I thought this was a great collection of 5 sexy short stories. A few different erotica topics covered, including threesomes, gangbangs, and lesbian sex, so there is a bit of something for everyone. I have read a few books by Nikki Sex so I knew I would like this one. Overall I think this is quite a good mix of sub-genres in the erotica category, and no matter what you're into.

A little out of my comfort zone but totally hot!!!

Ebony Richardson says

A little out of my comfort zone but a good read otherwise. May give some of her other books a look.
