## **Snap Happy** Fiona Walker

A budding stand-up comic, Juno is voluptuous, hedonistic, funny and terminally untidy. On her thirtieth birthday, she decides to have a wild one-night-stand to mark the occasion. But seducing her new flatmate before he's had a chance to unpack his belongings is not a wise move. Just over from New York, Jay Mulligan is intense, mysterious and, as Juno joyously discovers, far better than breakfast in bed. It's only when they both get out of that bed on the wrong side three days later that the problems start ...

## **Snap Happy Details**

## From Reader Review Snap Happy for online ebook

### Melanie says

I'm so glad my friend introduced me to all of these British authors. Fiona Walker is one of my faves. Her books are now available on Amazon, and if you love a story that has romance, humor, and zaniness, get this book. Don't blame me if you suddenly have an urge at 3 am to order the rest of her books.

---

### Em says

I'm not very fond of romance books so I held back on reading it for a while when I first got it as a gift from one of my relatives but eventually -since giving up on a book without giving it a chance is just silly- I did it and I'm very glad I did so.

The main character is a relatable girl who's just extremely clumsy and can't think straight most of the time and I can accurately say I could relate to 99.0% of everything she did or said.

Overall it's a very good book with a good balance between light cheesyness and great humor :)

---

### Kris - My Novelesque Life says

#### 3 STARS

"Juno is voluptuous, hedonistic, funny and terminally untidy. The last thing she needs is an up-tight, teetotal flatmate. But that's what she gets when her brother sends his American photographer pal to use his London apartment. However, this recipe for disaster turns into an unlikely romance." (From Amazon)

Cute romantic comedy

---

### Selina says

Just finished this book half an hour ago literally. I have to say I love Fiona Walker's writing style - it's funny, crazy and so unbelievable at times I can't help but snort disbelievingly at the embarrassment that some of the characters go through. However, compared to my first Walker book - Kiss Chase - I found the two stories couldn't really compare.

Firstly, after I fell madly, deeply (and perhaps too obsessively) in love with Kiss Chase I rushed out to find all of Ms. Walker's books. I tried several from the Oddlobe Valley series and found the names, people and general antics just too strange and erratic to get my head around. Snap Happy would be the first Fiona Walker book I've tried without any mention of horses.

I really did like some parts of the book but found some parts throughly frustrating. Phoebe (from Kiss Chase) was a pretty bad slob as well but oh, Juno took the cake in this one. I found her so over-the-place and annoying that I wanted to yell at her to GET HERSELF TOGETHER FOR BLOODY ONCE. I quite liked Jay in the beginning but as the story progressed I found him to be so damn mysterious that if there wasn't some kind of good explanation for his behaviour I'd start hating him. Seriously.

Juno and Jay's interaction throughout the book before the very end was kinda frustrating to read. I found that they fought for such ridiculous reasons and for so freaking long that I was starting to drift off a little until the end. I also found some of the other characters (except maybe Finlay) hard to take to and I didn't really feel much for them. The good side of this story was definately the reappearance (however how brief) of Kiss Chase characters. I was weeping with joy when the mention of Felix and Phoebe came, and I guess a little at Piers Fox.

Overall, this book was quite fun to read in some parts but I'm still trying to find a Walker book that would outdo Kiss Chase.

---

### **Belinda says**

While I really enjoyed this book, I did find it to be a bit of a frustrating read. The protagonist is very likeable but at times, her idiocy became too much (especially towards the end). I would still recommend it though as it is an entertaining book.

---

### **Danielle says**

I'm a big Fiona Walker fan. I really enjoyed this, although it wasn't my favourite. At first I was quite frustrated by the Juno and Jay relationship but it really grew on me. My first Walker book was Between Males and I liked it so much that when I got back to Canada from the UK I ordered all her others. It was exciting to me to read this and Kiss Chase and realize the characters were connected. I'd like to hear more about Juno and Jay!

---

### **Jae says**

This is quite possibly my favourite "chick lit" novel of all time. It's pulpy and formulaic but hilariously funny, and the main character is just terrific. I used to keep picking up other Fiona Walker books to try and duplicate the experience, but she just hasn't come up with any protagonists to rival the brilliant Juno, so I finally gave up.

---

### **Amanda says**

It's not her best. I still loved the wonderful writing style and the fantastic bonkbuster sprawling brick of a story. In this case I did feel that Walker maintained too much antagonism and mystery about Jay until right towards the end. It felt more uncomfortable than anything reading the middle third of the book. Was redeemed somewhat by the very sweet ending.

---

### **Rebecca says**

Hilarious! I will always remember the image of the main female character waking feeling beautiful in her

sexual glow next to this gorgeous hunk, only to look in the mirror and see what an absolute state she really looks - I am sure we've all been there: run mascara, frizzy bed hair and that spot that has appear out of nowhere to compete as a second head. I'm just so annoyed that I lent my copy to someone and never got it back!

---

### **Caroline says**

So much fun. My kind of romance.

---

### **Oda Renate says**

Well...Real rating 2.5

I liked the first half of this book...and then.. It just got tideous..

I mean there is predictable and then there is pre-dic-table...

I did love the protagonist.

---

### **Rhian says**

i was a bit sceptical when i first started reading but juno's i a genuinely funny and endearing character who i warmed to quickly.

the story is about juno a slightly overweight nurotic wanna be comedian, she's living in her brothers apartment after a break up, when her brother decided's to do a flat swap with an american colleague. Jay the rather dashing but secretive american photographer turns up to turn juno's life upside down. after a rocky start they embark on a torrid affair (with some rather hot sex scene's) only to have a mis-communication keep them tied up for the rest of the book.

juno's whacky friends add to the book although i must admit i hate the character of lydia as i have in any of the other walker book's she's appeared in.

the book is well worth a read

---

### **Erin says**

This bbo started off as pretty entertaining, but it dragged on too long. I love Brit Lit because I like the fact that they often depict the leading men as blond or redhaired and I love the language, but I find it hard to believe that a drop dead gorgeous guy would want a fatty like the lead girl here... this was a girl who was often described in an unflattering way and guys who are a ten just wouldn't be into that.... not to mention that this author lost me when she had a lower class Irish guy speaking Yiddish.... she needs a better grasp of American culture if she wants to make her male lead American. Still, it read like an episode of Coupling, so it is worth your time as long as details don't irk you quite as much as they do me. :)

---

### **Chayong says**

I love, love, love this! It's almost perfect. Except I couldn't get some pop culture jargons, but it is nevertheless very well written. So glad that this is my first Fiona Walker ever!

I wish I could have written this book!

---

### **Janine says**

Goodness me, this was dated. Will we, won't we, he's horrible, why is this happening, no talking, ridiculous antics, yes, no. No, just no.
