Leo (Queen of the Rants and the Crazy) says

2.5 stars.

KatieV says

It could have been better if it had been longer. The ending, in particular, was very rushed.

This was VERY much 50 Shades inspired (will it never end?) There wasn't a serious BDSM plot, but a lot of other elements were there. The contract. The control. The background checks. He even tied her up with his tie at one point.

This heroine was serious doormat material too. But, sometimes, I do enjoy the wallbanging crazy of something like this. I mean come on! A 25-year old virgin decides to lose her virginity by signing a sex contract with her boss? I just had to give it a whirl - especially since it was available on KU.

As I said, the ending was too abrupt. He went from barely speaking to her/banging her in silence to "lets get married" in a couple of pages. There was also no comeuppance for his d-bag behavior.

Becca B says

I just want to start by saying I love you Jordan Silver and I have read almost every single one of your books and have pretty much loved all of them. Until this one...

Yes, her H's can be extremely OTT to the point they are aholes but they are in a "your mine and obsessed" kinda of ahole way from the very first page of her books. However, didn't happen here...well I guess the H explains at the end that he did but the hell if he showed it. I am just so used to her H's being...idk...MORE!!! I absolutely hated Jonas until 90% of the book. Boy was he a AHOLE!!!

But you know what the problem with this book was??

Not until the very end of the book did we get Jonas's POV and I did fall for him a little bit then bc he did apologize but not as much as I would have if we got to see what was going on in his mind through out the book. I was just so mad at how he treated Thalia that it was just hard to forgive him at the very end. He did love Thalia and knew from the first meeting that he wanted her to be his but all we got was Thalia's POV so we only saw how nasty he was to her even when he knew she was preggers.

On top of me wanting to throat punch Jonas every other page, Thalia didn't help. Gah, she was so whiney and frustrating how she was still so into Jonas after the way he treated her. She in no way shape or form had

a back bone. And I really hated that. When he said jump, she said how high. Yes it was part of the contract but to hell with the contract if you're going to treat me like a damn dog!!! Geeezzz!!!

Oh and just to point out one tid bit that I HATED and can't believe JS wrote this...

Jonas never used protection with OW. This almost made me stop reading it. I don't care if you get checked every day, month or whatever and you're clean its just not something I like knowing in the books I read and its disgusting. Also he trusted all these women to be on some sort of birth control. I mean how dumb does he have to be??? Clearly all the women wanted him enough to trap him. Sooooo HELLO??? Just Ewww!

Again, I still love me some JS but I hope her writing doesn't continue this route but I torture my own self by knowing before hand and still I read it. That's JS for ya. Completely addicting!!!

Rejane says

NOTE: Leonor and Chantal's reviews/comments. For what I got too many similarities with Fifty Shades. Contracts, no pregnancy clause, making women pay for someone else's mistake. Etc. etc

Janie says

3.5 stars. When I first started this I thought the H was a total ass, and he was. I also was under the impression that he loved his dead wife so much that the h would be second best. I should've known better reading a Jordan Silver book though. He did treat the h like shit in the beginning. Then he slowly started to change. The h saw these changes but was consumed with the insecurities of how their relationship started and has been from the beginning. And let me tell you that the h is absolutely not second best. I'm not saying he never loved his wife but at the end he saw her true colors. This tainted his relationship with the h, for sure. When all is said and done he has a lot of remorse for how he treated her and does everything he can to show her and give her a beautiful life. She is his soul mate and he has no doubt about that and the luck he has having his beautiful family.

Alpha Possessive Heroes says

Great short read! It has a plot, we have a somewhat doormat heroine, an asshole-shitty alpha hero and I liked everything about it! lol

The storyline isn't something new, the blurb pretty much sums it up. I wanted to hate the Hero but the heroine pretty much knew what she signed up for. TBH I like both H/h but would have been nice if it was longer! This book is your typical JS with lots of humping but at the same time lil' different because it has some angst that made me feel emotionally connected to the story.

It's been awhile since I like something from this author so 4.5 stars for me!

Karla says

4stars!

"The Good girl" is the story of Thalia, she has made an arrangement with her boss Jonas, to have a no string attached sexual relationship where she is to be available for him whenever he wants her. After a couple of months she has fallen in love with him and wants more.

So most of the short story Jonas, is stoic and cold with Thalia at least outside their sexual encounters but, at least to me I understood him. After all he had lost his wife and son in a car accident, he didn't want to be hurt again.

the story is fast paced filled with misunderstanding between the MC's but regardless I really liked it. Their sexy times were hot and sexy add a bit of light BDSM.

By the last chapters Jonas turned up to be a good man and very very possessive and the epilogue was perfect.

This was my first book by this author I know I will look into more of her books. <3

?Tonya? says

Much different than the normal Jordan Silver books I've read. I wasn't sure what to make of it initially because JS has brought me some of my all-time favorite OTT alphas (Colton, Talon etc) and Jonas was NOT doing it for me.

However, a little red flag went up for me when the first 3/4 of the book was from Thalia's POV only.. It was her thoughts and assumptions. Don't get me wrong, she had reason to believe some of her inner worst case scenario mechanations. However, I was getting absolutely zero thoughts from Jonas, so I had no idea where he was coming from. Which led to the assumption that he was a self serving douchenoodle who had a weird hang up with his dead ex wife and couldn't move on from her.....and like Thalia, I was mistaken.

When Thalia finally hit her breaking point, she forces Jonas' hand so to speak. Now at this point, it's revealed why Jonas is the way he is, what he thought about the contact and how he actually felt about Thalia. His inner thoughts at the end reveal how much he loves her and she is NOT second best to the first wife...

In the last year and a half, I've been the happiest I've ever been since the day I held my son minutes after his birth.

If there is such a thing as a soul mate she's mine. I've never felt more complete, more worthwhile than I do now. She and our daughter are the best part of my day, everyday. No matter what else is going on in my life, the business, which was flourishing, the millions I make. None of it comes close to what those two bring to me.

She was perfect, my wife. And once I'd put the stupid contract and my idiotic rules aside, I'd come to learn and love her even more than I ever thought possible. She was nothing like Cynthia, and I've spent everyday since the day I first told her that I love her, trying to make up for our rocky start. When I think about that contract now, I'm almost ashamed. Not so much about the contract, but some of the things I'd asked of her. I'd made her pay for someone else's fuck-ups.

Also, he states his thoughts behind why he made her sign the contract -

"Yes, within three weeks of our little arrangement I stopped seeing you as my mistress." He stopped talking and got up to move around. "Look, I may not have been fair to you. There are things in my past that have made me more cautious when it comes to relationships of any kind."

"The first time I saw you, it was like a shock to the system. I don't care how clichéd that sounds, it's the absolute truth. I took one look at you and everything I'd told myself I'll never want again, never have, came crashing down on my head. It took me days to get my head together, to figure out how to play it."

But I never had anyone sign a contract before you. That was my way of tying you to me without taking the more logical step."

There are points in which I could see that alpha "mine" mentality pop up. He has moments that the facade cracks and the cave man rears his head, sending mixed signals to Thalia. So he has her all over the place emotionally. She loves him but is done with the games.

~hero who had been damaged and wasn't very open to trusting
~doormat heroine who for a short time, was willing to take any scraps the hero would give her
~no cheating
~no om drama
~ow drama (view spoiler)
~just ok epilogue about a year out (wish it was further out)

Hana ? says

3 Stars!

Honestly, this is what I expected from a Jordan Silver story. Super raunchy, dirty, panty melting smut. I know a lot of people aren't a fan of the characters and story but to be honest... I read Jordan Silver's books for one reason, and it isn't the plot. *wink*

Nanci **WarningIWASASailor??MyMouthisDirty says**

Wow this is one of JS better books. I'm kind of shocked lol

It was good! It did remind me of the whole "fifty shades" theme. Troubled Billionaire only after sex and wants zero emotions involved. She signs a contract, has zero say, was a virgin. He's closed off with a sad past. So he never talked to her and she had to be completely quite during sex.

Thalia works for Jonas and develops a huge crush on him. He offers her a place to live, to be his assistant and to have sex whenever he wants, wherever he wants with no strings attached. She has to be at his beck and call, can't go anywhere and can tell no one of their relationship. Of course she falls in love with him and he was kind of an ass. You can totally see how far gone with him she was with him and it was sad. I wanted to slap her and tell her to move one.

However, the story line was good and kept me entertained and enthralled. I did figure out early on why Jonas was the way he was. I did feel for him and once he realized what a douche he was to Thalia he totally makes up for it and lays it out for her. It was cute!!

Laurie says

This one just did not work for me. The h was just a great big doormat. I could not get past all the ridiculousness she put up with. He had a tragic past but was really just an ass. It all works out In the end, but by that point, I was beyond caring.

Chantal ❤? says

3 SHUT UP STARS

This is the story of Jonas a rich widower who has lost his wife and child in an accident and Thalia a young woman who works for him. He makes he become his mistress by having her sign a contract and dominating

the whole relationship. Including when, where, and how they have sex!

After reading this whole book I can honestly give this a review. I will say that this book was BAD because it was not up to JS usual.

However, for me the thing that stood out the most was the missing male perspective.

If anyone who knows JS usual writing, it's filled with mostly the male POV. This is one time I would have actually enjoyed some of that. I would have like to understand more about his crappy treatment of her here. Instead we get this:

"Don't I deserve better? Don't I deserve someone to hold me at night, to wake up next to me in the morning? Don't I deserve someone who wanted all of me? What had I done? To let myself fall in love with a man of whom I knew there was no hope of him ever returning the sentiment was beyond stupid. I'd rolled the dice and lost, and whatever might've been with time, was going to die a swift death very soon." She thinks after he leaves her after silent sex.

She goes back and forth with the idea of leaving his controlling ass. He is a cold selfish bastard who is only thinking of what he wants and what makes him happy.

When we finally get to the last 2 chapters, we get the Jonas POV. His thoughts in relations to his actions. :
"When I think about that contract now, I'm almost ashamed. Not so much about the contract, but some of the things I'd asked of her. I'd made her pay for someone else's fuck-ups."

"If there is such a thing as a soul mate she's mine. I've never felt more complete, more worthwhile than I do now. She and our daughter are the best part of my day, everyday. No matter what else is going on in my life, the business, which was flourishing, the millions I make. None of it comes close to what those two bring to me."

SAFETY and triggers: faithful no cheating, no OM/OW drama other than the hero punishing the heroine for his wife's cheating, NO CONDOMS AT ALL. He does get tested here however. Punishing sex, spanking, toys, elements of bondage, and lactation.

BTW Leonor's comments and warning about the content are totally true here. This book is not about a protective alpha until the end. This is not a book I would recommend to everyone and it was not up to the usual JS standard in my opinion.

-----original thoughts about this book-----

HE TREATS HER LIKE HIS MISTRESS AND THE NO TALKING DURING SEX THING!
NOPE NOT GOING TO TOUCH THIS!

Still love the author but when you write a Zero/Hero unless he does something major to make it up to her I am NOT GOING THERE!

Bookloverme says

After a lot of interruptions, I'm finally done. I know my safety friends won't like this one (see safety below). I didn't expect to like it as much as I did. I really enjoyed it! Maybe because I'm used to Jordan Silver's writing style and like what Chantal said, it was like Fifty Shades which I've read a few times already. So if you're a fan of JS and you like Fifty Shades, you'll like this one too.

The story is about Jonas, 33 and Thalia, 25.

Jonas is a wealthy businessman. Since the death of his wife and son over two years ago, he never commit to anyone else. But one look at Thalia and he can't get her out of his mind

Thalia works for him and was promoted as his assistant and at the same time, his mistress. They have a contract. He set up a house for her with a car (view spoiler) and she must be available to him anytime and anywhere he likes. He never stayed with her though. He doesn't want her making a sound during sex. He never let anyone get too close.

I don't know if it's just me but yes, he's with a lot of women but he's different when it comes to her. He may not know it yet at the time but he wanted to keep her and the contract was his way of tying her to him. And I felt the change in him. But like I said, this book is not for most of my safety friends.

There's an epilogue with marriage and babies.

SAFETY:

(view spoiler)

Preeti ♥? (Romance She Reads) says

Despite the very cheesy mistress-by-contract routine, I actually liked it better than a few JS I've read. Because? For one - the h is shown having rebellious thoughts (okay just thoughts but still!) and it's not filled cover to cover with mindless sex as her other books. There are some thought processes allowed! Okay, so he's a major db who treats her shabbily with his no-talk booty calls, and then that punishment sex was disturbing but it also added hugely to the angst and was a sort of a water shed moment in the book. But it has to be said that his nebulous inner conflict at using her for emotionless sex, is there right from the beginning.

The problem for me was the ending. It lost the chance to be more and settled for corny. And then all his 'caring' after he realises she's pregnant was nonsense really. He actually suspected beforehand and so that cruel BDSM sex scene of the previous night doesn't really fit with his melting into a caring guy the next day just because she's pregnant. Another eyeroll moment was when he chides her for harming 'his child' by running away and driving interstate. Really, dude! Those marathon sex sessions (before and after the preg revelation) and that silver beads act was sure good for the baby! And the epilogue tells us he sometimes spanked her till she can't sit down for a day during the pregnancy too. Wow, really caring!
