**Deadly Memories** P.M. Richter (author)

"She doesn't remember a thing," Rolph snapped into the phone.

Andrea froze. His back was turned away from her. He didn't know she was there, listening.

"It's been six months, for God's sake. If you harm one hair on her head, I'll contact the authorities. My father would be disgraced, but that will not deter me."

Now Andrea couldn't move. There was no doubt Rolph was talking about her. She wondered how his father, the French Ambassador, could be disgraced.

His voice modulated to a threatening whisper. "This is the end. Otherwise she goes directly into protective custody, and I spill my guts. You've lied to me, made me into a damned traitor, and I'm angry enough to do it out of spite."

Now Andrea knew there were secrets he was keeping from her. What did he mean about protective custody? Was she in danger? The one blank spot in her mind was a mysterious car crash six months ago. She didn't know how she had landed at the bottom of a cliff in the Santa Monica mountains of Los Angeles. She remembered the fabulous party in Beverly Hills that night, but try as she might, she couldn't remember the sequence of events leading to that accident.

Rolph's last words chilled her, "I have nothing to lose. I'm a dead man."

# From Reader Review Deadly Memories for online ebook

## Steph says

So this is the story of Andrea, who is in love with Jake but is marrying her gay best friend Rolph. You see, Rolph has AIDS and is dying and needs his inheritance to pay for drugs so that his influential French family doesn't find out. Jake wants only to be friends with Andy, but gets furious when he finds out she's marrying someone she clearly doesn't love as much as him (conceited much?). Andy is having nightmares about a car accident she had 6 months ago that nearly killed her, but she can't remember the events leading up to the accident. What she remembers threatens not only her life, but the lives of those she loves.

Deadly Memories was just about the most boring romantic suspense book I've read. And I barely got through the spelling/grammar/syntax errors sprinkled throughout (really, there is a difference between breathe and breath...just sayin). I can't see why this book has so many fabulous 5 star ratings, it was dull and long winded, with a conceited and pompous hero and a sugary sweet and wonderful heroine who can do no wrong. Their romance felt contrived and forced and the couple had zero chemistry. I'll admit there is a lot of potential if the book was trimmed down, since the action/suspense was decent at the end, but the long-winded nature of the first 2/3 of Deadly Memories just sucked any enjoyment out of this book for me.

## Elva says

The Details of the Deadly Memories and the lives in the balance. (dramatic music here!)

Deadly Memories is basically a story of love and hate and secrets. But this is not a simple story because the characters are not simple and the plot is not simple. There are complications caused by the bad guys and the good guys. All because of secrets.

I don't want to give much of the plot away. Some things are not surprises, like the love stories. Some secrets are kept so people won't be hurt. Some secrets are just plain evil. some things are kept secret because a memory is too painful to recall.

Beautiful Andy McKight is a real estate broker who has built a hugely successful business. She learned a lot from handsome widower, Jake Montgomery, a contractor who teaches an advanced real estate brokerage class at the university. The real-estate savy Jake is known for loving beautiful woman, including his movie star (dead) wife. Now he devotes his time to raising his son and his work. Since taking Jake's class, he and Andy have become close friends. One of his secrets is that he's in love with Andrea.

Andy dates hunky Rolph Follet, the son of the French Ambassador, very cultured, very well-connected, very rich. Rolph has secrets. Andy knows one very big secret of Rolph's. But there are more.

When the story begins we learn that when Andrea left a super-star studded society, she has a wreck and is very seriously injured. She awakens with no memory but her body heals after months of rehab. In spite of the successful rehab, she suffers terrifying nightmares and debilitating headaches. Anytime she's close to remembering something about that night, the headaches come.

Rolph and Andy become engaged. A lavish wedding in France. A wonderful story book Rivera honeymoon

on a yacht. But then....

Rolph is keeping business secrets. And his 'partners' give Andrea headaches.

What the heck is going on? Finally Andy sees a psychiatrist who does make some of her situation just about the time when things are becoming more dangerous for her. He continues to work with her to recover her memory.

P.M. Richter has never disappointed me. Thanks, Pam!

I can see that I'm getting too detailed! But really, the book has lots of details. The secrets of her memory are deadly with huge implications.

Sorry, the book is not as convoluted as this review, it flows well and is logical. The characters are not crazy, even though their actions may seem weird - you understand a lot, but it is complicated!

It keeps you reading!

---

### **Rita Sheppard says**

This is a very entertaining, suspenseful, action-filled story populated with many colorful characters from a French Ambassador and his family to innocent people dragged into a deadly conspiracy carried out by murderous money hungry people.

Andrea's love and protection of her dear friends is heartening as she also tries to convince Jake, her former real estate teacher, that she is really in love and wants to marry him. Jake has been burned before and is not ready to take a second chance at a long term relationship. Enter Rolph, Andy's dashing French best friend to make Jake jealous.

You will find this book hard to put down as you just have to find out what happens next.

---

### **Diana Hockley says**

The twists and machinations in this novel did not disappoint and neither did the characters who are well-rounded and likeable.

The only reservation I have with the plot, is that the heroine has recovered from a pretty serious car crash in

six months with only a limp to show for it and no scars. Two years to eighteen months would have been more plausible.

Otherwise, well-written work and I will now check out more of this author's work :)

---

## **Elizabeth says**

### **Exciting**

Exciting story with brave people who did amazing things to keep themselves a step ahead of events. Don't try to figure it out...just enjoy reading the book.

---

## **Ali says**

OMG is all I have to say, this book has the perfect mix of true friendship, romance, excitement and mystery for any book lover.

All poor Andy wants to do is help her friend Rolph fulfill his dying wish for his partner Pedro to be taken care of when he passes on. To do this he must deceive his family into thinking he is straight and marrying his girlfriend in order to receive his inheritance. This is where Andy comes in, also she has major feelings for Jake she feels he doesn't look at her in that way so she agrees to marry Rolph he is her best friend and she really like him and Pedro together. However Rolph's friendship comes at a price as she is tangled into a web of lies, deceit and terrorism. Can Andy regain her memories that she supposedly lost in car accident, before it's too late, or will what she may or may not remember get her and those close to her killed.

---

## **carol says**

Another intriguing psychological thriller, with a romance at the centre of this latest book by Pamela Richter. Here are characters, Andrea, Jake & French Ambassador's son, Rolph. Andrea is a former college pupil of Jake's and has a secret crush for him, but she is recovering from a serious 'accident' and has serious memory loss of events prior to and leading up to the accident. Jake, a construction businessman and college lecturer is in denial over his feelings of attraction for Andrea, he feels protective towards her as well as his son from his first marriage, but can he take that first step towards a relationship that goes against his strict moral code. Rolph, is the eligible bachelor, handsome with that French accent that attracts society women like flies...but he has a secret life, maybe a sinister side? These three become entangled in a strange romance, passionate moments of lust, love, support and protection. Stirred into the mix are antagonists, Dr. Joe Morrow and his evil associates where blackmail, murder, stolen filovirus and the potential for biological warfare all come in to play. Pam Richter has also used her specialist knowledge of psychology to weave her exciting story, which includes the effects of memory loss, post traumatic stress with linked in responses of panic and anxiety in situations that are detailed and accurate. Then the climax of the story builds towards a tense, at times breath holding culmination where protagonists and antagonists clash...but who will survive, only the reader finds out! The settings for this story are the USA and France, Miss Richter's description of Paris and the Mediterranean is vividly accurate and for me reminiscent of my time there. The standard of English is

good and the novel has been edited. This is a 4.5 -5 star quality story, and as such has my 5 star award.

---

### **Sue says**

Andrea was injured in an auto accident and has little memory of what happened prior. Trying to get her life back together, she is torn between protecting her best friend, Rolph, and the man she is attracted to, Jake. As her memory comes back, she ends up in danger.

---

### **Charles Ray says**

Andrea 'Andy' McKnight, a small town girl who has made it big as a real estate broker in LA, left a party in a huff and was found in her car at the bottom of a cliff the next morning. After a long period of recuperation, she returns to LA to pick up the pieces of her life, but suffers memory loss about the events surrounding her near fatal accident – several hours of her time are not accounted for.

P.M. Richter's *Deadly Memories* takes the reader on a thrilling and frightening journey with Andy as fragments of memory of that night come back to her, and threaten not just her life, but the lives of those she loves. A cast of intriguing characters caught up in a plot that has international implications. Richter does a superb job of ratcheting up the tension as Andy comes closer to discovering a deadly secret locked in her brain. As the tension mounts, we also follow Andy's growing love for her former teacher, the wealthy construction magnate, Jake Montgomery and his son Jesse, which has to compete with her loyalty to her friend Rolph, son of a wealthy French family with political connections.

Love, violence, and betrayal mark this thrilling tale of espionage, murder, and terrorism, with enough action scenes to satisfy those who like it, and tenderly drawn scenes as Andy comes to terms with her feelings.

I received a free review copy of *Deadly Memories* in exchange for my unbiased review.

### **Jes says**

I almost stopped reading this halfway through....It was okay, just didn't thrill me. About 54% in though, the action increased and I flew through the rest in one night. Not a bad book, writing is nice and typos rare, if any.

---

### **Black Butterfly says**

THIS WAS SO GOOOOOOOD! IT KEPT ME ON THE EDGE OF MY SEAT AT TIMES, VERY EXCITING. LOVED THE STORY LINE, GREAT CHARACTERS. IT WAS WELL WRITTEN, I WILL BE CHECKING OUT MORE OF THIS AUTHOR'S BOOKS. QUITE A FEW OF TODAY'S HOTTEST TOPICS WERE EXPERTLY HANDLED, WEAVED INTO A VERY BELIEVABLE AND SCARY STORY. WHAT A RUSH! ;D

---

**Joseph Hodge says**

The story was well written and I loved it!

---

**Sleepless says**

**I loved this book! It was a complex thriller, an enchanting romance and a great story!**

Romantic Suspense is most often 90% love story with marginal suspense. Deadly Memories is a multifaceted thriller with superb drama complete with terrorists, biological threats and impending disaster! Jake and Andy were made for each other but complications intervened to keep them from the Life together they both wanted. Andy survives torture, repeated attempts on her life and mind control techniques that block her memories of life threatening events!

I certainly was not expecting such an amazing story! This was one of the best Romantic Suspense books I've ever read!

---

**Kimberly Trivette says****Interesting**

This book had way to many grammatical errors. I struggled with getting through the book. I would believe it skipped the editorial part.....

---

**Amber says**

I really enjoyed this book. It kept me on the edge of my seat nearly every page. This is the second book I have read by P.M. Richter that I have absolutely loved. Can't wait to read more. I seriously recommend this book.
