## Sex Sessions: Uncut Charisse Spiers

Note from the author: This is the first book within a series of standalones. Full length. Intended for audiences 18+ due to sexual content and language.

I'm Saxton Maverick, famous for the size of my...

Well, you can fill in the blank.

I'm good at sex.

When given the right tool I decided to use it to my advantage.

I'm not cocky, just confident.

Don't believe me? I have a reputation and a bank account to prove it. I'm an icon.

Those that badmouth me for my career are usually the ones that contribute to my salary the most.

But I'll keep their secrets.

I am only in the company of a woman when she's naked and ready to go.

I don't choose my partner. She's chosen for me.

I have one job... Fuck her to the best of my ability and make it natural, memorable, and believable.

You want a piece? I'm easily at your disposal.

The definition of true talent is when you can make a woman come without even touching her.

There is no room for jealousy or love in my life. The day I chose this job I left those possibilities behind.

For good reason at the time, but that's in the past.

We fuck, we film, and we forget.

That is the life of a porn star.

Then the producers wanted to go a different route, so they started a new project and gave me her...

One look in her eyes and I can tell she has no experience.

She looks terrified of what she's about to do, what she's about to become.

Kambry Rivers they call her. I have no idea why she is here, but this is going to be fun. I don't even feel guilty.

Let the sessions begin.

Hot. Hot. Hot. This book was off the charts for me. I've read all of Charisse's books and this one was my favorite. For many reasons. She is such a thorough, descriptive writer she leaves me feeling like I was in the book, living the story alongside the characters.

Saxton and Kambry? Kambry is just a sweet, innocent girl that grows and learns throughout the book. I loved her, she was spunky yet loving. Saxton? Oh, holy hell! Boy is yum!

The story? FANTASTIC! A must read. What I loved most about the book was that it was so real-life. We all love the fantasy of the swoon-worthy alpha male that has 3 houses, 5 cars, a cook, a maid, and more. Saxton and Kambry were about as real as you can get in a book. Charisse made me fall in love through her words.

Do yourself a favor and meet Saxton and Kambry. I have no doubt they will leave an impression on you and will forever be in your mind. There's no forgetting them!

4 Solid Stars

OK, So I may be in the minority here, I truly liked it a lot!!!! But....I don't know I just still couldn't get myself to fully invest, I know weird right!!!!

I truly enjoyed this book, the writing was fantastic, the sex scenes, HOT and I was very happy with the ending:) I would love to catch up with them at a later date to see how they are doing because I only want the best for them and for their love to keep growing too!!!!

One other thing for me, I found this book just too long:( I also didn't get some of the things like I swear when Kambry is thinking back on high school memories.....did she really kiss Meredith, THAT was such a weird memory and it just came out of nowhere..... There was just too much wording and some of it esp with Meredith's weird sexcapades, ugghhhh, just turned me off. A lot of the book was good but then there were other parts.....boring and insignificant if that makes sense! Just my own personal feelings and again, I am in the minority here but yeah, this was just a good average read for me.

#### 1 what the actual fuck stars

This rating is based on the first 27% of the book. I doubt it could get any better. Hence I'm rating this even though it's been shelved away under DNF.

Is this shit even for real? I cannot comprehend from the moment he stalked her, to her letting him have his

way with her (all within the same night), to the job offering. I know she's trying to spread her wings and fly, but to allow some weird guy into her house? There's no regard for her own safety in a place unknown to her! And her bestie isn't any better too... I hate these girls, and how they portray this so called carefree life. It's irksome. And the dude is a pornstar whose main issue at hand is that he'd fucked too many times that there's no joy in it and now had to resort to taking pills to get it up. AND he can't stop talking about his huge *dong* and how he thinks he's too hung for her tight, untried vagina.

Word of advice, unless you can stand two teenagers wasting their lives away and ramblings about shit that doesn't move the plot along, I say skip it.

**Conclusion: Fuck this.**

After being in a book slump I was finding it very hard to get back into my reading list. Nothing was holding my attention, everything was just dull and unexciting. I could not do one more sucky or bad read. I was done. I needed something different to pull me out of my slump.

Then I was seduced by Saxton Maverick, his name itself is sexy as hell.

When you see the words famous for the size of my, good at sex then we fuck, we film, and we forget, that is the life of a porn star.

You know I'm going to one clicked this.

I enjoyed this book so much I read it slowly and savoured every page.

There's a lot going on in this book but in a good way, there's never a dull moment there's always something to keep your interest piqued. Saxton and Kambry are a great combination, a virgin and a pornstar. You're probably thinking okay but take my word for it they really are. I loved this book and would highly recommend it.

This book was amazing, so damn Hot! While I was reading this book my power went out my kindle almost died and I wasn't ready to stop reading for the night so I did what any other person would do, go to the car and read.

### **Moon Love says**

Holy smokes is this book hot! I had to wear a panty liner to make sure I didn't leave a wet spot and then I had to change it a couple times! I know that's TMI, but it's the truth.

I already want to know when the next book comes out!

***I'm in love with a porn star...***

**Yep, you heard me**

Oooh la, la hello Saxton Maverick. Hot as hell. We started out with a bang, literally and then it went right into the story, the meeting and then an offer. Each character was developing slowly over time creating two characters I could understand... and damn if I'm not jealous of little miss goody. What it would be like to have this whole ordeal happen to me, I can hardly contain myself! Hot damn! The sex throughout was sizzling. There was funny moments and sweet ones as well. Sax will take your breath away.

***Sex isn't the same to a porn star as most people. I have endless amounts of sex. To me, sex is a job, not a pastime.***

CARRIES A HUGE RACK

Not that I'm an expert but I feel this is a well put together story, excellent really. And the slow build up to what I knew would be fun. Ahhhh, did not disappoint! Hell at 80% I couldn't keep the shit eatin' grin off my face! Ask and you shall receive he says? I asked and asked and nothing happened. So thank you Charisse for planning ahead and giving me a perfect visual through perfectly descripted words and then adding in the two songs. Click on the link below to get the real experience, that song, the visual below, knowing Sax well at that point and Charisse's description during that panty wetting moment. I was salivating, visions of Saxton's abs and hips... that's what I'm talking about! Easily went from a 4 1/2 star to 5 with that shit!

<https://goo.gl/DBd7Lz>

This is porn like I've never known... nice idea Charisse... keep that porn boy in one spot for awhile, he needed a break. I thought to myself, had I been Kambry what would I have done with that handful he had to offer? NO FREAKING CLUE! What do you do with a porn star especially with her background, no background at all. Tips from her bestie Meredith were extremely helpful but after awhile, slowly but surely Kambry found her way with Saxton... and I was so proud of her and all she accomplished.

***I, Kambry Rivers, have never gotten drunk, cursed, or had sex, and none by choice.***

## Charisse says

\*\*\*\*EXCERPT\*\*\*\*

A knock sounds at the door. "Mr. Maverick, filming begins in fifteen minutes."

"I'll be ready," I shout back. I look down at my erect cock, now in full stance from the medication, ready to perform. I toss my mail on the table and get ready for tonight's scene, adjusting my tie. Tonight I'm a fucking billionaire working late at the office and she is a seductress bargaining for what she wants, but more importantly, what she needs. It doesn't matter how different the plot is, because it's still all the same. It's about the sex – what the viewer wants. Every pussy I fuck is still a porn star pussy. It's used, it's aged, and it's too experienced to be real, but it's my job to make it look real...

I have the best ratings of most male porn stars right now. I guess it's just my time to shine. I've worked my ass off since my life took this turn and I walked away from my junior year in college. Maybe it's because I started at a young age. Twenty-one to be exact, and here I am at twenty-five with enough money I could retire if I wanted and not have to worry about shit for a long time.

In this industry the younger the better, especially the girls. This life is about fantasy. The viewers want to fantasize about what they aren't getting in their lives already, or simply to add to it, pretending they are the receiver of me, or the stallion fucking her brains out. I may have started out with limited experience, but today, I am very good at what I do. Pleasing your partner is a learned art, whether staged or natural.

I walk to the door and open it, before making my way to the set. I pass by the hundreds of people that make this work, from the stage crew to the makeup artists and costume designers, to the directors, among many other roles that would take forever to name. In filming there are jobs for everything. It's fucking ridiculous, but I guess it's necessary or they wouldn't be here. Regardless, they will all watch me fuck her.

There are no secrets here. Your entire sexual experience is out in the open for everyone to watch. Every person here will know all of my tricks and skills when this night is over. Here, stage fright is nonexistent.

I walk on set and recall my beginning lines; the very lines that make no fucking difference because the majority of people that purchase this don't give a damn about the story...when there even is one. They only want the juice in the center. I take a seat at my desk and begin shuffling through the blank pages atop, as I listen to the director giving me my cue.

"Take one. Lights, camera, and action."

A knock sounds at the door and I look up, just before Veronica walks in wearing a trench coat cinched at the waist and heels. "I don't recall giving you permission to enter. Who are you?"

"I'm here to ask for a forbearance for Peter Davidson, my husband, or at least an extension."

"I'm sorry, Mrs. Davidson, but my hands are tied. There is nothing I can do. The bank is ready to foreclose."

"Please, Mr. Adcock. There has to be something I can do to change your mind."

She pulls the tie at her waist and allows her coat to open, revealing that she is naked underneath, before pulling it over her shoulders and letting it fall to the floor. I allow my eyes to feast on her tits, and then veer down to her perfectly waxed pussy.

I sit back in my chair, leaning my arm on the armrest, before placing the tip of my pen to my lips. "Does your husband know what you're doing?"

"Yes. We need more time. We will do anything." She walks toward me, wearing nothing but a set of pearls around her neck and black stiletto heels. Her chocolate brown hair hangs over her shoulders. She straddles me in my chair, before immediately going for the knot of my tie, loosening it. "Maybe we can work out a deal," she says and places her lips to my neck. "I can give you a few sessions at the end of the day to relax and you can give us an extension to get the money. I know you have more pull than you're letting on, Mr. Adcock." She kisses up to my ear. "Are you in?"

I grab her hair in my hand, roughly pulling her head back. The tip of my nose touches the base of her neck and I inhale, breathing her in. There is no scent of male present, only perfume. "You have three weeks and then there is nothing I can do. I suggest you prove to me that your pussy is worth the hassle I'll have to go through to authorize it."

**WARNING:** Dirty, Sexy Porn Star that will have you panties melting and heart beating wildly! Do not read in public unless you want the attention because it will have you panting and fanning yourself...

Kambry was finally getting out from under her parent's rule, and was on her way to self-discovery and living life fully. I gotta say, I loved and hated her best friend, Meredith because 1) she helped Kam to spread her wings; 2) she was there for her and 3) she loved Kam no matter what.

Saxton loves f\*cking and he has no shame in his profession—a porn star. He does what he loves and doesn't get attached, yet when he meets Kambry, he's intrigued by her because she radiates innocence. When he realizes Kam has no experience, it scares him and intrigues him at the same time.

Kam is a little spitfire that doesn't take orders just because they are handed to her, and that tests Saxton's patience. Saxton and Kam have a love/hate relationship and they had me cracking up. These two not only had scorching hot chemistry but also *more*, yet they fought hard to ignore it. Hard-headed people.

Even though there is lots and lots of sex, there is still a beautiful story of discovering yourself, opening your mind to more, and allowing yourself to want more. Be prepared to have your feelings all over the place

because Kam and Saxton will definitely test your patience ~ Kara, 4.5 Hot stars

5 Crazy Hot Ass Must Read Stars!!!!

Yup, CDBW has a new rating. 5 Crazy Hot Ass Must Read Stars!!!! Holy shit, this was one friggin HOT.ASS.READ! It should come with a warning label. NOT.SAFE.FOR.PUBLIC.READING! Yeah, kinda found that out the hard way.

Charisse, Charisse, Charisse. Damn, girl! This was totally unexpected. I just love when books throw me for a loop like this. I know with the whole premise of the book and the title, I should have expected it but I don't know. It just wasn't how I thought it would be. It was so much more.

I loved all the characters. Of course Sax being my favorite. He's totally my number one BBF for 2016. Holy freaking hotness, Ms. Spiers! That boy sure got me all kinds of revved up. Oh yeah, that reminds me.

Another warning: Make sure you have batteries stocked up and several pairs of panties available.

Kambry wasn't your typical woe is me country bumpkin who is repressed because of her strict upbringing. No, she was strong even when she thought she wasn't. She knew herself even when she was trying to figure herself out. She just made the story what it was.

OMG, Meredith! You have to meet Meredith. I want her as my best friend! She had me crying down my leg from laughing so hard everytime she made an appearance. Her story is going to be epic.

There were a couple more characters that intrigued me but without giving too much away, I'll just leave them out of this. I don't want to run this with spoilers.

This was hilarious, sweet, hilarious, and friggin hot ass sexxxy. Yes, there are three x's for a reason. This book gives new meaning to a one-handed read. Snatch this book up. Meet Sax and Kambry! Just make sure to heed my warnings.

I absolutely adore Charisse's work. I always have and no doubt always will. With each book, you crave more and more.

Now this one is seriously Hot!!!

Who doesn't love a book with a gripping storyline, hot sex and a porn star?

A steamingly hot 5 stars from me.

### **Brandi says**

Really enjoyed Sex Sessions: Uncut! It made me squirm, it made me giggle & blush profusely & it made me roll over & reach for my husband in the wee hours of the morning. The chemistry between the main characters, Saxton & Kambry, was scorching, the dialogue was deliciously dirty & the sex was INTENSE. In the words of Fergie... "I'm addicted and I just can't get enough!"

I think the story could have been slightly shorter & still have maintained that strong connection between the characters but I'm happy nothing was really left out... except for that trip to New York at the end & the whole hullabaloo between Meredith & her mystery guy. (Only a mystery because I don't want to spoil it for you!)

Looking forward to reading more about Saxton & Kambry (I believe there's a little #1.5 something being written about them), as well as other potential couples in this series! :)

### **C. Erani Kole says**

It's a solid 4.7 for me. This was a hot read that took me longer than a day to finish because things got so heated. \*sweats\*

I'm in love with the storyline because it's so similar to the type of books I look for, and this is possibly the closest I've ever found. Yay! It's my first time reading about a porn star so the insight I got from Saxton Maverick was nice. Seeing his character development along with Kambry's was set at a good pace with the whole lovey-dovey thing going on, and I just overall enjoyed the way everything was so perfect for them. The last parts with sudden heartache and reality slapping them in the face made me cry, and in all honesty I panicked, but it ended with a HEA (thank God).

The scenes were too hot to handle, I loved their chemistry, and Saxton is one seriously hot guy who should come with a warning label. All the things he did for her were so fun!!! My favorite was the bar scene. I won't spoil it, but think.... Magic Mike XXL. EEEEEKKK!!! The dialogue was a little long at times, but sorta like Hamilton's way of writing, so I didn't mind. The age gap was pretty cool with the whole insecurity thing on Kambry's part. Seeing him assure her in their relationship and seeing her giving him a reason to love again was what did it for me, with the sex being the icing on the cake.

I recommend this for the hot sex scenes and the taboo aspect of it, and the great fact that you shouldn't judge something you don't even know about. To quote the book, "No love story is the same." Loved the plot line, loved the development, and I loved what it brought up in me.

---

### **Nance says**

So much more than what the blurb depicts! Loved it! And, "yes" there's tons of sexy times! I mean HOT HOT HOT!!! And, the language??? DIRTY DIRTY DIRTY!!! I found myself laughing out loud so many times! And, there definitely were those "awww" moments that were super sweet! But, that ending where Saxton finally realizes just what his and Kambry's relationship is.....just so romantic!!!! Was not disappointed in the least! Such a fun book to read!!
