## **From Reader Review Star Wars (2015-) #43 for online ebook**

### **Micah Ulibarri says**

First of all, I am glad about the writer switch. The series now seems much more focused. However, this being the last issue of the series, I found it a little anti-climactic and wonder if something more grandiose couldnt have happened. That veing said, the characters are very true and the twist at the end was unexpected.

---

### **Vishualee says**

The artwork's life-like. It was great to see iconic characters in action.

---

### **Ryan Parker says**

I thought this was a great end to the Ashes of Jedha arc, with a nice surprise twist with Trios. This was a nice coda to the Rogue One story, and it was cool to see Leia form a new partnership that explained where the rebellion got some of its resources. We begin to see Han's transition to taking on more responsibility with the alliance, being called "Captain" at the end.

---

### **Spencer says**

This was ok, still a mile wide of its potential though and the art still sucks!

---

### **Tom Vogel says**

Good story that ties in the planet of Jedha after the Rogue one movie into a storyline with Luke, Leia and Han.

---

### **Kami says**

- I haven't read these in a while, so I don't remember what is going on.
- Everything wrapped up all nice in this issue, and it was good to see Han take command.
- The artwork is fantastic in this issue. It almost looks like photos.

---

**Brandon St Mark says**

Not a bad ending to the arc, but I hope the next one is more exciting.

---

**Steven Shinder says**

I actually found the end of this arc to be underwhelming. And, as I've said before, I hope that they REALLY REALLY REALLY REALLY REALLY REALLY improve the art for future issues, because the realistic looking faces just are not working.

---

**Joss says**

Not bad. I am glad this story arc is over, but it was ok.

---
