**The Paris Plot** Tracy Grant , Teresa Grant (Pseudonym )

*In the fallout of one of history's bloodiest battles, a personal war is waged...*

Paris in 1816 is reeling from the Battle of Waterloo, and relations between the British and French are uneasy at best. So it's hardly a surprise to British attaché and Intelligence Agent Malcolm Rannoch when he and his wife Suzanne, soon to give birth to their second child, become the target of violent threats. Malcolm is certain that the secrets of his past have caught up with him—but he's unaware that Suzanne has more than a few secrets of her own...

The Rannochoes both served as spies throughout the Napoleonic Wars, Malcolm for the British and Suzanne for the Bonapartist French—and both could have left any number of enemies in their wake. But even for two seasoned agents, finding a would-be killer in a country where allegiances are tested and no one can be trusted may prove as impossible as escaping their history...

## The Paris Plot Details

## From Reader Review The Paris Plot for online ebook

### Kiki Belle says

At the risk of sounding cruel, this was unnecessary and frankly stupid. If there was a conversation about their secrets between Suzanne and Malcolm, I would have loved it, but all it was was the birth of their second child (their only child, as it is, since Malcolm isn't Colin's father) and some "mystery" involving nothing more or less.

---

### Barbara Literski says

#### New life

The war is over, Waterloo has come and gone but memories still linger. Malcolm and Suzanne Rannoch are living in Paris awaiting the birth of their child. Rocks are thrown with messages attached to them and no one knows why. That night their daughter is born is then they discover the reason for the plot.

---

### Jack Vasen says

[ And it turns out to be a character that I don't remember hearing about at all prior to the revelation. I think that is bad writing. (hide spoiler)]

---

### Mary B. Grove says

#### Trivial, but readable for those interested in the series

comes after The Paris Affair, gives a little further detail on what's going on in some characters' lives, but doesn't move the story along.

---

### Lynn Spencer says

**3.5 stars** As with everything I've read by Tracy Grant, this story is well written. If you're a fan of the Rannochs as I am, you will likely enjoy this story because it lets the reader be present for the birth of their child. There's a bit of a mystery woven into the plot, but it doesn't amount to much. The main joy with this story is getting to have a quick visit with characters that readers of Grant's other books, particularly **The Paris Affair**, will have grown to love. If you're not familiar with the series, this would not be the best intro and I would recommend going back to the beginning or diving into one of the full-length novels.

---

### **Sylvia Abrams says**

Having enjoyed the longer Rannoch mysteries, I turned to this novella. Although it has a clever twist at its resolution, this book is clearly part of a money-making series and does not advance the back stories of the main characters.

---

### **Betty Strohecker says**

Great novella about the birth of Malcolm and Suzanne's baby, including a short but welldone mystery as they await the blessed event. High emotions help create suspense among our main characters, as well as a revelation about a minor character.

---

### **Misfit says**

This is a very short novella, and from the author's notes inside was written for fans of the series so they could \*witness\* the birth of Malcolm and Suzanne's second child. There's a bit of a mystery for our pair to solve, naturally, but nothing earth shattering. If you're a die-hard fan of the series, go ahead and read it, but you aren't going to miss any pertinent plot points by skipping this one.

Kindle copy obtained via library loan.

---

### **Kathleen Freeman says**

A nice quick short read, overall it was just okay for me. However it was wonderful to see Malcolm there for the birth of Jessica.

---

### **Glen says**

Too short even to be a novella, and not interesting as a short story. A minor filler in the history of the protagonists. It was not expensive, but should have been free.

---

### **Foggygirl says**

A quick, well written adventure detailing the birth of Suzanne and Malcolm's daughter Jessica, very sweet.

---

### **Paul Burnette says**

This novella fills the time between Waterloo and the Berkeley Square Affair. Threats of revenge from an unknown enemy come sailing into the lives of the pregnant Suzanne and Malcolm, their friend Henri Rivaux, friends Harry and Cordelia Davenport, and even their footman Valentin. The tensions of their secrets place additional strains on Malcolm and Suzanne, but they still manage to grow their relationship as their family expands to add baby Jessica to the circle of their uneasy but somehow steadfast love.
