Damned If You Do: The Complete Collection J.L. Merrow

Some sins are worth the price.

Sexy male succubus Rael has an insatiable appetite for men that gets him into all kinds of trouble. And he's just found his favorite flavor: hunky blond detective Lars Thornsson. When those cool Nordic looks combine with Rael's smoldering dark charms, all Hell could break loose.

Lars's job at the Paranormal Enforcement Agency means he's supposed to be policing demons, not falling in lust—or love—with them. But there's something about this feisty little sex demon that hits all his buttons.

With no shortage of deadly sinners in his city, from serial-killing succubi to drug-dealing demons, all Lars can do is try to keep his private life from interfering with his work. But Rael has a knack for getting mixed up in cases that threaten both their domestic harmony and their lives.

This title contains all four novellas in the Damned If You Do series: *A Calling for Pleasure*, *A Blast from the Past*, *A Wish Too Far*, and *A Glutton for Punishment*.

Nova says

DNF

Strange. I usually love JL Merrows books, but it seems like I have a problem with her paranormals. I really liked the idea of this series, but I didn't like the characters. :(

Bee says

This book is a compilation of the four novellas (A Calling for Pleasure, A Blast from the Past, A Wish Too Far & A Glutton For Punishment) in the series with the same name. Each of these stories are worth 4 stars on their own, and together a definite 4.5. The stories feature Paranormal Enforcement Agent Lars Thorsson and colleague Chelle Rochelle, investigating crimes with a paranormal connection. During their first case in the series they run into Sexy Succubus Rael, a sweet second-level demon who has ended up in a sticky situation, and Lars and Rael fall head over tail in love with each other. During the course of the four stories the reader gets to follow a number of different Paranormal Investigations, most of which Rael manages to stick his illegally housed nose into, and also gets to see how the relationship between Rael and Lars, but also Rael and Chelle, develops.

I read the first story in the series almost two years ago, and fell deeply for sassy Rael then, so it was a treat to get to read all four stories back-to-back. He is a bit intense and doesn't hesitate to pull out the 'sweetie's and 'sugar's and 'honey's, but I didn't find it at all as annoying as I thought I would. Lars isn't particularly "special" in any way, other than in his immortal part-Valkyrie status that is, but he is sweet in his fondness for his demon lover. Chelle is a tough tough lady, and I'm not sure I know how she looks, other than that she's really short. But that could just be a fault on my part, since I don't often remember visual details about secondary characters. She's incredibly acidic and the biggest cynic you'll meet, but she has some hidden depths and fun quirks. The various demons they come across are among my favorite things about this story, they're imaginative and a lot of fun.

Rael and Lars fall in love as soon as they see each other, but their story involves so much other factors that I didn't find it disturbing. Instead it was rather refreshing that there wasn't that much internal conflict in their relationship. There were a few sex-scenes, and due to Rael's *ahem* slightly different anatomy they are fun, but I wouldn't read the stories just for the sex.

There's just something about J.L. Merrow's writing that resonates with me. It works even when faced with a few paragraphs stacked with the most ridiculous metaphors and similes in existence. It's sometimes crazy, but also so much fun. The format of these stories makes sure a lot of the story happens between the lines, but I still liked this a lot. Recommended.

I got a free copy of this book via NetGalley. A positive review was not promised in return.

Katherine says

A very different ride of the Valkyries

This was a lot of fun. At times it slipped even a bit into ridiculous, but with a self awareness of that which made it entirely enjoyable regardless. The cases tended to end differently than expected all because of the involvement of one little demon and his willingness to look at the situation a different way. In a lot of ways, each story more served to reinforce the idea that love is a bit different for everyone, but always worth it. This was a great light read to have on the go that never failed to make me smile!

Lois - Who Reads says

This book was just fun! In the course of his work as a detective with the Paranormal Enforcement Agency, Lars meet Rael, a demon who should not have been summoned from hell. Rael is a sexual succubus and is the prime suspect of the case Lars is working on. Once Rael, and his prehensile tail, have had a taste of Lars there is no going back; Rael quickly becomes a one-man succubus and that tail is almost a character itself.

Rael manages to get himself in trouble in all four of the short stories that make up this book, but each time he really is just trying to help. He just is not very good at looking innocent. Unfortunately, Lars fellow detectives, Dum and Dumber, keep running into Rael when he is trying to help and they would like nothing more than to banish him back to hell. Although there is that one time that involved cross-dressing that confused Dum a great deal (and it was hysterically funny).

If you are in the mood for a fluffy read, this is the book for you.

Sunne says

Funny, fast paced, sexy (ups...tail), imaginative. A cute collection of really likeable shortstories.

This is a great review for it:

<https://www.goodreads.com/review/show...>

This is going on reread when I'm feeling in the mood for funny and sexy.

Cole Riann says

I'm excited to read and review this collection. I loved the first three books in their first incarnation as the Lars and Rael series, and according to Jamie the books have been majorly overhauled with some new stuff added and lots of re-editing. I'm actually glad that she said that, not only because it's great that these books can get better than they were, but because I enjoyed reading them so much the first time around, it gives me an excuse to re-read them for review :)

Plus, there's a new fourth book!

Deena says

Fun, light read - but still not as god as Tom & Phil...

Grace says

Not a bad way to pass the time.

This is a collection of a few short stories, and while they were fun reads, there definitely didn't seem to be a ton of substance. I thought the relationship between Rael and Lars developed way too fast, and most of the characters just seemed like too much, like they were sort of distilled down to a single attribute, and then that attribute was turned up to 1000.

Like I said, not unenjoyable reads, but I probably wouldn't have been less pleased if I'd bought them, and hadn't just checked them out for free from the library. Decent enough writing, though.

Hanne says

4.5 stars.

I loved this collection of 4 short stories/novellas about the sweet sexy demon Rael and his big half human/half Valkyrie cop Lars. They meet and fall in lust and Rael inevitably ends up entangled in some devilish mysteries that Lars and his partner at the PEA (Paranormal Enforcement Agency) Chelle Rochelle have to try solve. There are some other grand secondary characters both of demon and "human" persuasions.

As I am greedy I would like to request more from Rael and Lars. :)

Melanie says

Wild, zany romp to romance. When a male succubus and a half Valkyrie half human paranormal detective get together, sit back and watch the fun begin. A collection of the four Rael and Lars stories that work best when read together.

Becky Condit says

After reading this entire book I have to say I'm really disappointed. Lucky, you might find yourself asking, why would you be disappointed by it? Well let me tell you...the title of the book depresses me. "Damned If You Do: The Complete Collection"

Noooo. I want MORE Rael and MORE Lars! Their adventures are funny, sexy, and a heap of fun. I don't want this collection to be complete because that means no more. And that gives me a sad.

As first meetings go, I have to say there's just something special about "I saw the man blowing another guy and I knew I'd found love". Okay, that's not exactly how it went, but pretty much how Rael and Lars met. See, Rael is a male succubus, he lives off the sexual energy of others. Lars is special. He's got so much sexual energy that Rael could feast forever on this man, and that's just what he intends to do.

As the title suggests, this is the complete collection (whimper), and contains four novellas:

A Calling For Pleasure: Introduce Rael and Lars. Seems that a succubus is draining men dry (literally!) and Lars, along with his partner, have to find the demon responsible for it. This brings Rael into their sights.

A Blast From The Past: Someone is scorching buildings in the city. Rael gets himself mixed up when he finds out what Lars has done and he's determined to put things to right. Unfortunately, someone else from Rael's past is looking for him and things get ugly.

A Wish Too Far: Someone is handing out pills that grant wishes. Literally. Wish for the bumps on your face to be gone? Bye-bye nose. Wish for a million dollars? Yeah, but how you get it might hurt. When fingers point to a friend of Rael, he decides to check it out. And, surprisingly, finds himself in over his head.

A Glutton For Punishment: Rael has a knack for cooking (and you thought he could only get into trouble!) While on television helping out the host of a popular cooking show, Rael is drawn into yet another spot of trouble when said host disappears. Secrets get revealed. Decisions are made. If this is indeed the end (Please say it ain't so!) this ending satisfies.

(Wonders to self how to get the author to write more about these guys...perhaps if we start with a circle of salt...)

Lucky's 5 sweet pea review appears at <http://mrsconditreadsbooks.com/index....>

Tam says

I love me a good saucy incubus. The things they can do with their tails. Anyway, this is a grouping of several shorts with the demon Rael and his half Valkyrie lover Lars. Lars is a cop who is pursuing demons and Rael always seems to get involved, whether it's a vindictive ex or his mom being called up to provide info. Lars' snarky tiny partner and her later predicament is fun to watch and overall, I just love these stories. Light and fun. Fans of the couple will enjoy them all in one place.

Fangtasia says

Good, but not as good as other stuff I've read by this author. Maybe it was the (failed) effort at making it sound American? Definitely, if you haven't read anything else by Ms. Merrow, don't start with this one. Go for *Muscling Through*, you'll thank me for it.

Lindie says

Look at that cover! Naughty demon with a prehensile tail, you guys. It takes a stronger person than me to resist that. And a pretty book it was too, Riptide Publishing did a real good job on the design, with little horns and pitchforks throughout.

I found the premise incredibly intriguing. Male succubus? Interesting. There is a very clear distinction made that he is in fact a succubus, and not an incubus. Oh man, how happy I was that they used succubi as the plural. The word succubusses (or incubusses for that matter) make me want to weep. What kind of bus, you say?

There are a lot of similes used, but they are all so unusual and downright amusing that it keeps it from getting old. Amusing is a good word for the story. It's funny in parts and cute in parts. Sadly, it also reminded me why I don't like short stories much, it gives rise to too much insta-attraction and insta-love. I'm a slow burn kinda girl.

I liked Rael, he's the adorable kind of demon. Who just wants help out and cook the man in his life a good meal. And perhaps own a pet or two that kind burn down the house.

The way the characters speak grated a little for me. It tries to be too authentically... southern, I think. And the use of the endearment "honey" could have been cut by 50%. Perhaps if you read these stories as standalones it's not as noticeable, but when you read all of them back to back, the "honey" gets a little cringe-worthy.

Overall, I liked it, but I didn't love it. It was a fast, fun read.

k reads says

These stories are lightweight tales that are best read separately or over a period of time. There is not much to them. They are like twinkies. One every now and then is a nice little treat but too many at once and you start to notice there is little substance to them.
