Well, I knew from the titles this is the FIRST day of forever. But still...where's the forever?

Okay..okay, I get it, it's very short story...But, hmmm..after so many years of silence and suddenly Davis can't seemed to control his horny ass over Cameron?

I get it, Cam loved him for so long, and still can't moved on even after he had a great relationship with someone.

And I recall , when Davis invited Cam to his house, he didn't know that Cam broke up with his BF, right?

And he's planning it already? Or am I too dumb to understand the dynamic ?

I didn't see any good chemistry between the two men, except , they're both horny all the time.

Davis is too clingy and Cam is like, an ass-whipped guy over him.

Anyway..this is just okay reading, easily to forget, but not bad. Not bad at all.

Okay, so this was technically a very nice short read, and free to boot, and absolutely perfect for a little fluff in between.

It just had a major drawback for me that I can't really get over: I really didn't like Davis at all. Not a little bit. Yeah, what happened to him with his family, that's just pure shit. And while I understand some of his reserve later, the way he behaves here, he comes across to me as a pushy, demanding, selfish little prick. Personally, I think Cam should have given Jace a chance to redeem himself, 'cause he sounded better to me than Davis did.

So, yeah, this is technically a great read. It would be even more so if Davis had a personality makeover.

I feel like this is an unfinished story, I mean they not yet decided that geography thing and it was cut off just like that. Still, it's a cute story, cute couple, and you'll forget all about that geography thing :D

## Anke says

It was a fast, easy read in between. I couldn't really follow, why suddenly Davis was persuing the relationship after waiting 16 years. At the end it didn't feel like they have settled anything. On the other hand it was nice that it wasn't a fairy tale-like ending.

Now this is different from what I've read by Mary Calmes.

It was told from Top's POV.

It doesn't matter. I still love it. <3

3.5 Stars

I'm not sure how to review this short novella. I liked it, the whole idea of it and the fact it was short yet not too short to deliver a solid story, and yet it WAS too short to establish more than a promise of "Forever".

This short Free Online Read tells us the story of Cameron Mancini and Davis Boone, they have been best friends their whole lives, through the good times and the bad ones. They are both gay, and yet when Cameron told his parents he was gay - they just accepted him as he is, with Davis it was the opposite - they literally threw him out of the house. Cameron thought THIS is the best time for them to be together as a couple as it's obvious how much they care for one another, but Davis was scared. Cameron is the only family he has, he can't lose him in a relationship which can totally break them apart if things didn't work out..

This whole short novella is told from Cameron's POV. Davis invites him to San Francisco when he gets a promotion but there is something else on his mind. As the years go by, both now at their mid-thirties, Davis is scared of losing Cameron for real so he has to make a move, a real one so Cameron realizes THIS is what he truly wants - Davis in his arms.

I liked it but there was something a bit "choppy" about it. Their back and forth was sweet, and at times confusing. They wanted to talk, they wanted to touch, they wanted each other, they live far away and Davis won't come back to their home-town. It was a "broken" conversation the whole while and it was a bit confusing. Yet the story WAS very sweet and though I've known Cam and Davis for a short while I DID wish them a HEA I felt how much they needed to FINALLY have it.

best friend become lover is really my thing. So I really like this story even though it was just about 55 pages. I would like to know their life afterwards though

Okay, so ~~Sam~~ Cameron Mancini is a police detective and ~~Jerry~~ Daniel is an attractive blonde with golden skin and flashing eyes and they have hot hot sex. And there's a lot of:

"We should talk," I said gently, holding him tight in my arms.

I concentrated on breathing. "We need to talk."

"What are you talking about?"

"What're you trying to say?" I frowned, wondering what the hell he was talking about.

"Cam," he rasped his voice cracking as he pressed his face between my shoulder blades. "I need to talk to you okay?"

"And you're adorable but I want to talk to you and —"

"I don't wanna talk to you," he said, swallowing hard. "I want you to take off your clothes."

Not my favorite Mary Calmes read, but still good. It definitely felt unfinished.

I love Mary Calmes. Everything she writes makes me happy. This short story had a little bit of everything for me....long time friends with intense attraction to each other, Cam's big loving family, Davis's friends lusting after Cam and Davis finally admitting that he can't live without Cam any longer. This sweet and sexy story was perfect to curl up to today.

**Cherie Noel says**

hmm...it only missed 5 stars cause I wanted it to be longer...

**Jenny Wood says**

Very cute but way too short! Davis and Cam have been best friends since forever, Cam wanted more but Davis was too scared to lose the friendship they had, and over the years seeing each other got fewer and farther in between, but all that changes when Davis invites Cam to see him and finally tells him he's always loved him...

The only problem I had with it, is I wish it would have been lots longer lol  
Hot cops and lawyers? I could read about those for days!
