Witchcraft: Witchcraft for Beginners: A Guide to Bringing Real Witchcraft Spells and Witchcraft Rituals into your Daily Life (Witchcraft Magick and Spells ... Books- Wicca - Witchcraft Spells -) Edith Yates

Free Wicca Bonus Book Included

Everything you need to get you started in Witchcraft and how you can incorporate this peaceful and powerful craft into your daily life where it counts the most.

In ancient history witchcraft was termed as the "craft of the wise" since the practitioners who followed this path were in perfect harmony with the forces of nature and in this book you will find out what real witchcraft is and also more importantly how you can start on the path of incorporating this craft into your life so you can live a fulfilling life

Before the name of Witchcraft was tarnished by the religions of the time magic practitioners of all walks of life were extremely revered from different regions of the world and were the seers, healers, wise ones, rainmakers, medicine men and women and they practiced magic in one way or the other, may you follow the craft as well

Here is a preview of what you will learn

What real Witchcraft is and the many misconceptions people have

Explain White Magic and Black Magic and the dangers and benefits of both

Different styles of common Witchcraft and what they entail

How to become a witch and tools and tips to get you started on your path

Learn different spells for beginners

witchcraft supplies

Conclusion and encouragement

Nanci Pattenden says

Ok

Book was ok. Nothing earthshattering. It was written in simple and easy to understand language and was a quick read.

Ludwig says

Informative

Very informativ ,good reading if you are open minded or just for educational purposes you will enjoy the history also

Alan D.D. says

Not what I expected, but seems to be better than other books. Could have had a more professional writing and give more information, but I guess it won't hurt anyone to read this book AS LONG AS THEY READ OTHERS.

No lo que esperaba, pero se ve mejor que otros libros. Pudo haber tenido una escritura más profesional y dar más información, pero creo que leerlo no dañará a nadie SIEMPRE Y CUANDO LEAN MÁS LIBROS.

Yvonne Davies says

I have always had an interest to learn more about witchcraft and this book put it all together which will save you trawling through the internet.. I enjoyed reading about the history of witchcraft and although I knew some I still learnt something new. I was surprised about how many different types of witches there were. If you are interested in learning spells there are some basic spells so you can practise. An added extra was the history of Wicca

Zachary says

Great Book!

I really like this book. I've learned a lot and will definitely use this ebook often! I highly recommend this book it is a great find for a beginner and or an excellent edition to add with your growing Wicca library.

Nici Zalliski says

Not really for the beginner, and contains no real substance. More for the curious.

This is a nice little book. However there is no real practical information for beginners. This isn't a book I'd recommend to practicing novices but it is a book I might suggest to someone who is just curious. While the formatting is good, and no typo-s I can remember, this book could do with an edit. The author overuses words like 'quite' and 'rather' to highlight points which detracted from the reading.

Laura McToal says

I find myself unable to turn down any free book. Which is what this is. It is also exactly what it says on the tin. No more, no less. The writting style is dull and textbook with nothing new that is not printed in any introduction to the history of Withcraft.

This book would have recieved 2 stars for at least being as the description implies; if it were not for the poorly structured, grammatically incorrect sentences and typos. Whilst I make these errors myself at times, I am not packaging my writting errors up and calling it a book.

Jennifer Law says

Recommended for any beginner

I really love the simplicity on the author's way of explaining things and the examples of magic that one can perform on their own. Nothing that was asked, in terms of materials, are out of my reach and I feel more confident in my abilities after having read this.

Cari Bunch says

Simple witchcraft

This book was great for someone who is interested in witchcraft. It was simple and not overly informative (meaning to much to soon). She made the process sweet and simple advising that there is always more to learn. Great introduction to basic witchcraft.

Ashley-Marie Shelton says

Very easy read as well as straight forward. Thank you

Wonderful book.

Sharing with my daughter in law about my spirituality and my journey I told her to look for a beginner book that spoke to her . This is what she chose. I am comfortable with the information shared within..

lisa fields says

Good general information for the curious. .

Covers history of wicca and some easy spells, more over she explains about the white and dark magics and the variations of wicca.
