Hearts on Air L.H. Cosway

3 weeks. 5 cities. 15 impossible stunts. One reality show.

Trevor Cross came into Reya Cabrera's world with a bang and faded out with a whimper. They vowed to make it work, but life had other plans. After chasing his TV dreams for years, Trev finally became the UK's next big reality star, but he alienated his family and friends in the process. Now he finally has everything he ever wanted. Women. Money. Fame. But none of it means anything when he doesn't have the one thing that matters most: love.

Money leaves a gaping hole. Fame surrounds him with loneliness. And no woman makes him feel like Reya used to before the whirlwind of success pulled them apart.

He has a plan to get her back. However, with a hectic filming schedule looming, the only way to do that is to convince her to come on the road with him. Reya has been stuck in a rut for a while, and the opportunity to travel across Europe and play her music for new audiences seems like heaven. The only catch? She has to do it with the one boy who ever got close enough to break her heart. But he's not a boy anymore, and as she gets to know him again she can't deny her respect for the man he's become.

Every time she's around him her heart feels full of air, like a balloon about to pop. Little does she know, Trev's feelings are just as tumultuous as hers. One thing's for sure, these three weeks on the road together will either make them whole again or break them irrevocably.

Hearts on Air is a contemporary romance and book #6 in the Hearts series, however it can also be read as a complete standalone.

My thoughts

"5 - When you leap it's like I have no breath stars!"

This story absolutely slayed me!

WOW! What an intense roller-coaster ride!

I'll start by telling you what I loved about this book: I loved Trevor and Reya's characters.

Let me explain. I don't know if you've ever met a person who shines so bright, you feel like you're a moth being drawn to a flame. This person is charismatic, exciting, spontaneous, smart, witty, charming... but who also seems like they have a death wish. They act like their invincible and aren't afraid to take extreme risks - if anything they thrive on it.

This person also gives you their undivided attention when they're with you and acts like the world revolves around you, but you feel like you can never reach the core of that person because they just don't seem to be wired to let anyone "in".

This is Trevor's character.

Reya's character is beautiful.

She loves Trevor Cross but knows nothing can come of it. She sees the effect he has on people and is in awe of him sometimes, but she also doesn't let him get away with shit either.

She's an extremely talented musician and a wonderful friend.

She's smart, funny, strong, doesn't like to be the focus of attention (unless she's on stage performing) and when she loves - she loves with all her being.

This book is their journey, this book is their song.

I true L.H. Cosway fashion the story is unique, interesting, and not at all what you expected when you open the first page and begin reading.

The characters attract you, the story grips you and before you know it you're on this amazing journey.

In the end, you feel satisfied with their story and delighted you had the opportunity to go on this journey with them.

This is my favourite book this year!

I want to re-read it again because it's one of those books that when you read it again you like it even more.

It's hard to believe just how long this series has been going now, and having been with it from the very beginning, there have been a lot of highs interspersed with the occasional low.

For me, *Hearts on Air* was a fifty/fifty read, in that I really enjoyed the first and last quarters of the story, but I did struggle a little between 25-75%. The story between Trev and Reya basically goes like this –

- Best friends
- Lovers

- Estranged for two years
- Friends again (but Trevor wants more)
- Lovers again.

The first three points are pretty much covered in the first 25%, although you do get a few flashbacks throughout the mid stages of the book.

"I need you... just for tonight. Just give me tonight and then you can decide if you want to keep me..."

The 25 to 75% portion of the story is basically focused on the rebuilding of their friendship after two years of pretty much avoiding each other, and here is where I struggled somewhat. It was mainly because it seemed to be dragged out far too long, felt a little repetitive, and I found Reya to be a bit of a prick tease in relation to knowing how Trevor felt about her, and using it to bolster up her own confidence on more than one occasion.

I loved his unpredictability. I got off on his wildness and spontaneity. And I adored how he always surprised me with what came out of his mouth.

She also seemed to have absolutely no problem eavesdropping on people in situations that were wholly not her business. I could understand the author's reasonings behind this in a way, because Reya (and the reader) is given more insight into Trevor because of it, but personally I think I would have just preferred to have a few chapters from Trevor's POV, it becomes more obvious as the book progresses that there is a lot more going on with him, than his happy-go-lucky persona would initially have you believe, and I would have loved to have gotten into his head and got it first hand, over Reya essentially ear-wigging on him.

"Words without music are far too revealing..."

That-said, it was great to catch up with pretty much everyone from all of the previous books in this story. The Cross family all-together are a pretty entertaining bunch, and the hairs literally lifted on my arms when we are taken for a visit to the *Circus Spektakulär* and a certain Magician and his Fire Breathing brother took center stage. The ending and epilogue, made me smile as well. I hope the author is looking to start a new series at some point in the future based around Trevor's Parkour crew, you learn quite a lot about most of them in this one, and it would seem the author is teasing her readers a little in that most of them seem to have stories to be told.

"Sometimes the best songs are the quiet ones."

I have high expectations of this author, and apart from the pace being off in this one a little, it was in general an enjoyable read. As always, I cannot wait to see what's in store from her in the future.

Smart, likeable, vulnerable, strong, heroine you want to be friends with. Check.
Outside the norm, interesting setting/premise. Check.
Cocky but real, likeable, hilarious, witty, sexy hero with brilliant character arc. Check.
Throw in the fact that HEARTS ON AIR explores my favourite trope in romance - Second Chance Romance where the H or h has to fight to win back the h or H's affection - and LH Cosway delivers another outstanding winner! Seriously. I've said it before and I will continue to say it for years to come: I will read anything this fabulous author writes.
FIVE MEGA STARS.

After reading about Trevor and Reya in Hearts of Blue there's no way I'll be touching this book. What a complete twat. Who wants to read about a hero that doesn't even notice the heroine has left because he's too busy flirting with other women? Or 2 years after meeting her he's still banging (or trying to) other women (read in the epilogue of Hearts of Blue). And the excuse is that he has ADHD. So he can't keep his dick in his pants because he can't concentrate on just one woman? Pfft. No thanks! Won't be touching this book.

It's LIVE & on Blog Tour!

Trevor... oh Trev... be still my heart. He was everything in this story. Everything!! His mischief, his candor, his friendship, his hotness, his heart. He filled me up with so much glee.

So... while I didn't hate love Reya... She rubbed me the wrong way. I hated how she treated Trevor, for the most part. I hated the emotional games she played. He didn't call or come round for a bit and she was all "Oh, you're on the way to being famous and while you're busy, obviously you couldn't care less about me. Woe is me." Alas, this turned me off of her the most. She didn't fight. She didn't support him. I hated how

she interpreted every. single. interaction as another notch on her "poor me" belt. It was all about her. How things affected her, her feelings, her altruistic musical dreams, her etc... I hated how she refused, quite brutally, to see anything from Trevor's angle. What was so obvious to me, she needed to be hit upside the head with it, time and time again. However, I did admire the clarity of her purpose. It shone true through her music and her dreams. I just wish she was a better person. In my opinion, her distrust for and her rudeness towards Trevor was excessive. But then again I have a huge bias when it comes to Trevor and I pity the fool who would ever try to bring him down.

Obviously I adored Trevor's story. It was fun, full of adventure, and held tons of angst. I loved Trevor and every part of him, whether it was his irresponsible and impulsive side or his more mature and grounded demeanor. He was so amazing and I kept wondering how much more incredible he would have appeared had I been blessed with his perspective.

Review @ Vanilla & Spice Books

Two years ago Reya and Trev moved their friendship to another level. It was also the time when Trev's dream of his own parkour reality show came true. This should have been the happiest time of their life but real life crept in fast and their budding relationship fizzled out. Reya was left broken hearted over the loss of her best friend and her love.

Two years later Trev asks her for a second chance to fix their friendship. He offers her a job as a PA for the parkour team for their Europe tour and after a lot of hesitation she agrees to take the chance. It helps that her own career as a musician is stagnating and obviously going nowhere. It stings that Trev is successful and her own career is going nowhere.

The prospect of playing in joints of different European countries holds great appeal and would mean more exposure for her music. But there is the issue of not letting Trev in again. Spending three weeks with Trev and being close to him for an extended period? It will take everything to resist this cheeky, charming and intense guy. Reya still hurts and Trev makes it hard to keep him at arms' length. How long will she be able to resist?

Because that was the person I'd fallen for in the beginning, and I didn't think I'd ever get over that mischievous blue-eyed boy, no matter how much I tried. I loved his

unpredictability. I got off on his wildness and spontaneity. And I adored how he always surprised me with what came out of his mouth.

Reya's pain is so obvious from the start, I felt it with her. She has never moved on from Trev. As long as they were friends she'd always avoided letting her feelings for Trev venture into a territory they have no business to go when you want to stay friends so there is a lot of regret on her behalf. On this trip she doesn't only learn a lot about her best friend, she learns about herself and that she misjudged Trev's flightiness and unreliability. He impresses her with his new maturity, she gets a whole new appreciation for his condition.

I looked down at my plate, a smile curling my lips. "Since when did you become the mature one?"

His look was direct. "Since I spent two years without you. I don't plan on going another two."

Above all though, she still loves Trev - it has always been him. She stands loyal by him even if she is at odds with where their relationship should go. Reya is a tender-hearted girl but she has a backbone of steel even when she feels she is weak.

Reya also has to deal with her estrangement from her own family. Her story is sad and you can only shake your head when you see the sanctimony and cruelty of her own flesh and blood. I was sad for her and offended on her behalf.

Trev has come a long way from the cheeky, flighty, hyperactive, thoughtless guy he used to be. Learning about ADHD and how to deal with it on a daily basis has made him more mature and calmer than he used to be. He still has that cheekiness about him that I have come to love from the first time he appeared in Hearts of Blue but there is a new depth to him. He is grounded, solid and he kept impressing me with how much thought he gave to the things Reya said. When it comes to her he would give up everything, his selflessness was beautiful.

Trev tries so hard to become the person Reya needs and it is obvious to everyone how very much in love he still is with his girl, except to the woman herself. It is tangible how he is pining for Reya and how much he worships her.

"One thing you never realised about me, Reya. I've got an incredible poker face. I can make it seem like I don't care when I care too much. I can make it seem like I'm not paying attention when I'm really watching your every move. I know. Because that's what I used to do."

When it finally works out for them they both realize that the separation was actually a blessing - neither of them was ready back then and had the tools to deal with the consequences of Trev's condition. I adored Reya's and Trev's relationship and how their love was so obvious. It was understandable that she didn't want to fall into old patterns and (unsuccessfully) kept an emotional distance from Trev.

LH Cosway knows how to write some extremely steamy scenes and let me tell you, Trev is a freaking beast. I think he has a little sex addiction going on ;).

I loved the dynamics between the two main characters. Their friendship has always been beautiful to me and while Trev sometimes came across as a bit of an airhead throughout the series I kind of figured there was more to him and I'm happy to say that I was right.

The last two chapters will make every fan of this series super-happy. You get to catch up with your favorite characters and I really really loved the developing bromance of two of the characters. This book also sets the stage for the new series which will be about the rest of the parkour team. The first couple will be Callum and Leanne who we get to know a little bit and let me tell you...that way lies a lot of angst.

This book is a worthy conclusion of an amazing series and I say goodbye a little teary-eyed. I have come to love the uniqueness of L.H. Cosway's characters. She has a way of evoking deep emotions with and for them. I was enraptured and completely immersed in the story from the first page. And now? Now I can't wait to see what this author has in store for us with her new series. I hope that we get some cameos from the Hearts series. I'm sure she will take us again on a fun ride.

Be still my heart****

Trevor... (*sighs)

Bold, colorful and totally exciting. *Hearts On Air* is a beautiful adventure that transports the reader to beautiful places and experience emotions that will make our hearts jump with the flip of every page.

Trevor and Reya have been best friends for years. Reya's always had a major crush on the younger of the Cross brothers, but she's had to hide her feelings after Trevor put her in the friend zone. These two always have the best time together; their banter is hilarious and totally contagious throughout the book. The truth is that Trevor also has feelings for Reya but he doesn't feel worthy of her so he's never tried to show how he really feels.

Trevor's dream to become a reality star, showcasing his Parkour talents has finally become a reality. He's been given the opportunity to travel from city to city doing amazing stunts, quickly becoming a household name. Fame, women, and money are what Trevor always thought he wanted but all the success doesn't taste as sweet when he doesn't have his family and friends close to him. Trevor has learned a lot about himself in the time he's been away, he's been fighting hard with the demons that haunt him. He misses Reya, and even though he doesn't have it all figured out, one thing he knows for sure, that he doesn't want to spend one more day without her.

The chaos that is Trevor Cross was feeding the deep insecurities that Reya's always had. She hides behind her music, creating beautiful songs that are the armor that protect her from the pain of her past. Now Trevor is back in her life and she's feeling overwhelmed by the fierce need to be close to him, and the fear of getting her heart broken.

Will Trevor and Reya finally take the jump together and make their hearts whole again?

I was on cloud nine reading this book. I've been in love with Trevor since I first started reading this series and his story was as colorful and heartwarming as I knew it would be, perhaps even more. Reya was just the perfect heroine for him. She was the peanut butter to his jelly and their love story, the perfect treat for me. Reading *Hearts On Air* felt like having a million butterflies fluttering around my heart, giving me the biggest smile ever. Just perfect!

3.5 stars!

It's always bittersweet having to read the last book of a beloved series, especially from one of my favorite authors as is L.H. Cosway.

The wrong way to do parkour:

The right way to do parkour:

What worked for me, parkour of course! I find it incredibly fascinating all the flips and twist and dangerous heights. The awesome writing of LHC and finally having Reya, and Trevor deal with their relationship issues and misunderstandings. I have to say I'm not a fan of going back from the present to the past but with this one I was actually glad. It helped me understand the why's of what went wrong with them and imo they were both to blame.

What didn't work for me was that it drag in some parts or maybe there was too much going on especially with the secondary characters. I wanted the story to be more focused on them, on how they could mend their hurts. I also missed the old Trevor he wasn't the same daredevil and I understand it had a lot to do with his condition. But I still missed his carefree and playful attitude. Reya I didn't like how she treated Trevor in a particular scene, to me it was unfair. I thought it was something really important she had to do, to face that part of her past. I wished she would of told her family off, they deserved it.

Still I did enjoy this last of book in the "hearts series" like I said bittersweet but all good things come to an end. The epilogue was pure perfection.♥?

Rachel Reads Ravenously says

“Trev was the one thing in this world I could never, ever resist. I’d always want him. Only him. Even when I know wholeheartedly that I shouldn’t.”

Trev and Reya were best friends, until they became much more. After years of pining for the guy she always wanted, Reya had him. Until he signed on to a parkour reality television series and the two drifted apart. Now, two years later, Trev reenters Reya’s life, and he is determined to bring her back into his. And he does this by bringing her on the road while his show is filming throughout Europe.

Reya is determined not to let Trev get under her skin again, but being in close quarters through some of the most romantic cities in the world make it difficult to resist him. Little does she know, Trev has been harboring some serious intentions for Reya, and this time he’s not going to let her go.

“Happiness was a stranger, but misery was a dear old friend.”

I love the Hearts series so so much. Each book brings something unique and special to the table, every story something new, and every character a breath of fresh air. While this can be read as a standalone, we got brief glimpses of Reya and Trev in previous books in the series, and I have always been intrigued by their dynamic and have wanted to read their story.

I love reality television romance, it’s something we rarely see in the book world, but when we do it adds a little something extra to the story. That and Reya were my favorite parts of this book, I loved her as a heroine. She was alluring, curvy, and fierce. She had her issues and her insecurities, but they were what made her wonderful and she didn’t let them hold her back from living her life. Trev and Reya were explosive together, a delightful and beautiful couple. I know readers will love their story.

“He smelled like home. He embraced me like love.”

I nodded in an effort to convince myself it would be easy, a piece of cake, and yet still, I had that distinct, unsettling, dreadful feeling that despite our best efforts to make this work, the world was going to tear Trev and I apart.

I'm absolutely in love with L.H. Cosway's writing! Her characters are always so unique and vibrant. I've only read a few of the books in this series but I can tell you that there hasn't been one Heroine or Hero that I didn't love. The Heroines have had a rough start in life and somehow have been left alone to face all of life's challenges, but they persevere. Each Cross brother is charismatic in their own way and will steal your heart! Get ready to be dazzled by Trev and Reya's love story!!

Trevor and Reya have been the best of friends since the day that they met. Although, Reya was a little more than disappointed that things never went any further as she was smitten with Trev from the moment she first laid eyes on him. Little did she know that Trev was harboring a crush on her as well. Reya is a singer/songwriter and Trev would show up to all of her performances. Whenever she spotted him in the audience she sensed something in his eyes that had her heart racing! One night Trev asks Reya to go out on an adventure with him – that they should do things they've never done before. On this night, feelings that the two bottled up for so long come to the surface and they share a passionate night together. Reya was hesitant to cross the line between friends and lovers with Trev because she feared she would end up with a broken heart which is what happened when Trev gets the role of a lifetime on a reality TV show. The show becomes a huge hit making Trev an overnight celebrity and Reya decides to break things off so that she isn't holding him back from living his new and exciting life.

Fast forward to about two years later, present day, Trevor is back home for a visit and he's looking to have Reya back in his life. They haven't seen each other for nearly two years. While things have changed drastically for Trev, Reya's been stuck in a holding pattern. Her feelings for Trev never truly dissipated but she tries as hard as she can to remain a bit aloof whenever he's around. Reya's plans to avoid Trev are thwarted when he helps her get a temporary job as the PA for his show. For three weeks she will be traveling across Europe with Trev and his fellow cast mates.

Throughout the story, we are taken from the past to present so we get to experience all of the butterflies when their relationship is just starting and then the heartbreak when it all falls apart. But their love for each other transcends time and distance, and even Trev's behavioral disorder, ADHD. It is what caused him at times to be unavailable when Reya needed him the most. During their separation, Trev was going to counseling to learn how to manage his ADHD. He wants another chance with Reya and will go to great lengths to make that happen.

Trev is not the only one with issues in the relationship. Reya's family chose to abandon her when she went through a traumatic experience and they all accused her of being a liar. She feels as though she's never been anyone's first priority and expects that the people closest to her will inevitably let her down, and when Trev isn't there for her during a couple of rough patches it only convinces her that she'll never come first in his life either. Reya let her insecurities rule her which led her to push away the one person who truly loved her the most, but working on the show with Trev might just give them their second chance at happiness.

Get ready to fall in love with the latest couple in the *HEARTS* series! **HEARTS ON AIR** is currently available and those of you who enjoy the *friends-to-lovers/second chance romance* tropes will definitely want to check this one out!

Dali says

I seriously LOVE this series hard and I really wanted Trev and Reya have their happy ending, so I totally enjoyed this torturously angsty story.

Trevor Cross thought fame and fortune would make him happy. He even withdrew from his family and the only woman who's truly made him feel whole and content to pursue his TV dreams. He found out the hard way that these things are no substitute for love and now he's determined to make things right and he's going to make his tight schedule work in his favor. Or at least he'll try. Can he convince Reya to come with him and his crew on a trip across Europe?

Three weeks. That's all the Reya Cabrera has to withstand being in close quarters with the man who broke her heart. It's really just a blip of time considering all the time and backstory they have together, it'll give her a chance to get out of the tedious routine she's been stuck in and give her the chance to play her music for new listeners. Can she survive being in Trevor's presence, or will the forced proximity allow her to get to know her former best friend all over again and perhaps provide them with a second chance?

Second chances tend to be bittersweet, but there's also beauty in understanding, forgiveness and love, all of which are wonderfully shown in Trevor and Reya's story along with strong family ties and brilliant happy ever afters.

L.H. Cosway's stories always score big with me. She has mastered the ability to create complex characters you can relate with, creating a story that's impossible not to love. *Hearts on Air* is classic L.H. Cosway with just the right amount of angst, romance, sexiness and action all woven into an original plot with parkour masters and changing backdrop full of beautiful imagery without forgetting the Trevor and Reya's story is about pursuing a second chance at love however complicated that may be.

Reya very easy to like. She's a regular gal with issues she's worked through with the help of her friends, holding on to what she knows is true, surviving and coming out the other end fairly well. And although she's self-deprecating, she also has a good dose of self-respect and knows she deserves to be someone's first priority. I loved that she loved Trev but wouldn't let him treat her as an afterthought.

You may know that as orphans, Trevor and his brothers struggled as kids to get by. Even though Trevor was one of the youngest Cross siblings, he was still embroiled in illegal activities in order to survive until his late teens. Add to that the fact that he had undiagnosed ADHD until he started the reality TV show and you have one very complicated and intense man. And although the story is told from Reya's perspective the strength of Trevor's feelings towards her come through.

I really enjoyed the friends to lovers and slow burn nature of their relationship, building up a passionate romance. I loved every single interaction between them.

There's so much awesomeness to talk about this book. The locations, the new characters that help set the stage for this series spinoff, the amazing tricks, but what I loved the most apart from the romance was reading about all the other characters in the *Hearts* series. I don't want to spoil anyone so I'll just say that is was really fun having Trev and Jay hit it off and that L.H. Cosway comes full circle with all the stories and closes the series marvelously.

Hearts on Air is book #6 in the *Hearts* series by L.H. Cosway. It is a standalone romance and the last in the series. Told from the heroine's point of view with a happy ending.

The Hearts Series has always been one of my mini obsession romance series and every time another book is released I just flip, leave everything aside and enjoy the story which I know will be amazing, great, you know it:)

Hearts of Air follows Trevor Cross and Reya Cabrera in a fantastic adventure of self discovery and second chances, leaving us quite satisfied by the end of the story. The two of them have been friends for a long time, but both nourished other type of feelings, deeper and more solid. However, they are too afraid to admit it and fear their relationship will be harmed after having other type of commitment between them.

They engaged in a short and lustful romance, but life separated them eventually. Trevor has been offered the job of a lifetime, to film a reality-show based on his favorite sport, parkour, and Reya is left back in London, only with her hopes and dreams. Now, after 2 years, Trevor is back with an unique proposition for Reya, an adventure which will get them closer again and maybe this time, together forever.

Did I mentioned I loved this book? No? Let me explain. I loved the characters, the plot, the secondary characters and the amazing scenario that was brought to us.

Reya was my kind of heroine, strong when needed, but fragile inside. All her life she wanted to become a singer, but feared of fame and the spotlight. She just wanted to live in her little bubble of joy, singing for others and being an inspiration. She wanted her music to mean something to her audience and for that dream she kept on booking gigs, writing her own songs or singing covers in an original way. She was independent, beautiful and had a crush on her best friend, Trevor.

Trevor Cross is TROUBLE and ENERGY combined in one hot package. He loves parkour, driving and having fun. He is also secretly in love with Reya, but because of some issues he is not honest with her about his feelings and prefers to keep her close only as friends. When his biggest dream comes to life, he makes the big mistake of forgetting his priorities and gets stuck in the fame twister, leaving Reya heartbroken and alone. Now, he is back for a second chance and won't allow NO for an answer. He fights for Reya with everything he has, to show her that he is a changed man that will always puts her first.

Their chemistry was unbelievable, like with all the couples in the series. The scenes between them were full with tension, love, friendship and I laughed so much, it made my heart melt.. They were incredible, I enjoyed so much their push and pull, the way they wanted to do the right thing but failed miserably because their feelings were stronger. I liked the way they evolved, especially Trevor. From the dreamy and careless boy, he truly became a man that saw beyond the material and fame. He saw a future in Reya, something to hold on to and make it his. He became reliable and I sincerely loved him for that. His struggles and torments were real and all of this was made to show his best friend that he is worth to be in a true relationship.

Reya as well broke different barriers to become a better person, more at ease with herself and her past. She managed to put aside insecurities, take chances, be more bold when wanting something. The two of them were amazing together and I couldn't imagine of a more fitting couple for this story, that found each other no matter what, in a perfect unity.

A major bonus was the changing in scenario, from Brussels, to Paris and Barcelona. I loved to read the description of some famous places and to imagine Trevor and his team doing parkour there. It was extremely original and I praised for the author for nailing it completely. Oh, and the secondary characters were

amazing. I loved Trevor's team and not to mention that I got to see some old characters back in action, including my crush, Oliver King.

To conclude with, an extremely romantic adventure, with two characters that find their way back to each other and discover the importance of friendship that manages to surpass everything.

I'll admit, when I first started this I was scared.

For a few reasons...

1. It's a second chance romance, a trope I'm extremely picky about.
2. The story revolves around a reality show. I hate reality TV, and although the few books I've read with this storyline have been 4-stars and I enjoyed them, I still get twitchy whenever I start one.
3. I'd been waiting for this book for TWO YEARS, so my expectations were pretty freaking high. And I've been let down a lot by sky high expectations before--something I think we can all relate to.

Individually, these aren't too bad. But all three together?!???? And yeah, I was panicky. Thankfully, I ended up really enjoying this!! And I don't know why I was worried because it's L.H. freaking Cosway. She's AWESOME and has written a couple of my all-time favorite novels, so I should've known she could pull it off.

So, like I said, I've been waiting for Trevor and Reya's story since we met them in *Hearts of Blue*. They're best friends, but she's secretly in love with him. After sharing one night together *One Epic Night*, she starts to believe it's finally their time. Unfortunately, circumstances have other plans. The next day Trevor receives a phone call that his reality television series has been given the green-light. It's the chance of a lifetime and despite his feelings for Reya, he takes it. They do try to make it work, but eventually life pulls them apart.

Normally I don't like time jumps, typically because I find them unnecessary. But their separation (of two years) felt warranted. Trevor needed to grow up and I felt he did that. He took her for granted. Part of it was his age, but another part was his ADHD. It almost sounds like a copout if you don't read the book. But ADHD *does* affect relationships and even though I only have minor personal experience with it, I thought Cosway did a good job of illustrating it. I don't believe his indifference came from a cruel place. He really just needed to grow up.

"He's been adamant about making a change. I've never seen him so determined. There's a new maturity to him."

He didn't have time for the truth.

I think this is SPOT. ON. While in previous books I was mad about his dismissal of Reya, Cosway truly made me believe in their love. I felt his regret...

"Because you're the best friend I've ever had, and losing you is my biggest regret, the worst thing that ever happened to me."

"It pains me to think of how careless I was with you back then. If I hadn't been so messed up I swear I would've treated you like a princess."

And I truly believed he had changed by the end...

"I'm not missing any more of your birthdays. Not a single one," he said, his tone adamant.

I **LOVED** Reya! Cosway writes some of the best heroines in my opinion, I always find myself relating to them. I think what I love the most is how down to earth she was. Yes, she had insecurities, but she wasn't ruled by them << THAT was awesome to see. But my heart still broke for her.

Why couldn't I ever be the main priority in someone's life? Was it selfish to want to be number one to just one person?

She was also really funny, which is another trait I love about Cosway's heroines.

If somebody makes it so I can get away with wearing slippers outdoors, I'm all for that shit.

I was curious. Okay, nosy was probably the more appropriate word.

There's no stopping these slutty ovaries. All they seem to want to do is make babies.

There were times when some might label her a "doormat," but I never felt that way. I truly believe she loved him, but she was also young and didn't realize how much growing up he needed to do. Rather than being frustrated, I was impressed with how she held onto her love and waited for him.

He smelled like home. He embraced me like love.

She didn't pine away or immediately forgive him, but she didn't deny her feelings either.

I never had any other choice but to love you, did I?

And she eventually came to see she deserved more.

Trev was the boy you loved who never noticed you existed. I needed to love a boy who would make me his entire world.

My worries turned out to be unfounded. Overall this was a pretty successful second chance romance, for my picky tastes. The reality TV didn't play a huge, or annoying, part. And I wasn't let down after two years of waiting :)

There were only two things that kept it from being 5-stars.

1. One of my biggest pet peeves in a second chance romance is lack of communication, and extra unnecessary drama at the end. I was so happy that neither was the case here. Ironically though, the slow burn was a little too slow for me. The first (reunited) kiss didn't happen until (view spoiler). Now before you call me ridiculous and indecisive, both of which I am anyways, I want to point out that when Cosway writes her romances, she really focuses on the couple. So where other novels might have the couple meeting at 10% and have other random scenes interspersed, her characters are together in almost every scene. It's one of the reasons I love her writing, because sometimes I just want to focus on the couple. That being said, it meant I waited a *really* long time before any action happened between them. Like I mentioned, I LOVED the communication. But I still wanted them together a little sooner. Apparently I'm goldilocks when it comes to timing in a second chance romance. There's like a 5% window, and too much either way throws me off.
2. The lack of Trevor's perspective. I know all the books in this series are told in the heroine's POV, but I think I've just become spoiled by dual POV. I'm constantly craving both sides of the story. And since the story is told with only a few flashbacks, we would have primarily gotten a mature Trevor's POV, which is something I would've loved to read!

These are both personal preferences and in no way would keep me from recommending this book or series

Before reading, when I was (im)patiently waiting for this novel ;)

I know Stu's story is first, but honestly, I need Trevor and Reya's story...

So if you could write it super fast please?

Thanks :D
