Playing Games Kendra Spencer

Playing Games is a lesbian love triangle in which Ronnie a stud is caught between love and lust. On one hand she has a young feisty fem by the name of Kenni. On the other hand, lust from a beautiful older woman is throwing itself in the most provocative way possible at Ronnie. What's a young stud to do but play the game and see who wins?

Sonia Gama says

this book is great different authors have different ways of captivating their audiences and kendra spencer does it by writing in a way that makes you feel as if you are having a conversation with the characters in her book.. the way it is written allows to get close and personal and feel what the characters are going through... great book :)

Christiana Harrell says

3.5 stars. After many conversations with this author I went back and reread. She gave me some background on the book and I was able to read it in a different state of mind. At the age the characters were the younger me would have raved about this book. My critiques of formatting and development still remain but I get the plot. I still hated the ending. She knows that!

Jazmyne Leseana says

I think this book was outstanding, at first I didn't know what to expect when it was handed to me, but as I began to read it for myself I couldn't put it down. The characters are so relatable to me and my own friend's. It has a lot of good parts in it, but the best part is a big twist that you would never expect to come to fruition, I would recommend this book to people who love reading or even people who may just pick up a book once in a while, it's awesome, true to life and one that will keep your attention and have you wanting more :)

Noelle Walsh says

This book was good. I don't often read books of this type (usually because I so rarely find any that really appeal to what I like in terms of story, plot and characters) but there are times when I find ones that are better than I would typically expect. This was one that was better than I would have initially thought. I enjoyed reading it, and the ending was certainly a shocker. I'd recommend it to anyone interested in lesbian love triangles or to anyone who enjoys books where members of the LGBTQ+ community are featured prominently.

Read sample, well first few paragraphs.. the writing style doesn't appeal to me so I'll pass, but urge anyone who enjoys the below type of speech to grab a copy.

"How you gon be blowing kisses to other gurls gurls. (huh?)

"Gon get yo ass beat one day."

'go holla at' er'.

"Yo, ma can I holla at'chu.

Chrissy says

I rated this book but never commented. This book was everything I thought it would be up until the end. Which really shocked me I couldn't believe it but this was a good read!!!!

Raven says

It was OK, I wish the storyline wasn't so childish. I wish the sex scenes weren't so predictable after time. However I didn't make Ronnie out to be the typical stud... Overall it was an OK book I wouldn't read it again

K.L. Hall says

Wow!

I can say I definitely didn't see anything that happened in that book coming! Lots of action toward the ending, so definitely pay attention because its definitely something you don't want to miss!

Dee says

Wild Ride

Woah this book was very hot and entertaining! And definitely wasn't expecting the ending. The relationship was so crazy! They couldn't be happy for a minute lol.
