The Adorable Circle of Life Adult Coloring Book Alex Solis

Predators get a pretty bad rap. Sure, they prey on helpless animals that never stand a chance. But behind those jagged teeth, powerful jaws, and razor-sharp claws, every predator has a softer side. Maybe even an adorable one.

Everyone has compassion for the cute bunny or lamb. But what about their predators who are working hard for their meal? Capturing their prey is a life or death game. Just think about the last time you had to hunt for food while hungry. You can understand, right?

With thirty adorably dark scenes of nature, illustrator Alex Solis shares his sense of humor while giving you a chance to color in the most gruesome parts of life with a smile.

It's time to give these predators a break! Because, in the end, both predators and their prey play a role. I mean, it's not their fault they were made this way! They're just living off of instincts; doing what comes naturally to them. So rather than turning away from nature, let's celebrate all the animals who complete *The Adorable Circle of Life Adult Coloring Book*!

I received a copy of this book free from Goodreads Giveaways.

This book is so cute and also very intricate for a really relaxing coloring experience. I love it!

Becky says

I do not like this coloring book. The animals are cute as can be, yes, but they are EATING each other. This is not something I would be able to relax and enjoy. After I looked at it more closely and paid attention to what the animals were doing, I threw it away.

Won in a giveaway. Came in wonderful condition. It's cute and creepy. Can't wait to color!! ??

Theresa Wade says

This is a great adult coloring book. This book is incredible, adorable, horrifying and hilarious all in one. The book does show animals do have to eat other animals to survive which is the Circle of Life.

This is more of a comment on the publishing company, Skyhorse Publishing, than on the author. At least I think it is. I entered the Goodreads contest to win this book, and I won. Generally books come in great condition. This one did not.

I guess one shouldn't complain when one gets something for free, but still....

When this came in the mail I opened it to give it a look. I noticed there are 18 pages in the book, 3 of which are about half colored-in by someone with crayons. There is also remnants of other pages throughout the book, and after looking closer, it was discovered that 11 pages were torn out.

Really?

The enclosed letter (and return address on the package) indicates it came from the publisher, not the author. However, it is possible the author provided the one copy to the publisher to send. I do not know. I just find it amusing that one sends these to the public for a review, and sends something like this.

The coloring book is exactly what it says in the title. The drawings of the animals are adorable. I just can't bring myself to color them since they are being eaten by each other. I would have really enjoyed a book just about baby animals. The illustrator is very talented. I should have paid more attention to the content of the book. I would recommend the book to those who are not as sensitive as I am.

Lydia says

'Delightfully disturbing' are the two best words I could use to describe this coloring book. Then again, I do squirm during nature shows. The artwork is adorable, though if you purchased or intend to purchase this book with aims of creative therapy for relieving stress or anxiety--then MAYBE this might not be up your alley. Or maybe this coloring book will help you overcome your fears of darling carnivorous wildlife (or succumb to them). You decide!

I won this "Adult Coloring Book" in a Goodreads Giveaway, having entered because, 1- I am a sucker for all things adorable, and 2-an adult coloring book?? What could be more soothing? But, no, there is nothing adorable about the circle of life. I am not entertained by a cute, big eyed owl munching into the neck of an adorable big eyed mouse. I don't want to color one animal chomping down on another. And while I am fully cognizant of the fact that every animal has to eat, and most likely, these animals that eat are eating other animals, BUT I DO NOT WANT TO SEE IT!! Nor do I find it adorable, IN THE LEAST - no matter how sweet the faces are, in fact, especially not when the little animal faces are adorable. A baby lion chowing down on the neck of a baby giraffe does not appeal to me. A baby cat eating a baby bird only makes me sad. Maybe I am too emotional, or immature, but I don't think so. To each his own, and this one is definitely not for me.

I received this book in a giveaway. So yeah, the pictures are of animals eating each other, but they still manage to be adorable (even the spider is cute). Of course, I always like things a bit dark...

I like that the pages are one-sided, are on good paper, and have easy-to-tear perforations. I've had books that didn't have any of that, which means they don't get used. I'm excited to get started.

I won this adult coloring book in a Goodreads giveaway and I'm so happy that I did! This type of unconventional art tickles my funny bone. In a way, it kind of reminds me of Happy Tree Friends, though not really as bloody or gruesome. These are just cute animals eating other cute animals and it is completely

at your discretion whether to make it graphic or not. I, for one, will have a pretty short red coloring pencil when I'm through with this!

This would be an awesome gift for anyone who enjoys the 'darker' arts and a good laugh. They should probably enjoy coloring as well, though. It really is calming!

Cate says

I won this copy in a Goodreads Giveaway and I am so glad I did because it's a coloring book I likely would not have purchased on my own. Who knew animals eating each other could be so cute?! It's not gruesome and all animals look happy (even the prey!). It's a cute and funky theme and I am looking forward to coloring them all.
