### **Loralee says**

The kids really liked this one. Each chapter is a different short story, some we liked better than others. But still a cute, fun read aloud.

### **Ava Jericho says**

One of my favourite childhood books. Still have it, still read it. Enid Blyton ruled.

Read this when I was 10 years old. Still my favorite Enid Blyton's book.

### **Declan Smyth says**

This was always a favourite book of mine growing up. Something about the wide-eyed mysticism of the fictional heart-warming stories resonated with me and till this day still does. Although the fifteen short stories bluster through at brevity, each contains a clear message. Be it the importance of good manners of 'Hold Your Tongue' or the compassion of 'The Little Brown Bear', Blyton's mastery of engaging young minds is as present today as it ever was.

### **Fizzy says**

I liked it so far.
