maximum enjoyment. And I can honestly say I thoroughly enjoyed this addition to this series. Willow is strong which we knew before Ms. Blacio showed us her journey to happily ever after. She is loyal to those she cares for and gives her all. But when fate drops her mates in her lap, Willow is thrown off her game. She has been hiding not only her name but also who she is and that has the possibility of destroying friendships and work relationships. I love that Maxim and Alton didn't care. They had their one and even though they barely knew each other, they were determined to be there for Willow, even if they had to fight the woman herself. Ms. Blacio gave us twists and turns throughout this story but they fit seamlessly. Even as Willow and her men learn to trust in each other, Ms. Blacio continues to build upon this world. I will say that Ms. Blacio has always built her worlds quite well and this story is no exception. But even as we are drawn into this new world, Ms. Blacio does not forget to focus on the journey Willow, Alton and Maxim take as they blend their lives together. And I for one can't wait to see where she will take us next.

Five Shooting Stars

Raina Collins says

An intense story with magic, shifters, aliens and so much more. If you think your family is dysfunctional, you must read and meet Willow's family. It will have your head spinning. And did I mention so many hot men?

Suggest starting the series with book one, otherwise the story can get a little confusing.

Received through NetGalley. Voluntarily read and reviewed.

Susan Angela Wallace says

The forgotten one by trinity blancio is a romance and erotica read.

Willow Townsend was one of the best female soldiers in her squad. But now that her leaders had found their mate and she was safe, it was time for her to return home. She wasn't a coward, but when it comes to her two bloodmates, Lydia runs home, a place they shouldn't be able to find. Plus, there was the fact that her father, the prince of hell, had a hand in the death of the wife of one of her bloodmates.

Alton Cooper, Maxim Evens were bloodmates, but they were missing the woman that connected them both, Willow. Between the two men they had centuries of women and loving, but nothing had prepared them for Willow. But first the two of them had to find their runaway woman and corral her, before she is harmed.

Could the three of them come together knowing of her heritage? Would their passion and love be enough to save them from the threat of the spiderlady herself? And would their little kitty be able to handle the heat in their bed?

Absolutely fantastic read with brilliant characters. I loved the story. I love how trinity writes. Highly recommended. 5*. I voluntarily reviewed an advanced copy of this book from netgalley.

Cathy Sprouse says

Her usual good read.

This story reminds me of Running In Fear. I loved both stories. I think what I like best is how she keeps me guessing from the start. Always something going on. Strong females and stronger males. Sometimes I wonder about the way the males treat the females as if they only good for one thing and it is in bed and as a baby maker. But the female always give in and love it. But deep down do they really forget these things that are said and done. I would always wonder specially if two males had been together for twenty years before they met me. Would I not come in second . I mean really, the Only thing I could give that they didn't already have is children. That being said I enjoy the family and the fact they are so varied. Each one brings something new to the table and keeps me on pins and needles to find out what is going to happen next. The only problem I have with her stories is that sometimes I am not sure who is talking. I have to go back and try to figure it out. But that is the only thing that bothers me and that is not enough to stop me from reading her stories. I own most and reread most. If you like Running in Fear or Masters of the Cat, then you will like this.

Camilla says

Can a love that are faithd to be together even if it's a relationship with three blood mates. Willow doesn't

think so, can her two bloodmates really want a relationship with her, when they know ho her father is. Can Maxim and Alton convince her that their love can conquer all.

I like Trinity's writing and it's a fast read. If you like to read about a menagerie then this book is for you.
