**Savage Surrender** Cassie Edwards

## **Love's Captive**

Strong-willed and beautiful, Brenda had escaped the brutal murderers of her pioneer family. Her anguish and fury were then challenged by the savage wilderness, where her only hope for survival lay in the forceful bronzed arms of an Ojibwa warrior. Striped Eagle was the kind of man she had been raised to fear - the kind of man whose dark, smoldering gaze unleashed her heart's forbidden temptations.

## **Passion's Slave**

She was his - body and soul. The burning touch of his lean, muscled torso against her tender flesh aroused the sweetest rapture of desires unknown. The probing heat of his kiss blazed a trail of unexplored ecstasy. And his loving embrace awakened a hunger for more. While defying her fulture and daring to avenge her family's enemies, Brenda would share with Striped Eagle a love that triumphed in the flames of eternal desire and ...**SAVAGE SURRENDER**

### **Deitriah says**

Very adventurous. I loved the book.

### **M.M. Strawberry Reviews says**

This was the first Cassie Edwards book I ever read. I got this and two other Savage books as part of a collection of used books I got from a coworker who was done with them. These books provided for a fairly entertaining read, and I read them during breaks at work. I liked the characters, but not too much since I found some of their actions and dialog unrealistic, though the 'mature' scenes certainly were sizzling and enjoyable! (To be honest, the sex scenes in these books are actually some of the better written parts of her books)

This story would have been much better if not for her writing style. She has a way of abusing ellipses, and some of the writing flow and dialog is very stilted. (I notice this problem in the other Savage books I read). If she would spend more time on quality instead of quantity, these books would be more solid.

### **Tamika says**

Not one of Cassies best works, heroine constantly fought between family honour and love. Still a good read though :)

---

### **Dee says**

I started this book yesterday and it was okay. This is the first book I have read from Cassie Edwards. So far I'm not a fan. I'll probably read a couple more to see if the others get better. I just didn't believe the characters. It seems like character depth wasn't really there.
